Svi Shapiro, 2009-03-04 Bringing together a group of the best and most creative educational thinkers to reflect on the purpose and future of public education this collection of original essays by leading social and educational commentators in North America attempts to articulate a new vision for education especially public education and begin to set an alternative direction

Charter School Report Card Shawgi Tell, 2016-04-01 What is a charter school Where do they come from Who promotes them and why What are they supposed to do Are they the silver bullet to the ills plaguing the American public education system This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions It shows that charter schools as a whole lower the quality of education through the privatization and marketization of education The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements Society and its members need a fully funded high quality public education system open to all and controlled by a public authority

**Canaries Reflect on the Mine** Jeanne Cameron, 2012-12-01 In *Canaries Reflect on the Mine* Dropouts Stories of Schooling Jeanne Cameron invites the reader to see schooling and early school leaving through the eyes of high school dropouts themselves The transcendent desires revealed by this research to be known and valued to learn with purpose and autonomy are spoken with poignant clarity by the young people who story these pages This study offers a compelling and timely critique of the dominant neoliberal discourse on schooling and early school leaving It challenges conventional wisdom about dropouts and shows how the experiences and needs of those who leave school early and those who persist to graduation are more similar than different Collectively these young people's stories evoke a canary in the mine metaphor one where the canaries exit and the miners remain They implore us to see the dropout crisis as a symptom of the alienating and dehumanizing school practices advanced by No Child Left Behind and Race to the Top More importantly they offer a vision for schooling that lovingly embraces and extends all students experiences enriches their biographies and celebrates and supports each of their talents and purposes with equal passion Pre service and in service teachers educational researchers and policy makers administrators and advocates for equitable and democratic schooling have much to learn from this book Qualitative researchers will find a powerful model for working collaboratively with youth to represent their experiences and to craft solutions to the challenges they face Students of sociology will discover a compelling illustration of C Wright Mills sociological imagination and his charge to take it big by drawing connections between individual biographies and the social and historical structures that frame lived experience For professional social scientists it embodies Mills challenge to embrace the moral sensibilities required to understand and improve the human condition

*Youth Culture, Education and Resistance*, 2010-01-01 *Youth Culture Education and Resistance* Subverting the Commercial Ordering of Life is a ground breaking

collection of essays that illustrate how youth culture has the potential to build solidarity amongst teachers activists scholars and practitioners for the purposes of confronting the dominant ideological doctrine influencing life at today s historical juncture emblemized through neoliberalism as well as building a society free from oppressive social formations Several leading international scholars and educators provide empirically and theoretically rich portraits of youth challenging the commercialized status quo inside and outside K 12 classrooms They also illustrate how cultural manifestations of youth speak directly against the social actors who continually vilify youth as the source of their own marginalization and the world s suffering and misery

Childhoods Gaile Sloan Cannella,Lourdes Diaz Soto,2010 For the past 20 years a range of scholars educators and cultural workers have examined dominant discourses of childhood using critical feminist and other postmodern perspectives Located in a variety of disciplines these poststructural deconstructive and even postcolonial critiques have challenged everything from notions of the universal child to adult child dualisms to deterministic developmental theory The purpose of this volume is to acknowledge the profound contributions of that large body of literature while demonstrating the ways that critical analyses can be used to generate avenues actions that increase possibilities for social justice for those who are younger while at the same time avoiding determinism In this time of globalization hyper capitalism and discourses that would control and disqualify through constructions like accountability we believe that projects such as this are of utmost importance The volume is divided into four major sections to reflect the multiplicity of human voices and perspectives section I contemporary circumstances and dominant discourses within which we all attempt to function sections II and III and the generation of new possibilities for constructing relationships together section IV Finally a voice from the heart within a reconceptualist social science agenda for early childhood studies is presented

*Education Reform in the American States* Jerry McBeath,Maria Elena Reyes,Mary Ehrlander,2008-04-01

*Education Reform in the American States* is a timely evaluation of the accountability movement in American public education culminating in the No Child Left Behind Act federal legislation of 2002 The authors treat the current accountability movement placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states prospects for meeting their NCLB targets The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students The audience for this study includes local state and federal education policy makers administrators and instructors in schools of education and other teaching programs educators and the general public
