Medicare and Medicaid Guide ,1969 **Cutting Health Care** Roberto Alvarez-Galloso,2006-04 Rationing can be defined as a way of limiting products in short supply in order to assure equal distribution World History has examples of rationing Examples have included the USA during World War II and Cuba since 1961 Recent examples in Medicine have included Oregon and the Czech Republic Recently Great Britain with its National Health System has considered rationing According to the BBC News Article Rationing Only Option for NHS dated February 7 2001 the representatives of the British Medical Association Royal College of Nursing Patients Private Health Care Providers and the Pharmaceutical Industry concluded Increased rationing is the only way to go forward BBC Look North of East Yorkshire Lincolnshire UK Local TV News Program on January 14 2005 had a segment on how Doctor Visits have been replaced by Paramedics **Too Much Information?** United States. Committee on Finance,2002 *107-2 Hearing: Regulatory Relief For Medicare: The Case For Cutting Red Tape, S. Hrg. 107-1038, May 28, 2002, ** ,2004 Federal Energy Regulatory Commission Reports United States. Colburn,Bruce Leff,Mariah L. Robertson,Mattan Schuchman,2024-11-25 Older adults are living longer with more chronic disease and functional impairment than at any other time in history Office based practice is inadequate to meet the needs of patients who have difficulty leaving their homes for routine or urgent visits and health care clinicians must choose between trying to manage their problems via telehealth or sending them to the emergency room via ambulance Indeed many clinicians receive little or no training in home based medical care and are unable to consider a home visit that might avert a health crisis or an emergency room visit Other clinicians know that house calls are possible but may not know how to work them into day to day practice In recent years a growing number of clinicians have focused their practice on home based medical care to meet the rising need In fact there has been a substantial increase in house calls provided to Medicare beneficiaries In 2023 over 750 000 traditional Medicare beneficiaries and in 2022 over 680 000 Medicare Advantage beneficiaries received longitudinal home based medical care While the number of house calls has increased rapidly the number of clinicians providing those visits has markedly decreased

suggesting that clinicians who are providing such care are making it the sole focus of their practice This book is intended to be a practical reference for any clinician who has struggled to care for an older adult who has difficulty getting to the office By describing fundamental principles of geriatric house call medicine and application to specific diseases and conditions we hope to provide clinicians with the tools they need to provide timely compassionate and high quality care for their older adult patients The second edition has been updated to reflect changes in the healthcare system and approaches to care since the publication of the first edition
