Ulrike Ottinger Laurence A. Rickels, 2008 Since 1974 German filmmaker Ulrike Ottinger has created a substantial body of films that explore a world of difference defined by the tension and transfer between settled and nomadic ways of life In many of her films including Exile

Shanghai an experimental documentary about the Jews of Shanghai and Joan of Arc of Mongolia in which passengers on the Trans Siberian Express are abducted by Mongolian bandits she also probes the encounter with the other whether exotic or simply unpredictable In Ulrike Ottinger Laurence A Rickels offers a series of sensitive and original analyses of Ottinger s films as well as her more recent photographic artworks situated within a dazzling thought experiment centered on the history of art cinema through the turn of the twenty first century In addition to commemorating the death of a once vital art form this book also affirms Ottinger s defiantly optimistic turn toward the documentary film as a means of mediating present clashes between tradition and modernity between the local and the global Widely regarded as a singular and provocative talent Ottinger s conspicuous absence from critical discourse is for Rickels symptomatic of the art cinema s demise Incorporating interviews he conducted with Ottinger and illustrated with stunning examples from her photographic oeuvre this book takes up the challenges posed by Ottinger s filmography to interrogate ultimately the very practice and possibility of art cinema today Laurence A Rickels is professor of German and comparative literature at the University of California Santa Barbara and the author of several books including *The Case of California* *The Vampire Lectures* and the three volume *Nazi Psychoanalysis* all published by Minnesota He is a recognized art writer whose reflections on contemporary visual art appear regularly in numerous exhibition catalogues as well as in *Artforum* *artUS* and *Flash Art*

The Alchemist in Literature Theodore Ziolkowski, 2015 Unlike most other studies of alchemy and literature which focus on alchemical imagery in poetry of specific periods or writers this book traces the figure of the alchemist in Western literature from its first appearance in the Eighth Circle of Dante s *Inferno* down to the present From the beginning alchemy has had two aspects exoteric or operative the transmutation of baser metals into gold and esoteric or speculative the spiritual transformation of the alchemist himself From Dante to Ben Jonson during the centuries when the belief in exoteric alchemy was still strong and exploited by many charlatans to deceive the gullible writers in major works of many literatures treated alchemists with ridicule in an effort to expose their tricks From the Renaissance to the Enlightenment as that belief weakened the figure of the alchemist disappeared even though Protestant poets in England and Germany were still fond of alchemical images But when eighteenth century science almost wholly undermined alchemy the figure of the alchemist began to emerge again in literature now as a humanitarian hero or as a spirit striving for sublimation Following these esoteric romanticizations as scholarly interest in alchemy intensified writers were attracted to the figure of the alchemist and his quest for power The fin de siecle saw a further transformation as poets saw in the alchemist a symbol for the poet per se and others influenced by the prevailing spiritism as a manifestation of the religious spirit During the interwar years as writers sought surrogates for the widespread loss of religious faith esoteric alchemy underwent a pronounced revival and many writers turned to the figure of the alchemist as a spiritual model or in the case of Paracelsus in Germany as a national figurehead This tendency theorized by C G Jung in several major studies inspired after World War II a vast popularization of the figure in novels historical set in

the present or juxtaposing past and present in England France Germany Italy Brazil and the United States The inevitable result of this popularization was the trivialization of the figure in advertisements for healing and cooking or in articles about scientists and economists In sum the figure of the alchemist in literature provides a seismograph for major shifts in intellectual and cultural history
