

AMERICAN HORTICULTURAL SOCIETY
2015 RECIPROCAL ADMISSIONS PROGRAM
Participating Gardens, Arboreta, and Conservatories

Program Guidelines:

A current membership card from the American Horticultural Society (AHS) or a participating RAP garden entitles the visitor to special admissions privileges and discounts at many different types of gardens. The AHS provides the following guidelines to its members and the members of participating gardens for enjoying their RAP benefits:

- **Call the garden you would like to visit ahead of time.** Some gardens have certain exclusions for special events, or if you live within 90 miles of the garden, etc. Each garden has its own unique admissions policy and hours of operations, which is also why we recommend checking ahead of time to get the most up-to-date information.
- Present your current membership card to receive the RAP benefit(s) listed for that garden. Each card will only admit the individual(s) whose name is listed on the card. In the case of a family, couple, or household membership card that does not list names, the garden must extend the benefit(s) to at least two of the members. Beyond this, gardens will refer to their own policies regarding household/family memberships. Some gardens may require a photo ID.
- The 90-mile Exclusion policy allows a garden to exclude members of gardens within 90 miles of it from receiving the RAP benefit(s). For AHS members, the exclusion is based on their home address. **Please contact the garden you belong to or the garden you plan to visit to inquire about their enforcement of this policy.**
- Remember that the gardens you visit rely on admission and donations to maintain their collections and gardens for all to enjoy. Please support them by visiting their gift shops or making a contribution.

Labor, Health and Human Services, Education, and Related Agencies, 2016 **Philippines Trade Policy and Regulations Handbook Volume 1 Strategic and Practical Information** IBP USA, **Handbook of Research on Leadership Experience for Academic Direction (LEAD) Programs for Student Success** Salinitri, Geri, 2020-02-28

Leadership Experience for Academic Directions LEAD is a program that was developed as a service learning program for teacher candidates in preparation for the teaching career. As youth populations continue to diversify and as the issues impacting youth continue to surface, it is the responsibility of educators, administrators, and the governments to provide all the opportunities for youth to succeed academically, socially, and personally. Teachers especially are instrumental in making this happen; therefore, it is imperative that teachers come into the profession with the cognitive and non-cognitive skills to motivate youth to succeed. The Handbook of Research on Leadership Experience for Academic Direction LEAD Programs for Student Success is a critical scholarly book that explores the many facets of the teaching profession as they relate to working with at-risk youth and helping them reach their full potential. This book provides the groundwork for programs that will succeed at the K-12 education level and at the teacher education level. Featuring a range of topics such as human capital, mental health, and social learning theory, this book is essential for academicians, teaching professionals, administrators, professional development educators, policymakers, researchers, and students.

Cooperation, Reciprocity, and Behavioral Ethics Kristian Myrseth, Conny Ernst-Peter Wollbrant, Gustav Tinghög, 2022-10-25 [From Migrant to Worker](#) Michele Ford, 2019-04-15 What happens when local unions begin to advocate for the rights of temporary migrant workers asks Michele Ford in her sweeping study of seven Asian countries Until recently unions in Hong Kong Japan Malaysia Singapore South Korea Taiwan and Thailand were uniformly hostile towards foreign workers but Ford deftly shows how times and attitudes have begun to change Now she argues NGOs and the Global Union Federations are encouraging local unions to represent and advocate for these peripheral workers and in some cases

succeeding From Migrant to Worker builds our understanding of the role the international labor movement and local unions have had in developing a movement for migrant workers labor rights Ford examines the relationship between different kinds of labor movement actors and the constraints imposed on those actors by resource flows contingency and local context Her conclusions show that in countries Hong Kong Malaysia and Thailand where resource flows and local factors give the Global Union Federations more influence local unions have become much more engaged with migrant workers But in countries Japan and Taiwan for example where they have little effect there has been little progress While much has changed Ford forces us to see that labor migration in Asia is still fraught with complications and hardships and that local unions are not always able or willing to act

The Geopolitics of Culture John Van Oudenaren,2024-06-15 Through the lens of James Billington and the institution he led as Librarian of Congress during a key period of US Russian relations The Geopolitics of Culture examines culture as a neglected area of US foreign policy Billington advised presidents and members of Congress and mobilized the resources of the Library of Congress to promote reform in Russia He believed that rather than preaching to the Russians the United States should expose the rising generation of Russian leaders to what was best in America and encourage them to rediscover positive elements in pre Bolshevik Russian culture The Geopolitics of Culture is the first book to chronicle Billington s influence on US engagement with Russia as it transitioned from communism to democracy under Gorbachev and Yeltsin and back to authoritarianism under Yeltsin and Putin Drawing on published and archival sources including recently released papers and interviews with current and retired Library of Congress staff members John Van Oudenaren casts new light on this era Billington s efforts led to a remarkable degree of cooperation between the Library of Congress and Russian cultural and political institutions Yet these efforts ultimately failed as Putin turned back toward authoritarianism The experience of the Library of Congress during this period nonetheless holds important lessons for today Billington believed that a transition to democracy in Russia was essential if the United States was to head off the geopolitical nightmare of a Eurasia dominated by an alliance of hostile authoritarian powers The geopolitics of culture thus remains a challenge for US foreign policy
