Macdonald, Simon Popple, 2012-11-15 The 1984 5 Miners Strike was one of the most important political events in British history It was a bitter dispute that polarised public opinion divided nation and families alike and the results in terms of the destruction of centuries of industrial and cultural tradition are still keenly felt The social and political consequences of this dispute which have resonated for the past quarter century have been subject to detailed analysis and reflection The consequences for the arts and popular culture are less clearly mapped This book attempts to begin to redress this imbalance and signal the importance of popular cultural activity both during and after the strike The essays that appear in this book represent diverse and multidisciplinary responses to the questions raised by the strike and its relationships to a broad range of cultural forms which include literature film photography music theatre television drama and documentary painting public art and heritage interventions These responses are organised around four themes that map the interrelatedness between cultural representation cultural intervention and historical memory The first deals with the idea of mining culture and pre strike representations in popular sentiment film and literature The second examines the role cultural forms played directly in the context of the strike as a means of political commentary activism and fund raising The third looks at subsequent cultural renderings or reconstructions of the strike and the final section looks at

the current process of memorialisation and commemoration The book draws together a range of voices from academia heritage cultural and mining backgrounds and offers both a historical perspective on the range of cultural activities in the course of the dispute and subsequent readings and re readings It aims both to provide a record of cultural intervention and stimulate new dialogues and perspectives

**Violence and Dystopia** Daniel Cojocaru, 2015-09-18 Violence and Dystopia is a critical examination of imitative desire scapegoating and sacrifice in selected contemporary Western dystopian narratives through the lens of Ren Girard s mimetic theory The first chapter offers an overview of the history of Western utopia dystopia with a special emphasis on the problem of conflictive mimesis and scapegoating violence and a critical introduction to Girard s theory The second chapter is devoted to J G Ballard s seminal novel Crash 1973 Chuck Palahniuk s Fight Club 1996 and Rant 2007 and Brad Anderson s film The Machinist 2004 It is argued that the car crash functions as a metaphor for conflictive mimetic desire and leads to a quasi sacrificial crisis as defined by Girard for archaic religion The third chapter focuses on the psychogeographical writings of Iain Sinclair and Peter Ackroyd Walking the streets of London the pedestrian represents the excluded underside of the world of Ballardian speed The walking subject is portrayed in terms of the expelled victim of Girardian theory The fourth chapter considers violent crowds as portrayed by Ballard s late fiction the writings of Stewart Home and David Peace s GB84 2004 In accordance with Girard s hypothesis the discussed narratives reveal the failure of scapegoat expulsion to restore peace to the potentially self destructive violent crowds The fifth chapter examines the post apocalyptic environments resulting from failed scapegoat expulsion and mimetic conflict out of control as portrayed in Sinclair s Radon Daughters 1994 Margaret Atwood s The Handmaid s Tale 1985 and Oryx and Crake 2003 and Will Self s The Book of Dave 2006

Sport, Media and Regional Identity Simon Roberts, 2015-11-25 The increasing potency of identity politics across Europe often sees sport acting as a vehicle for the promotion and celebration of regional and sub national identities However while the relationship between sport the media and national identity has featured in numerous academic and political debates in recent years the links between sports media and regional identity have received little attention This seems a curious oversight because the links between sport and region frequently become a celebration of the local and the distinctive

emblematic of community and continuity This volume will explore that sense of the counter hegemonic where sport is celebrated by a media often keen to promote notions of difference which might verge on rebellion in some contexts conceived as resisting global homogeneity or national hegemony At other times they may merely reflect a commercial nose for the local audience s tastes but there is always the sense of preserving something important a celebration of the diversity that makes us human This book considers the centrality and cultural significance of particular sports or clubs to regional and sub national identities across Europe and beyond adopting a comparative approach to the mediatized nature of such portrayals

**Recovering Police Legitimacy** Rafe McGregor,2024-07-11 Transatlantic policing is experiencing an unprecedented crisis of legitimacy epitomised by public responses to the murders of George Floyd and Sarah Everard during the COVID 19 pandemic Legitimacy is lost when the police either fail to protect the public or rely on coercion rather than consent to achieve that protection Recovering Police Legitimacy challenges conventional criminological political and public solutions to the problem by approaching it from the bottom up beginning with policing as a practice constituted by a unique set of excellences skills and characteristics The author draws on his experience as a police officer and on the serial fictions of James Ellroy David Peace and Nic Pizzolatto to characterise the practice in terms of heroic struggle edgework absolute sacrifice and worldmaking These characteristics provide an analytic tool for revolutionising our understanding of the relations among policing as a situated practice public protection and police legitimacy and for identifying the different levels at which legitimacy is undermined His conclusion is that recovery is possible but will be slow in pace and incomplete in scope Written accessibly for students police officers policymakers scholars and anyone with an interest in police legitimacy this is a groundbreaking study of a pressing social problem
