**Local Acts of Violence: Global Issues** Rochelle Green, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 Local Acts of Violence Global Issues shares a history of violence as a means of questioning how we should contend with the often exceedingly disturbing instances of violence in our shared cultural and national pasts

*Towards applying a green infrastructure approach in the Gauteng City-Region* Christina Culwick, Samkelisiwe Khanyile, Kerry Bobbins, Stuart Dunsmore, Anne Fitchett, Lerato Monama, Raishan Naidu, Gillian Sykes, Jennifer van den Bussche, Marco Vieira, 2019-12-11 In the context of heightened climate variability thinking about ways to redesign our urban areas with more sustainable infrastructure solutions is becoming more and more important Green infrastructure GI is emerging as an alternative approach to traditional grey infrastructure in urban planning and development Its emergence can be understood in terms of the growing demand for infrastructure and services increased concerns over natural resource constraints and climate change and the negative impacts associated with traditional approaches to designing and building cities It has been proposed that GI can provide the same services as traditional infrastructure at a similar capital cost while also providing a range of additional benefits However despite the increasing examples of successful urban GI applications traditional infrastructure continues to dominate due to the lack of systematic evidence to support GI implementation As a result there has been an increase in calls from policy and decision makers for a greater evidence base on the benefits of GI as well as for practical guidelines on its implementation Towards applying a green infrastructure approach in the Gauteng City Region is the GCRO s third report in its ongoing research into Green assets and infrastructure The first two reports in this project series were more theoretically grounded and policy oriented whereas this third report is more practical in nature The first report explored the basic principles around GI assessed the extent of ecological features in Gauteng and the way governments in the province think about planning and maintenance of green assets The second report responded to some of the challenges identified in the first report and in particular the importance of government officials and practitioners in exploring how international green infrastructure plans could be applied in the Gauteng context This third report builds on the findings of the aforementioned reports and the project s CityLab series which highlighted the need to build an evidence base as critical for garnering support for and as well as enhancing investment in the GI approach Unlike the more theoretically grounded earlier reports this report comprises four technical sections and practical reflections on how a GI approach could be incorporated into urban planning in the GCR and

in other similar urban contexts      Politics in South Africa Tom Lodge, 2003 This insightful study now completely revised and in its second edition examines the pattern of politics that has emerged in South Africa under the Mandela and Mbeki administrations In considering the changes brought about in power relations in the country since 1994 the book looks at among other things the shape of regional and local politics land reform the Truth and Reconciliation Commission and the extent of political corruption Further chapters consider the future prospects of South African democracy and provide assessments of both Nelson Mandela and his successor as President Thabo Mbeki This well informed and crisply written introduction will appeal to both students of contemporary politics and general readers interested in the new democracy North America Indiana U Press South Africa David Philip NAB      *Life History Research* ,2009-01-01 Much has been written about lifehistory research in recent times It has been paraded as a counterculture to the traditional research canon and celebrated as a genre that promotes methodological pluralism However lifehistory researchers have an obligation to transcend spurious claims about the perceived merits of the methodology and extend the debates around how the genre simultaneously problematises and responds to the competing challenges of Epistemology Methodology and Representation In conceiving of each of the chapters from an epistemological perspective the authors focus on how their individual work has crossed or expanded traditional borders of epistemology and ontology of how the work has satisfied the rigours of thesis production and contributed to changing conceptions of knowledge what knowledge gets produced and how knowledge is produced when we make particular methodological choices Since any methodological orientation is invariably selective and the researcher is always involved and implicated in the production of data the authors focus on what selections they have made in their projects what governed these choices what benefits deficits those choices yielded and what the implications of their research are for those meta narratives that have established the regimes of truth legitimacy and veracity in research Knowledge production is inextricably linked to representation In the process of articulating their findings each author made particular representational choices sometimes transgressing conventional approaches The book explores why these choices were made and how the choices influenced the kinds of knowledge generated The book provides theoretical justifications for these transgressions and reflect on how the experience of representation helped disrupt the authors essentialist notions of research production and for whom it is produced This book is not another celebration of lifehistory as a counterculture The book hopes to be a deeply critical contribution to disrupt notions around epistemological authority voice and power and how these are mediated by the delicate relations of the researcher and researched The problematises and complicates the assumptions that frame this genre with a view to highlighting the potential hazards of the method while demonstrating its potentiality in shaping our conceptions of Ethics Methodology and Representation      *"Township economies": Uses, meanings and key debates in the Gauteng context* Mamokete Modiba, This paper presents multiple meanings of township economies and the implications of key debates around framing township economic development Overlaps in various national

and provincial government strategies have included government procurement in townships settlement upgrading promoting entrepreneurship and creating a conducive regulatory environment for productivity These efforts notwithstanding the paper points out the need to include township development within broader national policy and encourages discussion on important concerns such as bringing jobs to people or people to jobs      Sustainable Manufacturing? **The Infrastructures of Security** Martin

Murray, 2022-08-15 The shift from dependence upon human decision making in security services to Artificial Intelligence

Development: An Antidote For Poverty And Inequality? Adrian Sayers, 2022-12-22 For more than a century development discourse and practices have been central to initiatives to change and improve the human condition in response to poverty deprivation oppression and inequality It has informed public policies and shaped the public institutions charged with its implementation and its relations with various forms of associational life Development An Antidote for Poverty and Inequality Reflections on Governance Planning Impact and Accountability in South Africa circa 1994 to 2020 is an attempt to examine the extent to which this has occurred in South Africa an environment that has been impregnated by burgeoning corruption since 1994 the 2008 global economic crises and most recently the COVID 19 pandemic The pursuit of public policies such as the Reconstruction and Development Programme RDP the National Development Plan NDP as well as other related sectoral policies and legislation all envisaged the development of institutional capacity to facilitate planning and implementation This institutional capacity and resource mobilisation would be enhanced by the formation of partnerships with the private sector civil society However challenges remain in ascertaining progress through the measurement of performance and the evaluation of impacts nationally and in selected regions and local areas This book documents and outlines these challenges

**Scholarship of education and human rights in diversity** Erika M. Serfontein, Charl C. Wolhuter, Shantha

Naidoo, 2023-03-01 The objective of this book is to highlight the need and value of imbuing the dynamic intersections between education human rights and diversity with perspectives from the Global South The chapters approach key intellectual conundrums of the day from a Global South perspective to reflect a credible scholarly footprint in Africa and in the SADC region This is deemed timely considering that the field is deeply embedded in western Eurocentric and overall Global North dominance This book will provide a Southern perspective on education and human rights in diversity by unpacking each of the following key areas in the intersection between education human rights and diversity from a Southern perspective comparative international perspectives citizenship education human rights literacies human rights education pedagogy learner discipline in schools aggression and bullying in schools addressing human trafficking by means of human rights education social justice and the decolonisation of human rights and human rights education *Responsible*

*Reproductive Choice in the 21st Century* Malcolm de Roubaix, 2023-01-05 This book systematically traces the development significance and implications of female reproductive choice Paramount is the right to safe termination of pregnancy TOP In the USA these rights are under threat after the reversal of Roe v Wade 1973 confirming the eternally contested nature of the pro life pro choice standoff The approach is unique and from all angles historical social emotional and legal South African experience is evaluated against a global backdrop Arguing from an ethics of responsibility the book presents a justified balanced rational and moderate position on the moral acceptability of TOP It proposes that the morality TOP be evaluated by

balancing inherent foetal moral significance against contingent potentiality context and circumstance that may determine foetal development TOP is a choice a woman faces with each pregnancy It always has moral implications exclusive to the life of the woman So too do continued pregnancy and parenthood but these are of greater magnitude and duration Investing in Health Research and Development Ad Hoc Committee on Health Research Relating to Future Intervention Options,1996 This report deals with policy for health R the continually changing nature of several major microbial threats the emergence of major epidemics of noncommunicable disease and injury and inefficiency and inequity in health systems **E-Commerce Adoption and Small Business in the Global Marketplace: Tools for Optimization** Thomas, Brychan,Simmons, Geoff,2010-01-31 This book focuses on isolating what determines the adoption of e commerce applications that will optimize potential opportunities presented to small businesses through adoption Provided by publisher The Uganda Gazette Uganda,2013 **Active Citizen Participation in E-Government: A Global Perspective** Manoharan, Aroon,Holzer, Marc,2012-02-29 This book focuses on the issues and challenges involving adoption and implementation of online civic engagement initiatives globally and will serve as a valuable guide to governments in their efforts to enable active citizen participation Provided by publisher *Precarious Liberation* Franco Barchiesi,2011-06-01 Winner of the 2012 CLR James Award presented by the Working Class Studies Association Millions of black South African workers struggled against apartheid to redeem employment and production from a history of abuse insecurity and racial despotism Almost two decades later however the prospects of a dignified life of wage earning work remain unattainable for most South Africans Through extensive archival and ethnographic research Franco Barchiesi documents and interrogates this important dilemma in the country s democratic transition economic participation has gained centrality in the government s definition of virtuous citizenship and yet for most workers employment remains an elusive and insecure experience In a context of market liberalization and persistent social and racial inequalities as jobs in South Africa become increasingly flexible fragmented and unprotected they depart from the promise of work with dignity and citizenship rights that once inspired opposition to apartheid Barchiesi traces how the employment crisis and the responses of workers to it challenge the state s normative imagination of work and raise decisive questions for the social foundations and prospects of South Africa s democratic experiment
