Invitation to Learning, 1952 *Leading with Love and Laughter* Zina Sutch, Patrick Malone, 2021-05-25 Leadership has for too long been treated as a function and not as a relationship Zina Sutch and Patrick Malone argue that successful leadership must be based on love altruism and empathy and laughter positive emotions and joy Science tells us that humans are deeply wired for empathy and compassion and that our emotional selves help us make better decisions and motivate others However the tactics we use to train leaders bear little reflection of these advancements we're still creating competent but emotionally distant leaders who manage human assets and lead by setting goals deadlines and deliverables Zina Sutch and Patrick Malone hope to flip a light switch and illuminate above all else that leadership begins with heart and soul Too many training programs reduce leadership to an equation matrix or acronym But leadership is a relationship It's one human helping another The most successful leaders show they genuinely care about their employees and are well fun It's just like any relationship In seven succinct chapters the authors show that people lead best when they tap into their genetically driven human nature to love and nurture connect and trust Leading with love and laughter offers powerful dividends tighter teams stronger performance improved morale greater trust more creativity and even better health While Sutch and Malone cite the science and offer examples tips and practices their larger purpose is to reintroduce the warmth of human interaction and emotion as the foundation of what leadership is all about

Stories from the Trenches: Humorous and Lively Doings of Our 'Boys Over There' Carleton B. Case, 2022-06-03. *Stories from the Trenches* by Carleton B. Case provides insight into the dreadful life of the men in the trenches. Naturally, there are wartime horrors that those who have lived through them will retain to themselves. The 25 selected letters are primarily about American soldiers during the United States officially entering the war and after that with brief jokes interspersed to break the tension. Excerpt ONE of the strangest of the many personal romances which the war has brought is the tale of a man who dismissed from the British Army by court martial redeemed himself through service with that most heterogeneous of organizations, the French Foreign Legion. His name was John F. Elkington and he had held an honored post for more than thirty years. Then just as his regiment in the closing months of 1914 was going into the fighting on the Western front, he was cashiered for an unrevealed error and deprived of the opportunity to serve his country.

Budd,1999-07-28 This book is the first systematic comprehensive gathering of the reviews primarily in the United States and Britain of Mark Twain's books published up until 1917 The reviews collected here give the reader an unfiltered sense of how Twain's books and his reputation looked to his audience at the time In addition by devoting attention to each of Twain's books this volume moves away from the current distorting emphasis on a small number of publications and thus provides a broader perspective on Twain's career Sharks in the Arts Vivienne Westbrook,Shaun Collin,Dean Crawford,Mark Nicholls,2018-05-11 This book is the most thorough exploration to date of the many ways in which a wild creature has been absorbed reimagined and represented across the ages in all of the major art forms The authors consider not only how the identity of sharks in the natural environment became incorporated into a cultural environment but also how sharks came to be considered the most feared creatures in the open oceans as a consequence of this incorporation Yet sharks are especially important in helping to maintain a balance that is essential to the health of the oceans The book begins with a treatment of the three sharks at the top of global shark attack files from scientific economic and environmental perspectives Subsequent chapters engage with cultural representations of sharks in poetry drama art novels screenplay adaptations and films Through an exploration of the ways in which sharks have been represented in human culture through the centuries this book alerts the global community to the importance of sharks as a common cultural heritage It aims to change perceptions of sharks so that they can become more revered than feared The authors of this book argue that an increased understanding of sharks should lead to the development of better strategies for shark and human interactions This book will be of great interest to researchers and students of the Environmental Humanities Cultural History and the Arts It is also excellent supplementary reading for courses in Zoology and Marine Science
