Ocr Art A Level Grade Boundaries:

OCR Psychology Philip Banyard, Cara Flanagan, 2013-09-05 OCR Psychology Third Edition is endorsed by OCR for use with the OCR AS Psychology specification. This book prepares students for all elements of the OCR Psychology AS exam. It covers both research methods and core studies, giving the who, what, where, and even the why of each study. It also looks at some of the work that followed the studies. Key features of the book include Psychological Investigations, the first chapter of the book, which helps students to understand research methods in psychology; useful support for the Psychological Investigations exam; and for understanding the core studies themselves. Core Studies: each study is described first in a nutshell, followed by a detailed account of the aims, method, results, and conclusions. Guidance is given on how each study can be evaluated, and a wealth of extra materials is provided for each study: questions to assess understanding, practical activities, multiple choice and exam style questions, further reading, and video links. Background to each core study is included in the Starters and Afters, featuring information about related research before and after the study, and biographical details of the researcher. Approaches, perspectives, issues, and methods are considered in a brand new chapter to cover the themes of the course and prepare students for the long answer questions on the Core Studies exam. Exam guidance: each chapter ends with short and long answer exam style questions, answered by students with teacher feedback. The book is presented in colourful and well-structured magazine style spreads to aid the learning process. This 3rd edition has been completely revised and is now accompanied by a companion website featuring an extensive range of online resources for both teachers and students, including answers to the questions posed in the book, glossary, flash cards, and multiple choice test banks. *The Times Index*, 2007. The material on this website has been written to help teachers who are teaching the new OCR specification for Art and Design at AS and A2 level. The advice provided covers all the endorsements and includes issues such as changes to the assessment procedures, setting up new courses, how to manage the exams, and how to present work for moderation. Examples of students' work show how to interpret the assessment criteria, and there are templates of documents for students. These are provided in Word so that they can be edited to suit individual requirements. Ocr Art and Design for As/A Level. Shirley Ballantyne, Margaret Tudge, Mike Ball, Lin Walker, 2008.
