Reciprocal Program Ontario 2014:

Reciprocal Learning for Cross-Cultural Mathematics Education Sijia Cynthia Zhu, Shu Xie, Yunpeng Ma, Douglas McDougall, 2020-12-15 This edited volume examines new ways of teaching mathematics through a cross cultural reciprocal learning project between sister schools in Canada and China. Situating teacher learning in the intersection of the two different school systems, curriculums and cultures of mathematics learning and teaching in both nations, this volume offers teachers a unique and much needed perspective on how practices between countries become more and more likely shaped by each other in the emerging global society. Born out of a comparative study project sponsored by the SSHRC, this volume compiles five years worth of findings from reciprocal partnerships between researchers, teachers, school administrators and students from both nations. Through the process of reciprocal learning and narrative inquiry, the research described in these chapters illuminates the unknown and shares newly created mathematics education knowledge. [Narrative Inquiry into Reciprocal Learning Between Canada-China Sister Schools](#) Yuhua Bu, 2021-01-29 This edited volume explores how Chinese school based educators learn from others and attain awareness in dialogue with the world in an era of increasing globalization and information exchange. Minzhu Primary School in Shanghai, China and Bay Street School in Toronto, Canada have been connected as sister schools of cross cultural exchange since 2008. Together they have explored ways to reciprocally learn in a cross cultural partnership while remaining grounded in their home culture and language. In this book, chapter authors examine how Chinese school based educators view themselves, understand others and grow and develop as a consequence of a decade of cross cultural reciprocal learning as sister schools. Further, the authors discuss prospects for future educational interactions between Canada and China. **West-East Reciprocal Learning in Teacher Education** Shijing Xu, Yibing Liu, Zuochen Zhang, Michael Connelly, Chenkai Chi, 2024-10-21 During this uncertain time, teacher education has never been more needed for West-East dialogues and Reciprocal Learning. Xu and Connelly's concept of reciprocal learning aims to harmonize the West-East dichotomy and foster appreciation in education and understanding of each other's culture and history. This book focuses on the field work done by the Teacher Education Research Team with chapter contributors from Canadian and Chinese professors, graduate students and pre-service teachers who have been deeply engaged in the RLP. Following Xu and Connelly's conceptual framework of Reciprocal Learning as Collaborative Partnership, the book begins with knowing the Teacher Education RLP, followed by doing the West-East reciprocal learning through the program. It concludes with a discussion of the envisioned future of the RLP and commentaries from distinguished scholars in teacher education, one from the West and the other from the East. **Reciprocal Learning between Canada and China in Language and Culture Education** Shijing Xu, Luxin Yang, Yuhua Deng, Shuai Fu, 2024-11-07 This book engages Canadian and Chinese language educators, graduate students, pre-service teachers, school principals and teachers in an enhanced reciprocal learning process by collaboratively reflecting on and writing up the school based language curriculum projects and

school based language teachers professional development activities in Canada China sister schools The objective is to develop a knowledge base for generating positive reciprocal practitioner knowledge and methods to improve language teaching effectiveness in either context In this way it contributes to a public discussion of the reciprocal educational impacts on the knowledge based society in Canada and China **ICICKM2014-Proceedings of the 11th International**
