Red Birds Song:

The Red Bird's Song Sandy Tippet-Smith, 2013-10-16 A young adult fiction that is told from a young girl's perspective and imagination that takes us away on an unforgettable journey. It weaves two stories: one of a family's experience with keeping a loved one in their home while moving through the dying process with the help of Hospice. It is also a story of a Grandmother and her granddaughters' journey into another world where birds are their twin souls who journey with them throughout life in so many subtle ways. I am really excited about this story and feel it came from my heart with the hope it can find a place of healing for anyone going through the loss of a loved one. However, it focuses on a child's interpretation that brings an element of fantasy and adventure into their journey into life's final months. It is also written as a resource to how Hospice Care can help a whole new way of experiencing the dying and letting go process of our beloveds with dignity. It also gives a great deal of honor to birds with both a scientific as well as symbolic information about these particular characters who, as I said before, are twin souls, our reflections. The book has been a collaborative effort by my niece who has beautifully illustrated the story, my mother's own enthusiasm and her great desire that we create this story, and my burning desire to put this story to page. Life and Death is our whole journey, and this book intends to express the joy and the sorrow that we weave together to make our lives worthy of celebration from start to finish. Bird Songs Les

Beletsky, 2018-10-16 In Bird Songs, ornithologist Les Beletsky profiles 250 birds alongside colorful illustrations and includes a digital audio player that provides the corresponding song for each of the 250 birds. Drawing from the collection of the world-renowned Macaulay Library at the Cornell Lab of Ornithology, Bird Songs presents the most notable North American birds, including the rediscovered ivory-billed woodpecker, in a stunning format. Renowned ornithologist Les Beletsky provides a succinct description of each of the 250 birds profiled, with an emphasis on their distinctive songs. Lavish full-color illustrations accompany each account, while a sleek built-in digital audio player holds 250 corresponding songs and calls. In his foreword, North American bird expert and distinguished natural historian Jon L. Dunn shares insights gained from a lifetime of passionate study. Complete with the most up-to-date and scientifically accurate information, Bird Songs is the first book to capture the enchantment of these beautiful birds in words, pictures, and song. **Runnin' Redbirds** Eric Vickrey, 2023-11-21

The 1982 St. Louis Cardinals played an entertaining style of baseball built on speed and defense. The roster was constructed and piloted by Whitey Herzog, a baseball visionary who tailored his team for the AstroTurf and spacious dimensions of Busch Stadium. Herzog traded for closer Bruce Sutter, speedsters Lonnie Smith and Willie McGee, and defensive wizard Ozzie Smith, adding to a talented roster that included the likes of Bob Forsch, Keith Hernandez, and George Hendrick. The result was an exhilarating season filled with winning streaks, numerous obstacles, and one unforgettable steal of home. The Cardinals won the National League pennant despite hitting the fewest home runs in the major leagues, then overcame baseball's most powerful team, the Milwaukee Brewers, in the World Series. This exhaustive account chronicles the Cardinals from Herzog's
