

Thank you for purchasing this SentrySafe or ProStaff by SentrySafe gun safe product.

Please read this manual before using this product.

We are pleased that you have chosen one of our gun safes to protect your firearms. You can be assured that your safe meets the California Department of Justice standards for firearm safety.

This manual will provide you with the information you need to:

- unpack and set up your safe
- open the safe
- operate the lock
- take full advantage of your safe's special features.

Remember to keep your combination a secret. Writing down a combination and putting it in a desk drawer is like leaving your door key under the mat – it invites entry.

Unbolting your gun safe from the shipping pallet

WARNING!

This is a two-person operation and should not be attempted without help. Before attempting to unbolt your new safe, be certain someone is with you to help steady the safe while you work. Ensure the safe is standing upright on a flat, level surface. (Fig. A)

NOTE: Sentry Group is not responsible for any costs incurred for unit to be removed from pallet and installed in place.

Tools/equipment required

- Adjustable wrench, pliers, or 17 mm (3/4") socket wrench
- Hammer

Instructions

1. Using a wrench or pliers, remove the nuts located under the X-cut in the carpet in the bottom of the unit. (Fig. B)

NOTE: If the bolts turn when you begin to remove the nuts, reach between the slats of the pallet and hold the bolts, by hand and/or with pliers, as you turn the nuts.

2. Once the nuts are removed, use a hammer to tap the bolts through the bottom of the safe.
3. Close door and put handle in locked position.
4. With your help, slide safe to one edge of pallet. Tip the safe so that the edge moves to the floor. (Fig. C)
5. Remove the pallet and stand the safe upright on the floor.

Bolt-down instructions

To help provide maximum security, Sentry strongly recommends this safe be bolted down. (Hardware supplied)

1. Select a suitable and convenient location for your safe. Set the safe in place and use the holes provided in the bottom or back of the safe to mark the location of the holes to be drilled in the floor or wall. It is not recommended to attempt to bolt to both floor and wall. If bolting to a wall, please ensure that the safe is resting firmly on the floor.

Note: Fire-Safe models cannot be bolted to the wall.

2. Move the safe away and drill holes of the appropriate diameter and depth for the type of hardware and the mounting surface being used (2 each – bolts, washers and masonry anchors).
3. Place the safe back over the holes and install the fasteners as required. If a water resistant unit was purchased, rubberized washers are provided. Assure that the area around the safe hole opening is clean using a damp cloth. Place the rubber side of the washer facing down against the safe floor and install the fastener.

Water-resistant models must be bolted down. The supplied hardware MUST BE USED to bolt the safe to the floor to ensure the watertight seal, or the water-resistance claim is invalid. See "Water-resistance protection" on page 6.

NOTE: Sentry Group is not responsible for any costs incurred if unit is to be replaced.

Lock instructions

Compare the Serial Number on the back cover with the number found on the lower right side of the safe. **If the numbers do not match, do not attempt to operate the combination and call Sentry Customer Service at 1-800-828-1438 or 1-563-381-4900, 9:00 a.m. – 8:00 p.m. E.S.T., M-F.**
