Stark, 2021-09-12 The Samsung Galaxy Watch 4's headline feature is a revamp of its software that combines the look and feel of Samsung's existing Tizen platform and the functionality of Wear OS. It has good fitness features, strong battery life, and a comfortable design. The screens on both Galaxy Watch 4 models look bright and are easy to read. The resolution is also impressive with the 40mm watch featuring a 396 x 396 resolution and the 44mm model taking that up to 450 x 450. That's 330 pixels per inch for both models. One unique feature of the Galaxy Watch 4 compared to other smartwatches is its virtual rotating bezel feature. There's no physical rotating bezel here, go for the Watch 4 Classic if that's a feature you want, but you can run your finger around the black bezel of the screen to rotate through menus and access different features. Each model is also IP68 water and dust resistant, which means you can take them into water up to five meters deep.
