

Important: The steps below apply to Blu-ray players sold in the US only, if your player was sold in another country go to Samsung.com/country and then select your country and search for your model number to locate Firmware updates and instructions.

It's important to keep your player's firmware up to date to help ensure playback compatibility with new releases, to correct any potential issues with the player and to add new features if and when they become available. This guide will walk you through the steps of updating your players' Firmware using the USB update method.

Getting Started

You will need:

- Download the latest Firmware file from samsung.com/us/support, for step by step instructions see 'Downloading Firmware' below.
- A blank USB flash drive or thumb drive, remove any files from the drive before copying your Firmware
- Blu-ray remote control

Downloading Firmware

1. Go to www.samsung.com/us/support and enter your model number in the search field.
2. Scroll down the support page and click the **Manuals & Downloads** tab.
3. Click the **ZIP icon** below Download File.
4. A Global Download center prompt displays, click **Continue** to agree and proceed. If you choose not to agree to the terms click the X on the top right corner of the prompt, this will bring you back to the download center.
5. A file download prompt appears, click **Save**.
6. A Save As prompt appears, click the location where you want to save the file. To easily locate your file, click the **Desktop** option on the left and then click **Save**. The file will begin downloading. Depending on you network connection this can take 30 seconds up to 5 minutes, on average it takes about a minute.
