JSL Vol 25-N2 JOURNAL OF SCHOOL LEADERSHIP,2015-03-26 The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts We welcome manuscripts based on cutting edge research from a wide variety of theoretical perspectives and methodological orientations The editorial team is particularly interested in working with international authors authors from traditionally marginalized populations and in work that is relevant to practitioners around the world Growing numbers of educators and professors look to the six bimonthly issues to deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement Still Failing Stephen J. Caldas,Carl Leon Bankston,2015 Still Failing The Continuing Paradox of School Desegregation is a significantly updated and revised version of Caldas and Bankston s previous book *Forced to Fail The Paradox of School Desegregation* The book includes an analysis of the most significant Supreme Court cases that have been decided in the ten years since the first edition of the book appeared The authors consider the important implications of these recent rulings for the future of school desegregation in America s schools Social capital theory is used to explain why schools and communities continue to be segregated along racial and ethnic lines Still Failing also provides the most recent U S census and Department of Education statistics documenting the continuing segregation of American schools and districts The book also continues to track the persistent racial achievement gap using the newest ACT SAT and NAEP testing figures Finally the book considers what present segregation trends portend for future efforts to racially and ethnically integrate schools and close achievement gaps Additional key features of this book include Historical antecedents showing how and why American schooling became racially segregated Social capital theory to explain school and community segregation The legal history of all important supreme court cases congressional laws and presidential executive orders related to school segregation and desegregation Easy to read and interpret graphs and figures The most up to date school population and census information Controls and Choices Carl L. Bankston III,Stephen J. Caldas,2015-07-08 Many activists and writers have ascribed continuing racial segregation in American schools to a failure of will In this view forced transfers of students and other aggressive judicially mandated policies would lead to greater equality in education if only legislators and judges had the will to continue trying to

make school districts conform to plans for redesigning schools and even American society Controls and Choices The Educational Marketplace and the Failure of School Desegregation provides a detailed examination of the nature of the educational marketplace supported by historical evidence to argue that school desegregation failed because it involved monopolistic efforts at redistributing opportunities These efforts were fundamentally at odds with the self interest of the families who had the greatest ability to make choices in the educational marketplace The authors use the concept of the educational marketplace to explain how market based attempts at school reform notably vouchers and charter schools have grown out of the failure of desegregation and remain hampered by lack of recognition of how the schools really function as markets Some additional key features of this book include Gives a clear understanding of how schools function as markets Illustrates the argument with histories of specific school districts Links the history of school desegregation to school vouchers and charter schools Includes easy to read and interpret graphs and figures Includes most up to date school population and census information

Caldas,Carl L. Bankston III,2005-08-30 Caldas and Bankston provide a critical dispassionate analysis of why desegregation in the United States has failed to achieve the goal of providing equal educational opportunities for all students They offer case histories through dozens of examples of failed desegregation plans from all over the country The book takes a very broad perspective on race and education situated in the larger context of the development of individual rights in Western civilization The book traces the long legal history of first racial segregation and then racial desegregation in America The authors explain how rapidly changing demographics and family structure in the United States have greatly complicated the project of top down government efforts to achieve an ideal racial balance in schools It describes how social capital a positive outcome of social interaction between and among parents children and teachers creates strong bonds that lead to high academic achievement The authors show how coercive desegregation weakens bonds and hurts not only students and schools but also entire communities Examples from all parts of the United States show how parents undermined desegregation plans by seeking better educational alternatives for their children rather than supporting the public schools to which their children were assigned Most important this book offers an alternative more realistic viewpoint on class race and education in America

resources *Divided We Fail* Sarah Garland, 2013-01-29 Examines why school desegregation despite its success in closing the achievement gap was never embraced wholeheartedly in the black community as a remedy for racial inequality In 2007 a court case originally filed in Louisville Kentucky was argued before the Supreme Court and officially ended the era of school desegregation both changing how schools across America handle race and undermining the most important civil rights cases of the last century Of course this wasn't the first federal lawsuit to challenge school desegregation But it was the first and only one brought by African Americans In *Divided We Fail* journalist Sarah Garland deftly and sensitively tells the stories of the families and individuals who fought for and against desegregation By reframing how we commonly understand race education and the history of desegregation this timely and deeply relevant book will be an important contribution to the continued struggle toward true racial equality *Public Education—America's Civil Religion* Carl L. Bankston, Stephen J. Caldas, 2015-04-18 In this volume the authors argue that public education is a central part of American civil religion and thus gives us an unquestioning faith in the capacity of education to solve all of our social economic and political problems The book traces the development of America's faith in public education from before the Civil War up to the present exploring recent educational developments such as the No Child Left Behind legislation The authors discuss how this faith in education often makes it difficult for Americans to think realistically about the capacities and limitations of public schooling Bringing together history politics religion sociology and educational theory this in depth examination raises fundamental questions about what education can accomplish for the citizens of the United States points out that many supposedly opposing viewpoints on public education actually arise from the same root assumptions exposes the gaps between our pursuit of equity in schools and what we really accomplish with students looks at ways in which education can be organized to serve a diverse population Critical Race Theory in Education Gloria Ladson-Billings, 2021 This important volume brings together key writings from one of the most influential education scholars of our time In this collection of her seminal essays on critical race theory CRT Gloria Ladson Billings seeks to clear up some of the confusion and misconceptions that education researchers have around race and inequality Beginning with her groundbreaking work with William Tate in the mid 1990s up to the present day this book discloses both a personal and intellectual history of CRT in education The essays are divided into three areas Critical Race Theory Issues of Inequality and Epistemology and Methodologies Ladson Billings ends with an afterword that looks back at her journey and considers what is on the horizon for other scholars of education Having these widely cited essays in one volume will be invaluable to everyone interested in understanding how inequality operates in our society and how race affects educational outcomes Featured Essays Toward a Critical Race Theory of Education with William F Tate IV Critical Race Theory What It Is Not From the Achievement Gap to the Education Debt Understanding Inequality in U S Schools Through a Glass Darkly The Persistence of Race in Education Research and Scholarship New Directions in Multicultural Education Complexities Boundaries and Critical Race Theory Landing on the Wrong Note The Price We Paid for

Recognizing Race and Ethnicity, Student Economy Edition Kathleen Fitzgerald, 2019-07-05 To better reflect the current state of research in the sociology of race ethnicity this book places significant emphasis on white privilege the social construction of race and theoretical perspectives for understanding race and ethnicity

Recognizing Race and Ethnicity Kathleen J. Fitzgerald, 2017-03-14 Despite promising changes over the last century race remains a central organizing principle in US society a key arena of inequality power and privilege and the subject of ongoing conflict and debate In this second edition of *Recognizing Race and Ethnicity* Kathleen J Fitzgerald continues to examine the sociology of race and encourages students to think differently by challenging the notion that we are or should even aspire to be color blind Fitzgerald considers how race manifests in both significant and obscure ways by looking across all racial ethnic groups within the socio historical context of institutions and arenas rather than discussing each group by group Incorporating recent research and contemporary theoretical perspectives she guides students to examine racial ideologies and identities as well as structural racism at the same time she covers topics like popular culture sports and interracial relationships This latest edition includes an expanded look at global perspectives on racial inequality including international migration and Islamophobia updated examples of contemporary issues including the Black Lives Matter movement more emphasis on intersectionality specifically the ways sexuality and race intersect and an extended discussion on why the sociology of race and the sociological imagination matter *Recognizing Race and Ethnicity* continues to reflect the latest sociological research on race ethnicity and provides unparalleled coverage of white privilege while remaining careful not to treat white as the norm against which all other groups are defined

School Reform, Corporate Style Dorothy Shipps, 2006 Like other big city school systems Chicago's has been repeatedly reformed over the last century Yet its schools have fallen far short of citizens expectations and left a gap between the performances of white and minority students Many blame the educational establishment for resisting change Other critics argue that reform occurs too often still others claim it comes not often enough Dorothy Shipps reappraises the tumultuous history of educational progress in Chicago revealing that the persistent lack of improvement is due not to the extent but rather the type of reform Throughout the twentieth century managerial reorganizations initiated by the business community repeatedly altered the governance structure of schools as well as the relationships of teachers to children and parents but brought little improvement while other more promising reform models were either resisted or crowded out Shipps chronicles how Chicago's corporate actors led abetted or restrained nearly every attempt to transform the city's school system then asks whether

schools might be better reformed by others To show why city schools have failed urban children so badly she traces Chicago's reform history over four political eras revealing how corporate power was instrumental in designing and revamping the system Her narrative encompasses the formative era of 1880-1930 when teachers unions moderated business plans previously unexplored business activism from 1930 to 1980 when civil rights dominated school reform and the decentralization of the 1980s She also covers the uneasy cooperation among business associations in the 1990s to install the mayor as head of the school system a governing regime now challenged by privatization advocates Business people may be too wedded to a stunted view of educators to forge a productive partnership for change Unionized teachers bridle at the second class status accorded them by managers If reform is to reach deeply into classrooms Shipps concludes it might well require a new coalition of teachers unions and parents to create a fresh agenda that supersedes corporate interests This study clearly shows that in Chicago as elsewhere urban schooling is intertwined with politics and power By reviewing more than a century of corporate efforts to make education work Shipps makes a strong case that it's high time to look elsewhere perhaps to educators themselves for new leadership

Redefining Equality Neal Devins, Davison M. Douglas, 1998-01-29 The idea of equality is central to American civic life and one of the foundations of our national identity Charges of unequal treatment continue to be voiced nationwide in both the public discourse and the courts yet there is no consensus on the meaning of equality Competing views on this topic have erupted into a cultural conflict that looms large in contemporary American politics In this collection of insightful essays distinguished scholars in law history and social science present varying perspectives on this fundamental concept Addressing the specific cases behind the headlines and the abstract arguments within the legal texts the contributors look closely at everything from school bussing programs and affirmative action to the role of the courts and the politics of equality Various examples and definitions of equality culled from America's past and present are summarized and examined in ways that illustrate how and why equality issues directly affect men and women of all races and backgrounds Redefining Equality a balanced array of assessments regarding our nation's historical and contemporary thoughts on equality and civil rights will prove most informative to students of law political science and recent American history

Urban Schools, Public Will Norm Fruchter, 2007 In this important book Norm Fruchter argues that our national failure to carry out the Brown mandate has produced segregated urban school systems that fail to educate poor students of color Drawing on a rich array of research and personal experience he examines why urban districts have failed and what must be done to transform our city schools He identifies urban districts as the key actors in this transformation and profiles three school districts that have achieved significant success in closing the achievement gap He also identifies grassroots community organizing as a critical lever for provoking and supporting meaningful change in schools This provocative book should be read by all educators policymakers parents and civic activists committed to improving public education for all students Book Features Vignettes from the author's broad experience with public schooling teacher parent

organizer school board member foundation grant maker evaluator and researcher An in depth look at effective schools and the policies that support them Strategies used by grassroots campaigns to improve local schools and districts *Emerging Comorbidities in Heart Failure, An Issue of Heart Failure Clinics, E-Book* Antonio Cittadini,Hector Ventura,2019-11-28 This issue of Heart Failure Clinics guest edited by Antonio Cittadini and Hector O Ventura will cover key topics in Emerging Comorbidities in Heart Failure This issue is one of four selected each year by our series consulting editor Dr Eduardo Bossone Topics discussed in this issue will include Anabolic deficiencies in Heart Failure Thyroid Abnormalities in Heart Failure The Gut Axis Involvement in Heart Failure focus on trimethylamine N oxide TMAO Chronic Obstructive Pulmonary Disease and Heart Failure When Pulmonary Hypertension complicates Heart Failure Sex and Gender related Issues in Heart Failure Cardiac Cachexia Revisited The Role of Wasting in Heart Failure Atrial Fibrillation in Heart Failure The Impact of Obesity in Heart Failure Sleep Breathing Disorders in Heart Failure The Cardiorenal Syndrome in Heart Failure Psychological Disorders in Heart Failure Hypertension in Heart Failure among others
