Stone Butch Blues:

Stone Butch Blues Leslie Feinberg, 1993 Jess a working class woman living as a man survives a period of homelessness tries to unionize fellow workers worries about being found out and searches for community while undergoing a secret transsexual operation The Search for Identity in Leslie Feinberg's Stone Butch Blues Ester Schoefberger, 2010-12 Seminar paper from the year 2009 in the subject English Language and Literature Studies Literature grade 1.0 Dresden Technical University Institut Anglistik course HS The Cultural Study of Masculinity language English abstract Before writing this paper I didn't know what the term butch meant I tried to find out through texts and on the Internet what it meant and I soon found out that there were many different definitions I lost myself in blogs of people who defined themselves as butch and the conclusion was that the definition has to do both with femininity and masculinity After reading Leslie Feinberg's novel Stone Butch Blues 1993 the meaning of the term was at least a little more clear I decided to write the paper on this concept mainly driven by curiosity It was like looking into a room full of books and feeling the desire to read them all with the conviction that every book had to tell a different story I decided to call the paper The Search for Identity in Leslie Feinberg's Stone Butch Blues because I think that Jess's search goes beyond her self definition as a butch The story narrates the search for identity of an individual who has to choose between given categories At the end Jess chooses to refuse a stable definition because no one fits properly I chose to follow the main character through the search annotating every stage and trying to find confirmation in the critique Stone Butch Blues: A Novel Leslie Feinberg, 2003 **Study Guide**, 2018 **Female Masculinity** Judith Halberstam, Jack Halberstam, 1998 Masculinity without men In Female Masculinity Judith Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years Providing the first full length study on this subject Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth century pre lesbian practices to contemporary drag king performances Through detailed textual readings as well as empirical research Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them She rereads Anne Lister's diaries and Radclyffe Hall's The Well of Loneliness as foundational assertions of female masculine identity She considers the enigma of the stone butch and the politics surrounding butch femme roles within lesbian communities She also explores issues of transsexuality among transgender dykes lesbians who pass as men and female to male transsexuals who may find the label of lesbian a temporary refuge Halberstam also tackles such topics as women and boxing butches in Hollywood and independent cinema and the phenomenon of male impersonators Female Masculinity signals a new understanding of masculine behaviors and identities and a new direction in interdisciplinary queer scholarship Illustrated with nearly forty photographs including portraits film stills and drag king performance shots this book provides an extensive record of the wide range of female masculinities And as Halberstam

clearly demonstrates female masculinity is not some bad imitation of virility but a lively and dramatic staging of hybrid and minority genders Stone Butch Blues ,2012 This book is my comic adaptation of Leslie Feinberg s novel Stone butch blues The novel follows Jess Goldberg as she grapples with her identity as a butch and then transitions into a male body through hormone therapy In this excerpt from chapter 5 it is Buffalo in 1965 and Jess is sixteen years old Jess seeks friendship and romance in the community of pre Stonewall gay bars Artist s introduction *Every Inch a Woman* Carellin Brooks,2011-11-01 What makes the textual image of a woman with a penis so compelling malleable and persistent Although the figure of the phallic woman is in no sense unique to our age Every Inch a Woman takes note of a proliferation of phallic feminine figures in disparate North American and European texts from the end of the nineteenth century onward This multiplication which continues today admits of a corresponding multiplicity of motives The phallic woman can be a ribald joke a fantastical impossibility a masculine usurper an ultimately unthreatening sexual style an interrogation into the I of the author or an examination of female culpability Carellin Brooks takes up the textual figure of the phallic woman where Freud locates it in the imagined mother that the little boy in fantasy credits with a penis of her own It traces this phallic woman motif backward to the sexological case study and forward to newspaper accounts of testosterone taking third sexers Brooks examines both high and low literature pornography postmodern theory and writing that would seem to answer Lacan s injunction to move beyond the phallus Witty and engaging Every Inch a Woman makes an innovative contribution to sexuality gender and women s studies as well as psychoanalytic theory and criticism Queering the Color Line Siobhan B. Somerville,2000 The interconnected constructions of race and sexuality at the turn of the century *Dissenting Fictions* Cathy Moses,2014-01-14 This study elucidates the relationship between identity formation and resistance to racial and sexual oppression in a group of contemporary American novels the author terms dissenting fictions narratives that assert the subjectivity and historicity of marginalized peoples at precisely the moment when postmodern critiques proclaim the death of the subject and the inaccessibility of historical truth Of primary concern is the question of how narrative fictions conceive of strategies of resistance to oppression in an age in which the identity politics of the sixties and seventies have given way to positional subjectivities fluid identities and coalition politics Through interpretive readings of the works of well known authors Toni Morrison and Leslie Marmon Silko critically acclaimed novelist David Bradley the well respected but little studied novelist Russell Banks and the relatively unknown Leslie Feinberg whose fiction challenges accepted notions of gender the author explores a range of practices that place notions of identity in crucial relationship to resistance praxis Dissenting fictions emerge in this study as imaginative narratives that perform substantial cultural work reworking classical liberal notions of subjectivity and agency These novels address the failure of conventional individual agency and imagine an interactive agency grounded in an awareness of both a political economy and historic power relations Heroic Desire Sally Munt,1998 Questions of space have become central to theorizing identity Heroic Desire engages spatial paradigms in

considering lesbian desire Arguing against constructions of the self as alienated and fragmentary Sally Munt posits the model of heroic desire to explain how lesbian space is taken up materially and imaginatively Masculinities without Men? Jean Bobby Noble, 2010-10-01 Conventional ideas about gender and sexuality dictate that people born with male bodies naturally possess both a man's identity and a man's right to authority Recent scholarship in the field of gender studies however exposes the complex political technologies that construct gender as a supposedly unchanging biological essence with self evident links to physicality identity and power In *Masculinities without Men* Jean Bobby Noble explores how the construction of gender was thrown into crisis during the twentieth century resulting in a permanent rupture in the sex gender system and how masculinity became an unstable category altered across time region social class and ethnicity This groundbreaking study maps historical similarities in fictional cultural and representational practices between the periods of modernism and postmodernism Noble examines nineteenth century sexology drama and trial transcripts and late twentieth century counter cultural fiction popular film and documentaries and theoretical texts Among the works analyzed closely are texts that have been the focus of lesbian queer and feminist theory Radclyffe Hall's *The Well of Loneliness* Leslie Feinberg's *Stone Butch Blues* and the film *Boys Don't Cry* These as Noble illustrates make use of similar types of narratives structures and thematic techniques to articulate female masculinity Also included is an exploration of Rose Tremain's *Sacred Country* which has never before been studied within this context Through a critical examination of these texts Noble demonstrates that transgendered and trans sexual masculinity began to emerge as a unique category in late twentieth century fiction distinct from lesbian or female masculinity Of interest to scholars and students with an interest in sexuality and gender studies *Masculinities without Men* also makes a vital contribution to literary criticism as well as to cultural and film studies

Making Sense of Nature Noel Castree, 2013-08-15 We listen to a cacophony of voices instructing us how to think and feel about nature including our own bodies The news media wildlife documentaries science magazines and environmental NGOs are among those clamouring for our attention But are we empowered by all this knowledge or is our dependence on various communities allowing our thoughts sentiments and activities to be unduly governed by others *Making Sense of Nature* shows that what we call nature is made sense of for us in ways that make it central to social order social change and social dissent By utilising insights and extended examples from anthropology cultural studies human geography philosophy politics sociology science studies this interdisciplinary text asks whether we can better make sense of nature for ourselves and thus participate more meaningfully in momentous decisions about the future of life human and non human on the planet This book shows how nature can be made sense of without presuming its naturalness The challenge is not so much to rid ourselves of the idea of nature and its collateral concepts such as genes but instead we need to be more alert to how why and with what effects ideas about nature get fashioned and deployed in specific situations Among other things the book deals with science and scientists the mass media and journalists ecotourism literature and cinema environmentalists advertising and big

business This innovative text contains numerous case studies and examples from daily life to put theory and subject matter into context as well as study tasks a glossary and suggested further reading The case studies cover a range of topics range from forestry in Canada and Guinea to bestiality in Washington State to how human genetics is reported in Western newspapers to participatory science experiments in the UK Making Sense of Nature will empower readers from a wide range of fields across the social sciences humanities and physical sciences

The Cambridge Companion to Gay and Lesbian Writing Hugh Stevens, 2010-11-25 In the last two decades lesbian and gay studies have transformed literary studies and developed into a vital and influential area for students and scholars This Companion introduces readers to the range of debates that inform studies of works by lesbian and gay writers and of literary representations of same sex desire and queer identities Each chapter introduces key concepts in the field in an accessible way and uses several important literary texts to illustrate how these concepts can illuminate our readings of them Authors discussed range from Henry James E M Forster and Gertrude Stein to Sarah Waters and Carol Ann Duffy The contributors showcase the wide variety of approaches and

theoretical frameworks that characterise this field drawing on related themes of gender and sexuality With a chronology and guide to further reading this volume offers a stimulating introduction to the diversity of approaches to lesbian and gay literature

Queer Career Margot Canaday, 2025-05-27 Historians have noted that gay identity is central to the history of capitalism but because of an assumption that workplaces were straight spaces in which queer people passed historians of sexuality have had almost nothing to say about work instead directing their attention to the street and to the bar This book presents employment and the accompanying fear of job loss as one of the most salient features of queer life for most of the twentieth century and looks at the political and legal developments of gay labor in the workplace alongside the histories of women's minorities and immigrants labor Starting midcentury with the Lavender Scare the federal government's massive purge of gay people from the Civil Service the book traces how workplaces opened to gay workers albeit unevenly over the second half of the twentieth century Drawing on a number of archival sources and interviews this is a history of the workplace that shows larger structural change while also giving voice to many underrepresented individuals Throughout Margot Canaday emphasizes the concept of precariousness a commonly deployed category within labor studies to designate that expanding category of workers in industrial societies who are detached from permanent standardized secure and protected employment While women and racial minorities also share this longer history of precarious work the LGBT experience was a particularly powerful precedent for the changing character of economic life at the end of the 20th century Despite that the book shows that workplaces were surprisingly responsive to demands from gay employees for protection and benefits Canaday shows that business was out ahead of both the government and labor unions in offering antidiscrimination protection and domestic partner benefits to gay workers The final part of the book traces how gay rights came to be the most marketized privatized civil rights social movement and how we should consider the gay experience in the workplace not as marginal or atypical but as central and predictive for all workers

Contexts, Subtexts and Pretexts Brian James Baer, 2011 This volume presents Eastern Europe and Russia as a distinctive translation zone despite significant internal differences in language religion and history The persistence of large multilingual empires which produced bilingual and even polyglot readers the shared experience of belated modernity and the longstanding practice of repressive censorship produced an incredibly vibrant profoundly politicized and highly visible culture of translation throughout the region as a whole The individual contributors to this volume examine diverse manifestations of this shared translation culture from the Romantic Age to the present day revealing literary translation to be at times an embarrassing reminder of the region's cultural marginalization and reliance on the West and at other times a mode of resistance and a metaphor for cultural supercession This volume demonstrates the relevance of this region to the current scholarship on alternative translation traditions and exposes some of the Western assumptions that have left the region underrepresented in the field of Translation Studies

Masculinity in Lesbian "Pulp" Fiction Paul Thompson, 2024-06-28 This book looks specifically and in depth for the first time at masculinity in cheap lesbian themed paperbacks of the two decades after WW2 It challenges established critical assumptions about the readership and sets the masculinity imagined in these novels against the masculinity crisis of the era in which they were written The key issue of these novels is couplehood as much as sexuality and the instability of masculinity leads to the instability of the couple Thompson coins the term heteroemulative to describe the struggle that both heterosexual and homosexual couples have in conforming to heteronormativity As several of these novels have been republished and remain in print they have taken on a new relevance to issues of sexuality and gender in the twentyfirst century and this study will attract readers within that area of interest A valuable read for sociologists studying gender roles and social historians of the cold war period in the United States It is suitable for readers of all academic levels from undergraduate through postgraduate to scholars and researchers but also for a general readership
