work for a new generation of readers and music lovers **American Popular Music: The age of rock** Timothy E. Scheurer, 1989 Beginning with the emergence of commercial American music in the nineteenth century Volume 1 includes essays on the major performers composers media and movements that shaped our musical culture before rock and roll Articles explore the theoretical dimensions of popular music studies the music of the nineteenth century and the role of black Americans in the evolution of popular music Also included the music of Tin Pan Alley ragtime swing the blues the influences of W S Gilbert and Rodgers and Hammerstein and changes in lyric writing styles from the nineteenth century to the rock era

Lonesome Words M. McGeachy, 2016-09-23 The tenth century Old English lament and twentieth century blues song each speak the language of a distinct poetic tradition yet the voices are remarkably similar in their emotive expression of loneliness This innovative study juxtaposes the texts of each corpus to explore the features that characterize their vocal poetics The British Blues Network Andrew Kellett, 2017-09-19 An exciting new examination of how African American blues music was emulated and used by white British musicians in the late 1950s and early 1960s Shadows Bright as Glass Amy Ellis Nutt, 2011-04-05 On a sunny fall afternoon in 1988 Jon Sarkin was playing golf when without a whisper of warning his life changed forever As he bent down to pick up his golf ball something strange and massive happened inside his head part of his brain seemed to unhinge to split apart and float away For an utterly inexplicable reason a tiny blood vessel thin as a thread deep inside the folds of his gray matter had suddenly shifted ever so slightly rubbing up against his acoustic nerve Any noise now caused him excruciating pain After months of seeking treatment to no avail in desperation Sarkin resorted to radical deep brain surgery which seemed to go well until during recovery his brain began to bleed and he suffered a major stroke When he awoke he was a different man Before the stroke he was a calm disciplined chiropractor a happily married husband and father of a newborn son Now he was transformed into a volatile and wildly exuberant obsessive seized by a manic desire to create art devoting virtually all his waking hours to furiously drawing painting and writing poems and letters to himself strangely detached from his wife and child and unable to return to his normal working life His sense of self had been shattered his intellect intact but his way of being drastically altered His art became a relentless quest for the right words and pictures to unlock the secrets of how to live this strange new life And what was even stranger was that he remembered his former self In a beautifully crafted narrative award winning journalist and Pulitzer Prize finalist Amy Ellis Nutt interweaves Sarkin s remarkable story with a fascinating tour of the history of and latest findings in neuroscience and evolution that illuminate how the brain produces from its web of billions of neurons and chaos of liquid electrical pulses the richness of human experience that makes us who we are Nutt brings vividly to life pivotal moments of discovery in neuroscience from the shocking rebirth of a young girl hanged in 1650 to the first autopsy of an autistic savant s brain and the extraordinary true stories of people whose personalities and cognitive abilities were dramatically altered by brain trauma often in shocking ways Probing recent revelations about the workings of creativity in the brain and the role of art in the

evolution of human intelligence she reveals how Jon Sarkin's obsessive need to create mirrors the earliest function of art in the brain. Introducing major findings about how our sense of self transcends the bounds of our own bodies she explores how it is that the brain generates an individual self and how if damage to our brains can so alter who we are we can nonetheless be said to have a soul. For Jon Sarkin with his personality and sense of self permanently altered making art became his bridge back to life a means of reassembling from the shards of his former self a new man who could rejoin his family and fashion a viable life. He is now an acclaimed artist who exhibits at some of the country's most prestigious venues as well as a devoted husband to his wife Kim and father to their three children. At once wrenching and inspiring this is a story of the remarkable human capacity to overcome the most daunting obstacles and of the extraordinary workings of the human mind. *Elle*, 2000

Blues & Gospel Records, 1890-1943 Robert M. W. Dixon, John Godrich, Howard Rye, 1997 Since its first edition in 1964 Dixon and Godrich's *Blues and Gospel Records* has been dubbed the bible for collectors of pre war African American music. It provides an exhaustive listing of all recordings made up to the end of 1943 in a distinctively African American musical style excluding those customarily classed as jazz which are the subject of separate discographies. The book covers recordings made for the commercial market whether issued at the time or not and also recordings made for the Library of Congress Archive of Folk Song and similar bodies about 20 000 titles in all by more than 3 000 artists. For each recording session full details are given of artist credit accompaniment place and date of recording titles issuing company and catalogue numbers matrix numbers and alternate takes. There are also short accounts of the major race labels which recorded blues and gospel material and a complete list of field trips to the south by travelling recording units. Howard Rye has joined the original compilers for this thoroughly revised fourth edition. The scope has been enlarged by the addition of about 150 new artists in addition to newly discovered recordings by other artists. Early cylinder recordings of gospel music from the 1890s are also included for the first time. Previous editions of this work were applauded for their completeness accuracy and reliability. This has now been enhanced by the addition of new information from record labels and from record company files and by listening to a wide selection of titles and detailed cross checking. *Dictionary of Literary Biography Yearbook, 2000* Matthew J.
