

BRC Global Standard for Storage and Distribution

Clause 3.4 Customer Contractual Arrangements

Processes should be in place to determine customers' requirements and ensure that these requirements are fulfilled.

Customer requirements for their product must be agreed with the customer and documented including any specific handling requirements for the products.

Customer requirements must be met without compromising product quality, safety and legality.

Changes to contracts should be agreed, documented and communicated to the appropriate personnel.

Customer key performance indicators should be established, performance measured and the results communicated to relevant staff.

Storage And Distribution Brc Standard

James G. Brennan, Alistair S. Grandison

Storage And Distribution Brc Standard:

BRC Global Standard British Retail Consortium, BRC, 2006 Storage and distribution is the link between all stages of the product supply chain and retail. The introduction and the implementation of this Standard represents the efforts made to ensure product safety and integrity through the supply chain. The Standard contains separate modules for the different sectors within the supply chain namely storage, distribution, wholesaling and contracted specialist services offered by storage companies such as product inspection, sorting, contract packing, repacking, assembly, packing, quantity control, inspection, contract chilling, freezing, defrost operations. EU Regulations No 178/2002, No 853/2004 legally oblige food storage and distribution companies to ensure systems are in place to supply safe and legal products. Meeting the requirements of the BRC Storage and Distribution Standard ensures best practice standards are developed, implemented and maintained for any organisation involved in the storage and/or distribution of goods. Storage and distributor companies can be certified against this Standard to demonstrate their competence in maintaining product safety and integrity. The Standard is equally relevant to companies storing and/or distributing food, consumer goods and packaging. The Standard is applicable to all forms of transportation.

Global standard for storage and distribution British Retail Consortium, 2010-09-03 The new updated Global Standard for Storage and Distribution Issue 2 will replace Storage and Distribution Issue 1 for all audits from March 2011. The Standard provides certification for the section of the supply chain between BRC Standards for the manufacture of food packaging and consumer products and the end user of these products, the retailer, food service company. Aimed at companies involved in the storage and distribution of goods, the new Standard represents a substantial upgrade to Issue 1 and builds upon experience with a new layout, simpler presentation and clearer explanation of requirements. The Standard is designed to ensure best practice in the handling, storage and distribution of products and to promote continuous improvement in operating practices. The updated Standard includes the audit requirements, scheme rules and background to the Standard and provides the basis for an accredited certification of sites storing and/or distributing food packaging and consumer products. It also enables certification of sites that wholesale products or carry out a range of contracted services.

BRC Global Standard British Retail Consortium, 2006-08-21 No public library discount on this item *BRC Global Standard* British Retail Consortium, 2007 **BRC GLOBAL STANDARD FOR STORAGE AND DISTRIBUTION** BRITISH RETAIL CONSORTIUM., 2016 **The BRC Global Standard for Food Safety** Ron Kill, 2012-06-12 This book will offer companies in the food industry a comprehensive guide to preparing for a British Retail Consortium Standard evaluation. Issue 6. It will enable them to ensure that the correct systems are in place to achieve the Standard and also that they present themselves in the best possible light during the audit process. It will also recommend the correct steps to take following evaluation and how to correct non-conformities. The book will be of interest not only to suppliers who are seeking certification for the first time but also to those already in the scheme and are seeking to improve their grades. **Global Standard for**

Food Safety - Guideline for Fresh Produce British Retail Consortium,2013-01-22 This is the latest guidance on the interpretation of the requirements of the BRC Global Standard for Food Safety Issue 6 for fresh produce packers of fruit vegetables and nuts Concentrating on areas of particular issue within the fresh produce industry this will help companies auditors and customers understand how to implement the requirement of the Standard The guideline includes practical guidance and real examples to illustrate the principles of the clauses and compliments the recently published more general interpretation guideline BRC/IoP Global Standard British Retail Consortium,Institute of Packaging,2004 Under the terms of the Food Safety Act 1990 retailers have an obligation to take all reasonable precautions and exercise due diligence in the development manufacture distribution advertising and sale of food products to the consumer This is the second issue of the publication which contains guidance on a best practice packaging standard providing a common basis for the evaluation of companies supplying packaging for food products to retailers The Standard is not intended to replace the requirements of any legislation which sets a higher standard for any specific industry sector The Standard covers a variety of issues including scope and organisation the hazard and risk management system technical management aspects factory standards contamination control personnel issues and the evaluation protocol Global standard for consumer products British Retail Consortium,Retail Industry Leaders Association,2010-02-04 Issue 3 of the BRC s Global standard for consumer products replaces issues 2 and 2a There are substantial revisions and updates to the content to take into account the increasingly complex and prescriptive safety requirements in the global consumer products market The standard covers a wide range of non food products in the global marketplace including formulated products such as shampoos paints and cosmetics fabricated items like televisions and toys electrical goods furniture and textiles Content revisions include the re definition of consumer products into three more clearly specified Product Groups depending on the level of potential risk attributable to the product The Standard also outlines an amended frequency of audits including an audit visit every year following certification New content includes the introduction of a grading system defined by the number and severity of non conformities found Fundamental clauses have been added for the most important safety issues Failure to meet a fundamental clause may result in failure to obtain certification or suspension of an existing certificate The BRC Global Standard for Consumer Products Issue 3 is the first publication to result from the partnership between the BRC and the Retail Industry Leaders Association RILA in Washington RILA promotes consumer choice and economic freedom through public policy and industry operational excellence Its members include retailers product manufacturers and service suppliers which together provide millions of jobs and operate more than 100 000 stores manufacturing facilities and distribution centers domestically and abroad **Standards for Management Systems** Herfried Kohl,2020-02-19 This book guides readers through the broad field of generic and industry specific management system standards as well as through the arsenal of tools that are needed to effectively implement them It covers a wide spectrum from the classic standard ISO 9001 for quality management

to standards for environmental safety information security energy efficiency business continuity laboratory management etc A dedicated chapter addresses international management standards for compliance anti bribery and social responsibility management In turn a major portion of the book focuses on relevant tools that students and practitioners need to be familiar with 8D reports acceptance sampling failure tree analysis FMEA control charts correlation analysis designing experiments estimating parameters and confidence intervals event tree analysis HAZOP Ishikawa diagrams Monte Carlo simulation regression analysis reliability theory data sampling and surveys testing hypotheses and much more An overview of the necessary mathematical concepts is also provided to help readers understand the technicalities of the tools discussed A down to earth yet thorough approach is employed throughout the book to help practitioners and management students alike easily grasp the various topics

A Model of Compliance for the Self-Regulation of an Industry Dr. Liz Wilks,2022-09-14 Ensuring proper hygiene has always been at the forefront of the food packaging industry that includes manufacturers and retailers In a comprehensive abstract Dr Liz Wilks shares timeless insights from the results of revolutionary research that not only reviews how the UK food packaging industry introduced a voluntary code of practice for packaging hygiene but also developed guiding principles for companies to adopt Dr Wilks examines a multitude of topics that include a literature review of the food and packaging industry and practitioner insights that include survey data findings the perceived benefit of implementing a global packaging standard and the potential drivers and or barriers to adoption While providing a glimpse into how a group of key stakeholders came together in order to develop and implement a common UK food hygiene standard she tracks one hundred companies over a five year period to help guide other industries or companies to create their own guidelines and establish key principles for models of compliance A Model of Compliance for the Self Regulation of an Industry combines careful research with case studies and other valuable information to assist sectors or companies in the development and implementation of a new industry standard
