The traditional date of 4 BCE for Herod s death as set forth by E Schurer 1896 has been accepted by historians for years without notable controversy However according to the texts of Luke and Matthew Herod died shortly after Jesus birth which can be fixed in 2 BCE Consequently there is apparently a major chronological contradiction however Josephus gives a dozen synchronisms that enable us to date his death on 26 January 1 BCE just after a total lunar eclipse 9 January 1 BCE prior to the Passover Two important events confirm the dating of Herod s death the census of Quirinius in Syria which was a part of the Inventory of the world ordered by Augustus when he became Father of the Country in 2 BCE and the war of Varus after Herod s death conducted under the auspices of Caius Caesar the imperial legate of the East and dated during the year of his consulship in 1 CE
