**Horror Literature through History** Matt Cardin, 2017-09-21 This two volume set offers comprehensive coverage of horror literature that spans its deep history dominant themes significant works and major authors such as Stephen King Edgar Allan Poe and Anne Rice as well as lesser known horror writers Many of today's horror story fans who appreciate horror through movies television video games graphic novels and other forms probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest People have always been mesmerized by stories that speak to their deepest fears Horror Literature through History shows 21st century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right Through profiles of major authors critical analyses of important works and overview essays focused on horror during particular periods as well as on related issues such as religion apocalypticism social criticism and gender readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema This unique two volume reference set provides wide coverage that is current and compelling to modern readers who are of course also eager consumers of entertainment In the first section overview essays on horror during different historical periods situate works of horror literature within the social cultural historical and intellectual currents of their respective eras creating a seamless narrative of the genre's evolution from ancient times to the present The second section demonstrates how otherwise unrelated works of horror have influenced each other how horror subgenres have evolved and how a broad range of topics within horror such as ghosts vampires religion and gender roles have been handled across time The set also provides alphabetically arranged reference entries on authors works and specialized topics that enable readers to zero in on information and concepts presented in the other sections **Alfar Anthology** Brendan Higgins, Dennis Coleman, Ivano Massari, Lee Brown, Nina Tozzi, Robert Bresloff, M. Travis Leake, Wolcott Wheeler, Edward L. Grant, Paul Martin, Clémence Roche, Chava Klahr, 2017-05-15 **Screenwriters** José Guilherme Correa, 2016-07-13 Screen writing is a unique literary form Screenplays are like musical scores in that they are intended to be interpreted on the basis of other artists performances

rather than serving as finished products for the enjoyment of their readers They are written using technical jargon and tight spare prose to describe set directions Unlike a novella a script focuses on describing the literal visual aspects of the story rather than on its characters internal thoughts In screen writing the aim is to evoke those thoughts and emotions through subtext action and symbolism Prominent Hollywood script doctors include Steve Zaillian William Goldman Robert Towne Mort Nathan Quentin Tarantino etc while many up and coming screenwriters work as ghost writers This book is a modest catalogue of some of the most prominent screenwriters listed from A to Z The good are sometimes bad and they can be even Ugly Many comments herein included were googled in deference to the multiplicity of information available today yet they reflect exactly or almost what I thought An amazing thing today is how anonymous commentators on the Internet rival and even surpass the poor quality of professional media and specialised literature It all comes down to watching the truth 24 times per second to quote Jean Luc Godard s phrase Not to mention that such truth may include sex scenes violence pedophilia etc We know that a literary masterpiece like Henry James Portrait of a Lady became a film of very poor quality as scripted by Laura Jones We know conversely that a mediocre writer like Mickey Spillane inspired at least one film as remarkable as Kiss Me Deadly thanks to A I Bezzerides script Asa former screenwriter Mr Correa must avow that he found the job most gratifying Writing that looks effortless is often hellish to write and revise It was something he did have to slog through but it proved particularly pleasing Editing discussing finishing your work is particularly gratifying Identifying your flaws and working to mitigate them is also gratifying It is a general perception that creative careers are more interesting and fun than others But the privilege of earning money through imagination and creativity is effectively hard won Please comment at will Please disagree at will Be facetious in your remarks but please be neither vicious nor mean spirited St. James Guide to Science Fiction Writers Jay P.
