Lying, Truth-telling, and Storytelling in Children's and Young Adult Literature Anita Tarr, 2023-12-20

Even though we instruct our children not to lie the truth is that lying is a fundamental part of children's development socially cognitively emotionally morally Lying can sometimes be more compassionate than telling the truth even more ethical Reading specific children's books can instruct child readers how to be guided by an etiquette of lying to know when to tell the truth and when to lie Equally important these stories can help prevent them from being prey to those liars who are intent on taking advantage of them Becoming a critical reader requires that one learn how to lie judiciously as well as to see through others' lies When humans first began to speak we began to lie When we began to lie we started telling stories This is the paradox that in order to tell truthful stories we must be good liars Novels about child artists showcased here illustrate how the protagonist embraces this paradox accepting the stigma that a writer is a liar who tells the truth Emily Dickinson's phrase "tell it slant" best expresses the vision of how writers for children and young adults negotiate the conundrum of both protecting child readers and teaching them to protect themselves This volume explores the pervasiveness of lying as well as the necessity for lying in our society the origins of lying as connected to language acquisition the realization that storytelling is both lying and truth-telling and the negotiations child artists must process in order to grasp the paradox that to become storytellers they must become expert liars and lie detectors

Adaptation, Intermediality and the British Celebrity Biopic Márta Minier, Maddalena Pennacchia, 2016-03-23

Beginning with the premise that the biopic is a form of adaptation and an example of intermediality this collection examines the multiplicity of source texts and the convergence of different media in this genre alongside the concurrent issues of fidelity and authenticity that accompany this form The contributors focus on big and small screen biopics of British celebrities from the late twentieth and twenty-first centuries attending to their myth-making and myth-breaking potential Related topics are

the contemporary British biopic's participation in the production and consumption of celebrated lives and the biopic's generic fluidity and hybridity as evidenced in its relationship to such forms as the bio docudrama. Offering case studies of film biographies of literary and cultural icons including Elizabeth I, Elizabeth II, Diana, Princess of Wales, John Lennon, Shakespeare, Jane Austen, Beau Brummel, Carrington, and Beatrix Potter, the essays address how British identity and heritage are interrogated in the re-telling and showing of these lives and how the reimagining of famous lives for the screen is influenced by recent processes of manufacturing celebrity.
