**Ayurveda for Glowing Skin: Ancient rituals and Remedies** Gaurav Garg, 2023-08-07 For thousands of years women in India have practiced ancient Ayurvedic rituals to enhance their natural beauty. These time-tested traditions bring out the most radiant and healthy version of yourself using only natural ingredients and mindfulness techniques. This book brings you the secrets of Ayurvedic beauty care from ancient scriptures and texts so you can adopt these rituals for beautiful, nourished skin and an inner glow. In our modern, fast-paced lives, we try all sorts of cosmetic products and treatments that promise flawless beauty. But these often contain harsh chemicals and provide only temporary solutions while ignoring health and wellbeing. Ayurveda takes a more holistic approach; it recognizes that true beauty comes when we are healthy and balanced inside out. This book is a result of extensive research into ancient Ayurvedic texts like Charaka Samhita and Sushruta Samhita, which have described rituals for cleansing, hydration, nourishment, and enhancing natural glow since thousands of years. It contains proven recipes of facial packs, scrubs, and oils using natural ingredients from your kitchen like essential oils, milk, yogurt, flowers, fruits, vegetables, herbs, and spices. These elements balance your doshas, heal from within, and promote natural radiance. So embark on the journey of holistic self-care and experience the diverse treatments and rituals passed down by generations of women in India who understood that true beauty originates from within. Bring out your most confident, charming, and photoshoot-ready look every single day using these safe, natural techniques inspired by Ayurveda.

**How to make natural skincare products at home: Organic moisturizers, masks, balms, polishes and exfoliants**, 2024-09-06 How to Use This Book Although this is structured like a basic recipe book and indeed you can look up any recipe and make it just like a cookbook, this is also far more than a simple collection of recipes. This book will essentially provide you with a solid toolbelt from which you can formulate your own recipes without having a degree in science, dermatology, or cosmetology. Each recipe is written for an average skin/hair type but with a little perusing of the ingredients, you will quickly learn what you should plug into the recipes to make the products work for you. Many recipes include prompts that will give you clear directions to reformulate according to your skin type. The first part introduces a variety of ingredients and is easy to reference. These ingredients have been summarized for convenience if you choose to really get into skin care. Later, you'll find that the scientific information available on each is incredible, but

unfortunately I can't cover all that here. That would be an entirely different and very large book so I leave that part up to you. Once we review the ingredients you will find recipes starting with your hair and ending at your toenails literally head to toe. And once you've picked a few recipes to make at home that you enjoy you can come back to check out how to package them to gift to others.
