

Police Research Methodology:¹

Studying Police Officers Who Deviate from 'the Police Culture'

Tobias Kammersgaard

Centre for Alcohol and Drug Research, Aarhus University, Denmark
tok.crf@psy.au.dk, tobiaskam@gmail.com

ABSTRACT

Research on the police force has typically been occupied with seeking out commonalities between police officers rather than differences. This has amounted to a vast volume of literature on the shared occupational culture of police officers that has pointed to several problematic aspects of policing. However, in this paper, I argue for the value of studying individual police officers who are doing things differently from their colleagues as a method for actually engaging with these problematic aspects. To demonstrate the viability of this methodological approach to police research, I draw on an encounter with a particular police officer from my own empirical work. I argue that conducting case studies of such police officers and describing their practices and attitudes can be a valuable contribution to the development of better and more socially just policing. These case studies of how things can be done differently can aid in imagining new and better police practices.

Keywords

police culture, case studies, methodology, impact

Since the inception of the field of police research, a recurring theme has been trying to uncover how police officers see the world collectively and how they share similar attitudes, values and ways of being. This is what has been termed 'the police culture', 'the police sub-culture' or 'the police occupational culture'². In this paper, I will argue for the value of studying those police officers who deviate from how police officers typically have been described: those who do not conform to the orthodox account of how police officers see the world.

1. Acknowledgements:

I wish to thank the participants at the YNPRN conference in May 2017 for their valuable comments and thoughts on an early version of this paper as well as the comments from the anonymous reviewers. I also wish to thank all the PhD students at the Centre for Alcohol and Drug Research for their feedback and support and finally I wish to thank Esben Houborg and Thomas Frits Søgaard for their guidance throughout the PhD project, as respectively first and second supervisor of the thesis. Last but not least, I want to thank the local police department in Copenhagen for letting me in and I want to thank the community police officer for sharing his knowledge and views with me.

2. The terms are used interchangeably throughout this paper.

Police Officer Research Paper

Daniel Donnelly, Kenneth Scott

Police Officer Research Paper:

Report Writing for Police Officers (2nd ed.) Wayne L. Davis, Ph.D., 2013-11 This book is designed for criminal justice instructors It requires them to help students work through the various police reports The reports are intentionally left incomplete to require students to work through them Some reports may seem to ask confusing questions which may lead to unreliable responses This is to be used as a lesson unreliable responses create statistics that are not valid Managers need to improve the forms in order to obtain valid data This book first discusses communication theory and how it applies to police officers and prosecutors in the courtroom Information presented in the courtroom by police officers has a significant impact upon the jurors Indeed police officers communicate both verbally and nonverbally in the courtroom and this affects their credibility on the stand Furthermore by employing persuasion theories prosecutors can align the officers testimonies to the jurors particular communication preference Second this book discusses truth as it relates to probable cause and beyond reasonable doubt Finally because report writing is a significant part of police work this book presents a variety of police forms that will engage students in written communication

FBI Law Enforcement Bulletin ,1976 **Handbook of Research on Transforming Government, Nonprofits, and Healthcare in a Post-Pandemic Era** Howard, Joanne E., 2022-10-28 The COVID 19 pandemic has offered the world and its governments many challenges in how they will conduct their responsibilities and best assist their citizens The COVID 19 pandemic not only brought a global health emergency but also helped to shed light on systemic inequalities caused conspiracy and distrust within the masses and exhausted global health services The government and nonprofit sector including healthcare education and social service organizations will have to utilize the best practices greater collaboration and joint venturing to survive post pandemic The Handbook of Research on Transforming Government Nonprofits and Healthcare in a Post Pandemic Era serves as a resource for those in education healthcare government social service and other nonprofit organizations who wish to advance their missions in an age of uncertainty It further discusses how democracy can continue to advance the world its countries and the way that we see one another Covering topics such as BIPOC academic leaders economic development and health science education this premier reference source is an essential resource for government officials public administration community leaders advocacy networks social service organizations hospital administrators health officials medical professionals students and faculty of higher education researchers and academicians
