Shaping Health Policy Through Nursing Research Ada Sue Hinshaw, Patricia A. Grady, 2010-08-26. Named a 2013 Doody's Core Title, 2011 AJN Book of the Year Winner in Nursing Research. This is a much needed addition to nursing's arsenal of policy books. It is the first to really examine the need for scientific evidence to underpin policy. The two editors are pioneers in research and have led nursing research to new levels. It is fitting they do the same in underscoring the important role nurses have in using their programs of research to develop policy agendas. Score 94. 4 stars. Key Features: Examples of NINR funded research that has been used at all levels to influence health policy, including settings, populations, and age spectrums; Models and strategies for linking research and health policy; Lessons learned from pioneer nurse scientists who have shaped health policy with nursing research; Recommendations for improving nurses' work environments for better patient outcomes.

researchers from various sub disciplines of economics and public policy Contains strategies and suggestions for textual analysis of research samples to give students an opportunity to practice key points explained in the book Is based on a comprehensive analysis of a research corpus containing 400 research articles in various areas of public policy and economics
