**A Common Good Approach to Development** Mathias Nebel, Oscar Garza-Vázquez, Clemens Sedmak, 2022-04-26 This edited collection proposes a common good approach to development theory and practice Rather than focusing on the outcomes or conditions of development the contributors concentrate on the quality of development processes suggesting that a common good dynamic is key in order to trigger development Resulting from more than three years of research by an international group of over fifty scholars the volume advocates for a modern understanding of the common good rather than a theological or metaphysical good in societies by emphasising the social practice of commoning at its core It suggests that the dynamic equilibrium of common goods in a society should be at the centre of development efforts For this purpose it develops a matrix of common good dynamics accounting for how institutions social norms and common practices interconnect by identifying five key drivers not only of development but human development agency governance justice stability humanity Based on this matrix the contributors suggest a possible metric for measuring the quality of these dynamics The last section of the book highlights the possibilities enabled by this approach through a series of case studies The concept of the common good has recently enjoyed a revival and inspired practitioners keen to look beyond the shortcomings of political and economic liberalism This book builds on those efforts to think beyond the agenda of twentieth century development policies and will be of interest to those working in the fields of development economics sociology philosophy and political science     **Encyclopedia of Heroism**

**The Political Philosophy of Pierre Manent** Joseph R. Wood, 2024-08-30 This book presents and evaluates the understanding of political form in the work of Pierre Manent. The study of political form is Manent's central philosophical task. He is interested in the nature of man in the action that makes us human and thus in politics and political action as privileged windows into human nature and what it is to be human. Manent places himself in the classical political tradition with its foundations in human nature and in a politics that accords with nature. He also situates himself within a triangle of faith, philosophy and politics, all of which interest him as part of the reality of things, even as he avoids an exclusive commitment to any one vertex in his investigation. The book first examines the major influences on Manent: the overarching questions that guide his work on political form, the theologico-political question and the question of the modern difference with the ancient view of man and politics, and his two intertwined paths of inquiry into political events and political thought. Manent describes political forms as the modes of human association that no science has taken as its specific object. City, empire, Church, national monarchy or nation state and modern state are the principal forms that he examines. The book discusses Manent's thinking on each form in turn, together with the tensions that propel the changes or motion in political form that Manent sees as driving and revealing the course of European political development. Using the work of Alasdair MacIntyre, Russell Hittinger, Étienne Gilson, Robert Sokolowski and Francis Slade, the book evaluates Manent's insights into the modern state and political condition, which he judges to be exhausted, as well as his call for the preservation of the form of the nation marked by Christianity.

*The Limits of a Divided Nation with Perspectives from the Bible* Michael Ufok Udoekpo, 2020-01-31 Michael Udoekpo's work brilliantly and pastorally discusses the issues of conflict, friction and disunity in the world and in Nigeria, in particular, from biblical, historical and sociocultural perspectives. These issues, he stresses, are endemic in various fabrics of the Nigerian society, traceable to the family as the foundation of any given society. They are also found in religious, political and media groups. Contributing factors, Udoekpo argues, are materialism, infidelity, relativism and fundamentalism. Others are ethnocentrism, anthropocentrism, ignorance, bribery and corruption, with other forms of injustices. Drawing from the Bible, Udoekpo proposes prayer, proper education, truth telling, restoration of family values, interreligious and cultural dialogue, ecumenism, enforcement of rule of law, faith and absolute trust in God as antidotes to conflict, violence, friction and disunity in our contemporary society.

*A Companion to Public Theology*, 2017-01-23 Winner of the 2017 Choice Outstanding Academic Title Award. Public theology has emerged in the twentieth and twenty-first centuries as theologians have increasingly entered the public square to engage complex issues. This Companion to Public Theology brings a much-needed resource to this relatively new field. The essays contained here bring a robust and relevant faith perspective to a wide range of issues, as well as foundational biblical and theological perspectives which equip theologians to

enter into public dialogue Public theology has never been more needed in public discourse whether local or global In conversation across disciplines its contribution to the construction of just policies is apparent in this volume as scholars examine the areas of political social and economic spheres as well as issues of ethics and civil societies and draw on contexts from six continents Contributors are Chris Baker Andrew Bradstock Luke Bretherton Lisa Sowle Cahill Letitia M Campbell Claudio Carvalhaes Katie Day Frits de Lange Jolyon Mitchell Elaine Graham Paul Hanson Nico Koopman Sebastian Kim Esther McIntosh Clive Pearson Scott Paeth Larry L Rasmussen Hilary Russell Nicholas Sagovsky Dirk J Smit William Storrar David Tombs Rudolf von Sinner Jenny Anne Wright and Yvonne Zimmerman *Encyclopedia of Governance* Mark Bevir, 2007

*Human Dignity and Liberal Politics* Patrick Riordan, 2023 This book pursues two goals in the context of resurgence of interest in the common good as a topic in political philosophy and Christian ethics The first goal is the clarification of the notion of common good elaborating it through the three lenses of Aristotelian practical philosophy twentieth century Catholic Social Thought and political liberalism The second goal is to make the case that the espousal of the common good does not entail a rejection of liberalism but that a commitment to liberal politics is compatible with faithful adherence to the Catholic tradition The first goal is warranted by the fact that many authors such as Michael Sandel who invoke the common good do not explain the concept The second is necessitated by the tendency among many contemporary Catholic authors to polarize liberalism and the common good presenting readers with a stark choice Instead of exacerbating divisions this book explores what is common even where there is difference and division The Second Vatican Council's *Gaudium et spes* invites all to a dialogue about the common good as the set of economic political legal and cultural conditions for the flourishing of human beings whether as individuals or as communities The challenge of dialogue is taken up through the three lenses identifying a heuristic concept of the common good along with two criteria for its application First no systematic exclusion of any person or group and second no systematic exclusion of any genuine dimension of the human good These criteria have their counterparts in the principles of solidarity and subsidiarity They prove their usefulness in discussion of democracy human rights and religious liberty accepting a political liberalism that can facilitate the collaboration in political life by exponents of many different worldviews and religious doctrines **The Search for Political Community** Paul Lichterman, 1996-09-19

This book challenges the myth that Americans emphasis on personal fulfilment necessarily weakens commitment to the common good Drawing on extensive participant observation with a variety of environmentalist groups Paul Lichterman argues that individualism sometimes enhances public political commitment and that a shared respect for individual inspiration enables activists with diverse political backgrounds to work together This personalised culture of commitment has sustained activists working long term for social change The book contrasts personalised politics in mainly white environmental groups with a more traditional community centred culture of commitment in an African American group The untraditional personalised politics of many recent social movements invites us to rethink common understandings of

commitment community and individualism in a post traditional world      *Searching for a Universal Ethic* John Berkman, William C. Mattison, 2014-12-29 The best contemporary English language resource on pursuing a universal ethics In this volume twenty three major scholars comment on and critically evaluate In Search of a Universal Ethic the 2009 document written by the International Theological Commission ITC of the Catholic Church That historic document represents an official Church contribution both to a more adequate understanding of a universal ethic and to Catholicism s own tradition of reflection on natural law The essays in this book reflect the ITC document s complementary emphases of dialogue across traditions universal ethic and reflection on broadly applicable ethical guidance within the Christian tradition natural law Among other things the document situates the natural law ethical tradition within the larger search for a universal ethic Along with its insightful essays *Searching for a Universal Ethic* offers for the first time in published form the Vatican s official English translation of In Search of a Universal Ethic Contributors John Berkman Serge Thomas Bonino O P David Burrell C S C Lisa Sowle Cahill Joseph E Capizzi David Cloutier Anver M Emon Robert P George Sherif Girgis Jennifer A Herdt Russell Hittinger M Cathleen Kaveny Anthony J Kelly C Ss R Fergus Kerr O P Steven A Long William C Mattison III Gilbert Meilaender Livio Melina Michael S Northcott David Novak Jean Porter Martin Rhonheimer Tracey Rowland      *Politics for a Pilgrim Church* Thomas J. Bushlack, 2015 Presents an innovative constructive alternative to Christian involvement in the culture wars Church leaders and scholars have long wrestled with what should provide a guiding vision for Christian engagement in culture and politics In this book Thomas Bushlack argues that a retrieval of Thomas Aquinas s understanding of civic virtue provides important resources for guiding this engagement today Bushlack suggests that Aquinas s vision of the pilgrim church provides a fitting model for seeking the earthly common good of the political community and he notes the features of a Thomistic account of justice and civic virtue that remain particularly salient for the twenty first century The book concludes with suggestions for cultivating a Christian rhetoric of the common good as an alternative to the predominant forms of discourse fostered within the culture wars that have been so divisive      **Ethical and Spiritual Dimensions of Social Progress** Jacques Baudot, Gilbert T. Bergquist, 1998-12 Report of a seminar on Ethical notes on the spirit of humankind human dignity sectoral perspectives market universal value of love individualism in modern science human dignity as a central value elements for a new discourse      Civic Virtue and the Sovereignty of Evil Derek Edyvane, 2013 There is a growing perception of ethical crisis in public life This book articulates a new perspective on public morality in uncertain times by defending a radical re orientation of civic ethics away from the pursuit of the good society and towards the prevention of the great evils of human existence      **Together for the Common Good** Nicholas Sagovsky, Peter McGrail, 2015-03-31 How can we work together for the common good today Thirteen contributors Christian Jewish Muslim non religious discuss the common good from a wide range of viewpoints How have thinkers like Aristotle and Edmund Burke talked about the common good in the past Catholic Social Teaching has a lot to say about the common good what does the

common good mean for the world's great religious traditions today How can we usefully talk about the common good in a plural society What responsibility has the state for the common good Can the market serve the common good If we care about the common good what should we think and do about immigration education the NHS inequality and freedom This book starts from the example of David Sheppard and Derek Worlock the Anglican Bishop and Roman Catholic Archbishop who famously worked together for the good of the city of Liverpool in the 1980s The contributors call for a national conversation about how despite our differences we can work together locally nationally internationally for the common good

*Dissensus* Jacques Rancière, 2015-07-30 *Dissensus On Politics and Aesthetics* brings together some of Jacques Rancière's most recent writings on art and politics to show the critical potential of two of his most important concepts the aesthetics of politics and the politics of aesthetics In this fascinating collection Rancière engages in a radical critique of some of his major contemporaries on questions of art and politics Gilles Deleuze Antonio Negri Giorgio Agamben Alain Badiou and Jacques Derrida The essays show how Rancière's ideas can be used to analyse contemporary trends in both art and politics including the events surrounding 9/11 war in the contemporary consensual age and the ethical turn of aesthetics and politics Rancière elaborates new directions for the concepts of politics and communism as well as the notion of what a politics of art might be This important collection includes several essays that have never previously been published in English as well as a brand new afterword Together these essays serve as a superb introduction to the work of one of the world's most influential contemporary thinkers

**Business, Globalization and the Common Good** Henri Claude de Bettignies, François Lépineux, 2009 Globalization and information technology are driving the world into a new era Is it the responsibility of business to pursue the common good and more precisely to participate in the construction of the global common good This book brings together contributions from various disciplines written by scholars who are at the forefront of this debate It provides multiple insights into a tripartite relationship business globalization and the common good It helps explain why the business sphere will probably not be in a position to ignore the common good much longer and why this latter concept widely ignored in today's management realm is likely to become part of tomorrow's corporate policies and practices in the global context Finally this work opens up a plethora of avenues for future research calling for the development of transdisciplinary approaches and for the elaboration of a research program embracing theoretical empirical and spiritual perspectives to tackle this complex issue

*In Pursuit of the Public Good* Allan J. MacEachen, 1997 An introduction and afterthought bracket seven essays from a July 1996 conference at St Francis Xavier University They focus on the current retreat of the Canadian government to explore such issues as whether more or less government is needed whether the retreat is serving the public good and whether political parties can provide effective national government They offer proposals for economic and social policies and for parties and institutions No index Canadian card order number C97 900379 2 Annotation
