Reclaiming American Catholicism John Gehring, 2025-08 The Catholic Church in the United States stands at a crossroads between crisis and opportunity At a time when only the second Catholic President in U S history is shaped by the culture and many social justice teachings of his faith the most vocal leaders in the U S Catholic hierarchy embrace a culture war Catholicism that pits them against President Biden the pastoral priorities of Pope Francis

and many Catholics in the pews This book based on many interviews and the author's own reporting makes the argument that recalibrating the church's engagement with politics and public life is vital for both the Church and the country Yet American Catholicism is not simply defined by church politics theological disputes or the latest Catholic controversy in the headlines The Church that Pope Francis envisions bruised hurting and dirty because it has been out on the streets can be found every day among Catholic advocates working on the border in the lives of young Catholics who question the church's teachings but who are active in social justice campaigns in the persistence of LGBTQ Catholics who carve out tenuous shelters in a church that doesn't accept their full humanity and in the experiences of seminarians who work in the fields with migrants as part of their religious formation Throughout the book incorporates profiles of these Catholics weaves in on the ground reporting and examines trends that are essential in understanding the Catholic experience in the United States By illuminating the stories of these Catholics the book provides a richer portrait of American Catholicism than most people see in the media as well as offering living examples of a pastoral and prophetic Catholicism that can serve as inspiration for more systemic reform and renewal

Social Catholicism for the Twenty-first Century?--Volume 2 William F.

Murphy,2024-09-19 This rich collection of essays by distinguished scholars from across the globe can be read as sketching key steps on the path toward working in solidarity to build a future worthy of the human family through a new social Catholicism These steps include a contemporary renewal of Christian humanism and of human rights while learning to live as authentic Christian witnesses in pluralistic societies after the end of Christendom They will also include working for a just and sustainable economic paradigm becoming missionary disciples with a continual orientation toward the marginalized and overcoming the plague of racism by working to build a constitutional democracy for every citizen This societal renewal will require fostering robust movements of social Catholicism apt for our age within which Catholics will pursue the Universal Call to Holiness through living their earthly vocations in a spirit of social friendship They will creatively employ social media to foster apostolates extending beyond borders In an age of dark clouds threatening dystopia a new social Catholicism will require a reinvigorated pastoral leadership that has come to appreciate the dangers of populism and the need to instead foster solidarity and incarnate Christian charity through a better kind of politics

potential Moreover their material deprivation and physical ills often prevent them from responding to the gospel Most of us conclude that we cannot do anything significant to help the impoverished children living in our own backyards let alone those living in the slums of Nairobi or the hinterlands of Haiti We can however do much to improve their lives materially and spiritually Through praying giving generously sponsoring children volunteering with aid organizations living more simply investing and shopping more prudently and advocating more zealously in the political arena we can make a difference We can prod politicians business executives and church leaders to prioritize aiding destitute children We can support one of the hundreds of organizations that are working effectively to help indigent children have better lives Suffer the Children describes the plight of poor children and provides many practical ways we can participate in one of the most important crusades to improve our world

means to agitate for change from within at a time of reckoning for the Roman Catholic Church New World Pope Michael L. Budde, 2017-06-02 He has captured the imagination of people around the world including those who thought they were done with Christianity In ways no one could have expected and no one predicted Pope Francis has become a living example of what it might mean to be a Christian in our time and place The modern world was not ready for Pope Francis but as has been demonstrated in his travels to the United States and around the world in his calls for mercy and defense of the vulnerable Pope Francis was ready for the modern world New World Pope Pope Francis and the Future of the Church explores how Jorge Mario Bergoglio became Pope Francis the ideas experiences influences and passions that have formed this pastor who has inspired challenged encouraged and angered people worldwide Ten experts from around the world scholars journalists church leaders and others provide insights into the origins and trajectories of Pope Francis vision and hopes for the Christian community in our day Persons intrigued by Pope Francis will find deeper insights into his witness via this exploration of the roots and trajectories of his sense of Christian mission and discipleship *Journalism and Ethics: Breakthroughs in Research and Practice* Management Association, Information Resources, 2019-05-03 In the modern hyperconnected society consumers are able to access news from a variety of channels including social media television mobile devices the internet and more From sensationalist headlines designed to attract click throughs to accusations of bias assigned to specific news sources it is more important now than ever that the media industry maintains best practices and adheres to ethical reporting By properly informing citizens of critical national concerns the media can help to transform society and promote active participation Journalism and Ethics Breakthroughs in Research and Practice examines the impacts of journalism on society and the media's responsibility to accurately inform citizens of government and non government activities in an ethical manner It also provides emerging research on multimedia journalism across various platforms and formats using digital technologies Highlighting a range of pertinent topics such as investigative journalism freedom of expression and media regulation this publication is an ideal reference source for media professionals public relations officers reporters news writers scholars academicians researchers and upper level students interested in journalism and journalistic ethics The Dark Side of Speech Carlo Penco, 2024-10-08 What is disinformation and why does it matter How can we understand and detect different kinds of disinformation With an analysis of relevant events of the period 2012 2022 the book attempts to answer these questions The book is organized into four parts 1 The first part presents the notions of post truth and fake news using some of the most recent critical studies analyzing some typical examples and the environment in which some of them originated 2 The second part introduces the notion of conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications together with the narratives developed during the COVID restrictions 3 The third part describes the emergence of the algorithms behind social networks and their role in propaganda making examples of US and European elections and the Brexit referendum An analysis of Cambridge Analytica shows the tip

of an iceberg of disinformation that is spreading around the world Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech with particular attention to the more and more difficult freedom of the press

4 The fourth part gives some emergency tools for detecting disinformation at an individual level understanding the most hidden mechanisms of disinformation and the biases that almost unavoidably enter our minds These tools come from the results both of traditional theories and the most recent social philosophy of language not despising references to statistics This is a fundamental book for having a general survey of this period of political turmoil consulting a wide list of references and official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks
