Stephen Baxter, Julia Crick, C. P. Lewis, 2025-04-12 *Making Domesday* presents a fresh interpretation of William the Conqueror's survey of England made possible by a major collaborative study and a new online edition of Exon Domesday the earliest of the three original manuscripts to survive from the Domesday survey. The book addresses big questions about pre-modern government: written records and the use of intelligence in both senses; the minds behind the planning and execution of Domesday; and the information about England that Domesday gathered. It characterizes Exon as the surviving part of the working papers of one of the writing offices that over a period of ten weeks in summer 1086 dealt with all seven circuits: regional groupings of shires of the Domesday survey. The circuit offices had the task of recasting the manorial descriptions assembled in an earlier stage of the survey into an interim form intended for further redaction as Great Domesday Book by rearrangement, rewording and abbreviation. A new deep understanding of the codicology and palaeography of Exon underpins every part of the analysis and offers a model of documentary production for royal government at an exceptionally early period in western Europe. Part I describes and analyses each Exon text in unprecedented detail. Part II places Domesday in context and in broad comparative perspective ranging across and beyond the Latin West. The dual approach provides a new interpretation of Domesday and a deeper understanding of both the Domesday survey and Domesday Book. It emerges that the survey was even more complex than we had dared to imagine, involving the production of different kinds of text intended to meet a range of fiscal and political needs. It is also clear that the survey was immediately effective, transforming the politics of land in a newly conquered society. Domesday has always been thought awesome as its very name shows. *Making Domesday* contends that it was also a feat of intelligent government deployed by an aggressive and ambitious regime. As such it speaks to broader concerns with the colonial domination of conquered societies through the purposeful collection of systematic statistical information.

101 Design Methods Vijay Kumar, 2012-10-09 The first step-by-step guidebook for successful innovation planning. Unlike other books on the subject, *101 Design Methods* approaches the practice of creating new products, services and customer experiences as a science rather than an art, providing a practical set of collaborative tools and methods for planning and defining successful new offerings. Strategists, managers, designers and researchers who undertake the challenge of innovation despite a lack of established procedures and a high risk of failure will find this an invaluable resource. Novices can learn from it; managers can plan with it; and practitioners of innovation can improve the quality of their work by referring to it.

[KASAB](#) Rommel Rodrigues,2010-11-30 On 26 November 2008 ten heavily armed terrorists entered Mumbai They

headed for the city's iconic landmarks and the mayhem they unleashed lasted nearly 60 hours. The audacious terror attacks jolted Mumbai like never before. Even as they mourned, the residents of Maximum City demanded answers. But the information they got in return—accounts of the investigation, government rhetoric, newspaper reports, television features, books, and even a film—was sketchy at best. Meanwhile, the courts continued with their prosecution of Mohammed Ajmal Amir Kasab, the lone surviving 26/11 gunman. The broad picture available to the public is of the Pakistan-based terrorist organization Lashkar-e-Taiba and its ringleaders such as Hafiz Muhammad Saeed and Zaki-ur-Rehman Lakhvi training, arming, and dispatching ten young men in a boat to attack India's commercial capital. All we have been told about Kasab is that he was just another recruit brainwashed into carrying out the plot against Mumbai. Kasab: The Face of 26/11 breaks new ground by painstakingly piecing together Kasab's terror trail. The narrative follows Kasab through the bylanes of Pakistani villages and cities as he made his way towards PoK, the dense forests where the terrorist training camps are situated, the trains, buses, and jeeps he boarded, the Indian vessel he and the others hijacked en route to Mumbai's shores, Kasab's capture and incarceration. Rommel Rodrigues' path-breaking investigative journalism fleshes out for the first time the well-thought-out planning and organization that lay behind the attacks of 26/11.

Music, Encounter, Togetherness Nicholas Cook, 2024. Modern Western musical thought tends to represent music as a thing, a pattern, a structure, even an organism, rather than as a human practice. Music Encounter Togetherness focusses on music as something people do, as a mode of encounter between individuals and cultures, and as an agent of interpersonal and social togetherness. It presents music as a utopian dimension of everyday life.

Married Life in the Middle Ages, 900-1300 Elisabeth M. C. Van Houts, 2019. An analysis of the lived experience of Christian married life in Christian medieval Europe. This study examines the process of getting married and wedding celebrations, the married life of lay couples and clergy, their sexuality, and any remarriage and alternative living, including concubinage, polygyny, and the single life.
