## **Slave Trade Acrostic Poem:**

American Slavers Sean M. Kelley, 2023-05-30 The first telling of the unknown story of America's two hundred year history as a slave trading nation A total of 305 000 enslaved Africans arrived in the New World aboard American vessels over a span of two hundred years as American merchants and mariners sailed to Africa and to the Caribbean to acquire and sell captives Using exhaustive archival research including many collections that have never been used before historian Sean M Kelley argues that slave trading needs to be seen as integral to the larger story of American slavery Engaging with both African and American history and addressing the trade over time Kelley examines the experience of captivity drawing on more than a hundred African narratives to offer a portrait of enslavement in the regions of Africa frequented by American ships Kelley also provides a social history of the two American ports where slave trading was most intensive Newport and Bristol Rhode Island In telling this tragic brutal and largely unknown story Kelley corrects many misconceptions while leaving no doubt that Americans were a nation of slave traders

**Oracles of Empire** David S. Shields, 2010-06-15 This innovative look at previously neglected poetry in British America represents a major contribution to our understanding of early American culture Spanning the period from the Glorious Revolution 1690 to the end of King George's War 1750 this study critically reconstitutes the literature of empire in the thirteen colonies Canada and the West Indies by investigating over 300 texts in mixed print and manuscript sources including poems in pamphlets and newspapers British America's poetry of empire was dominated by three issues mercantilism's promise that civilization and wealth would be transmitted from London to the provinces the debate over the extent of metropolitan prerogatives in law and commerce when they obtruded upon provincial rights and interests and the argument that Britain's imperium pelagi was an ethical empire because it depended upon the morality of trade while the empires of Spain and France were immoral empires because they were grounded upon conquest In discussing these issues Shields provides a virtual anthology of poems long lost to students of American literature
