Politics Of Deafness:

The Politics of Deafness Owen Wrigley, 1997 Lays out the practical steps families can take to adjust to a loved one's hearing loss The book shows how the exchange of information can be altered at fundamental levels what these alterations entail and how they can affect one's ability to understand and interpret spoken communication Owen Wrigley's 'The Politics of Deafness' David J. Kurs, 1998 Democracy and the Politics of Silence Mónica Brito Vieira, 2024-10-29 Most people equate democracy with discussion speech and making one's voice heard But where does silence fit in Democracy and the Politics of Silence investigates the largely overlooked role of silence in democratic politics It challenges conventional wisdom by arguing that silence can support and affirm democratic pillars and outcomes like empowerment inclusion and equality The book focuses on a particular set of problems concerning the relationship between political silence and the democratic triad of voice agency and representation Each of the book's chapters draws on a selection of hand-picked case studies both historical and contemporary including the NAACP's Silent Parade in 1917 demonstrations by the Women in Black Spain's post-Franco Pact of Forgetting Trump's silent majority debates related to the representation of nonhuman beings and the famous Miranda judgment on the right to silence Together they offer an innovative ambitious investigation of democratically undesirable silences and practices of silence that are powerfully affirmative of democratic subjectivities aims and norms In thus expanding the repertoire of democratic citizenship Mónica Brito Vieira invites readers to consider what silence might teach them about democracy This timely book should appeal to political science students and scholars as well as anyone interested in the history of democracies and popular resistance movements *The Politics of Visual Language* James Roots, 1999 The Politics of Visual Language is a ground-breaking study of the political socialization of children who are deaf Debate has raged for years over how to educate the prelingually deaf those children who cannot acquire language normally that is orally and aurally While the battlelines have been drawn by the proponents of oralism versus manualism and their hearing supporters two linguistic dilemmas facing Deaf people remain constant a conscious choice is always made for them as to the way they will be taught and either method of language acquisition results in a form of marginalization

Rights and the Politics of Recognition in Africa Harri Englund, Francis B. Nyamnjoh, 2004-09-18 Publisher Description *Arguing About Political Philosophy* Matt Zwolinski, Mario I. Juárez-García, 2025-07-31 This third edition of *Arguing About Political Philosophy* is the most complete up-to-date and interdisciplinary anthology of its kind Its selections cover classic philosophical sources such as those from Thomas Hobbes and John Rawls important works in political economy from thinkers like Adam Smith Friedrich Hayek and Karl Marx and the writing of cutting-edge contemporary theorists like Debra Satz Jason Brennan and Ta-Nehisi Coates The third edition has been substantially revised to make it more suitable for a growing number of courses in philosophy politics and economics PPE New topics and new readings help to explore the intersection of these three disciplines at a theoretical level and how they help us to think about challenging practical

Disability & the Politics of Education Susan Lynn Gabel, Scot Danforth, 2008 Disability and the Politics of Education An International Reader is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world s disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldisation of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches

Identity/Difference Politics Rita Dhamoon, 2010-01-01 Theories of liberal multiculturalism have come to dominate debates about identity and difference politics in recent contemporary western political theory This book offers a nuanced critique of these debates by questioning liberal multiculturalism s preoccupation with culture and just as important its unintended consequences Identity Difference Politics switches the focus from culture to power Issues of power are examined through accounts of meaning making those processes through which meanings of

difference are produced organized and regulated Other forms of identity difference such as whiteness ableism gender and heteronormativity establish the analytic and normative value of Dhamoon's alternative theoretical framework and reveal that an exclusive preoccupation with culture can dissolve into essentialism which too often provides a rationale for state regulation of groups deemed to be too different Students of contemporary political theory multiculturalism identity politics Canadian politics and culture disability studies critical race theory and feminist and gender theory will find it an invaluable resource

The Cultural Meaning of Deafness Jennifer Harris, 1995

Governing Children, Families and Education M. Bloch, Thomas S. Popkewitz, K. Holmlund, I. Moqvist, 2016-09-27 This is a collection of essays that address the international changes in welfare policy The book discusses the new patterns of governing associated with the notions of welfare care and education that emerge during the late Twentieth and early Twenty first centuries The issues examined are among others the role of international donors and their emphasis on efficiency and lower social subsidies international migration and its impact on welfare policy inclusions and exclusions and national policy change While representing many different locations and traditions contributors work within a variety of critical theoretical perspectives that critique our cultural ways of reasoning about the care and education of the child the role and practice of the state and the social and cultural construction of citizenship and nationhood

Understanding Deaf Culture Paddy Ladd, 2003 This text presents a Traveller's Guide to deaf culture starting from the premise that deaf cultures have an important contribution to make to other academic disciplines and human lives in general Within and outside deaf communities there is a need for an account of the new concept of deaf culture which enables readers to assess its place alongside work on other minority cultures and multilingual discourses The book aims to assess the concepts of culture on their own terms and in their many guises and to apply these to deaf communities The author illustrates the pitfalls which have been created for those communities by the medical concept of deafness and contrasts this with his new concept of deafhood a process by which every deaf child family and adult implicitly explains their existence in the world to themselves and each other

Architecture's Disability Problem Wanda Katja Liebermann, 2024-06-21 Architecture's Disability Problem explores the intersection of architecture and disability in the United States from the perspective of professional practice This book uncovers why despite the profound effect of the Americans with Disabilities Act on the architectural profession there has been so little interest in design for disability in mainstream architecture To counter this the book investigates alternative approaches to designing with disability through three case studies These showcase both buildings and how design processes driven by disabled people shape design and professional roles Combining historical research formal and discourse analysis and interviews with people who design construct use buildings and advocate for access the book develops a social understanding of how the buildings work at functional affective and symbolic levels Architecture's Disability Problem is aimed at three primary readers practicing architects architectural scholars and members of disability scholar activist communities Grounded in detailed design studies

the author hopes to unearth the social meaning making of architecture related to disability Ultimately the book makes an argument for a focus on disability in its own right as well as on the body in place of the dominance of formal object oriented approaches This book presents and argues for a fundamental shift in the way architectural education policy and practice views and engages with disability It will be key reading for students researchers practitioners and policy makers **Valuing Deaf Worlds in Urban India** Michele Ilana Friedner, 2015-06-09 Although it is commonly believed that deafness and disability limits a person in a variety of ways *Valuing Deaf Worlds in Urban India* describes the two as a source of value in postcolonial India Michele Friedner argues that the experiences of deaf people offer an important portrayal of contemporary self making and sociality under new regimes of labor and economy in India Friedner contends that deafness actually becomes a source of value for deaf Indians as they interact with nongovernmental organizations with employers in the global information technology sector and with the state In contrast to previous political economic moments deaf Indians increasingly depend less on the state for education and employment and instead turn to novel and sometimes surprising spaces such as NGOs multinational corporations multilevel marketing businesses and churches that attract deaf congregants They also gravitate towards each other Their social practices may be invisible to outsiders because neither the state nor their families have recognized Indian Sign Language as legitimate but deaf Indians collectively learn sign language which they use among themselves and they also learn the importance of working within the structures of their communities to maximize their opportunities *Valuing Deaf Worlds in Urban India* analyzes how diverse deaf people become oriented toward each other and disoriented from their families and other kinship networks More broadly this book explores how deafness deaf sociality and sign language relate to contemporary society Deafness and Ethnicity, 1998 This report provides a comprehensive examination of the field of ethnicity and deafness It presents a national overview of initiatives with deaf people from minority ethnic communities considering debates on ethnicity and service provision and on the politics of deafness in Britain The Global Politics of Impairment and Disability Helen Meekosha, Karen Soldatic, 2016-01-13 Disability is of central concern to the developing world but has largely been under represented in global development debates discourses and negotiations Similarly disability studies has overlooked the theorists or the social experience of the global South and there has been a one way transfer of ideas and knowledge from the North to the South in this field This volume seeks to redress the processes of scholarly colonialism by drawing together a diverse set of understandings theorizing and experiences The chapters situate disability within the Southern context and support the work of Southern disabled scholars and activists seeking to decolonize Southern experiences knowledges and absences in the field while simultaneously attempting to make an intervention into able bodied mainstream development discourses practices and politics This book was originally published as a special issue of *Third World Quarterly* *Politics of Visual Language* James Roots, 1999-05-25 *The Politics of Visual Language* is a fascinating and unique perspective on the whole process of political socialization unique because previous studies in this field

have assumed that all participants in the process can hear This work studies those who cannot hear and while it attempts an impartial assessment of all educational methodologies will undoubtedly raise new questions within the Deaf community and beyond Sociologists educators medical professionals linguists psychologists and political scientists will have to reconsider the emotional and political effects of current assumptions about the socialization process

The Social Condition of Deaf People Sara Trovato, Anna Folchi, 2022-05-09 This book is about the social condition of Deaf people told through a Deaf woman's autobiography and a series of essays investigating how hearing societies relate to Deaf people Michel Foucault described the powerful one as the beholder who is not seen This is why a Deaf woman's perspective is important Minorities that we don't even suspect we have power over observe us in turn Majorities exert power over minorities by influencing the environment and institutions that simplify or hinder lives language mindsets representations norms the use of professional power Based on data collected by Eurostat this volume provides the first discussion of statistics on the condition of Deaf people in a series of European countries concerning education labor gender This creates a new opportunity to discuss inequalities on the basis of data The case studies in this volume reconstruct untold moments of great advancement in Deaf history successful didactics supporting bilingualism the reasons why Deaf empowerment for and by Deaf people does and does not succeed A work of empowerment is effective if it acts on a double level the community to be empowered and society at large resulting in a transformation of society as a whole This book provides instruments to work towards such a transformation

Theorising Modernity Martin O'Brien, Sue Penna, Colin Hay, 2014-07-10 What is modernity Do we all experience modernity in the same way How should we understand contemporary social change This volume explores questions of modernity through critical engagements with the work of Anthony Giddens focusing in particular on the relationships between his social theory and political sociology Three substantive areas reflexivity environment and identity are examined theoretically through the relationships between reflexivity and rationality life politics and institutional power and universalism and difference As well as specifically addressing Giddens reconstruction of sociology the contributors also explore a wide variety of critical issues currently occupying centre stage in social theory These include questions about the character of contemporary societies the periodisation of social change the processes of change by which societies are constantly made and remade by people the relationships between the social and the natural the formation and maintenance of identities and matters of epistemology and methodology in social science Theorising Modernity will be of interest to undergraduate and postgraduate students of sociology modern political thought social geography and social policy and to social scientists trying to make sense of the modernity debate Martin O'Brien is Research at the University of Derby Sue Penna is a Lecturer in Applied Social Science at Lancaster University Colin Hay is a Lecturer in the Department of Political Science and International Studies at the University of Birmingham UK a Visiting Fellow of the Department of Political Science at the Massachusetts Institute of Technology US and Research Affiliate of the Centre for European Studies at

Harvard University US **The Routledge Handbook of Multilingualism** Marilyn Martin-Jones, Adrian Blackledge, Angela Creese, 2012-05-31 The Routledge Handbook of Multilingualism provides a comprehensive survey of the field of multilingualism for a global readership and an overview of the research which situates multilingualism in its social cultural and political context The handbook includes an introduction and five sections with thirty two chapters by leading international contributors The introduction charts the changing landscape of social and ethnographic research on multilingualism theory methods and research sites and it foregrounds key contemporary debates Chapters are structured around sub headings such as early developments key issues related to theory and method new research directions This handbook offers an authoritative guide to shifts over time in thinking about multilingualism as well as providing an overview of the range of contemporary themes debates and research sites The Routledge Handbook of Multilingualism is the ideal resource for postgraduate students of multilingualism as well as those studying education and anthropology Cultural and Language Diversity and the Deaf Experience Ila Parasnis, 1998-08-28 The perspective that deaf people should be regarded as a cultural and language minority group rather than individuals with an audiological disability is gathering support among educators linguists and researchers involved in the education of deaf people across America This book explores the notion that deaf people are members of a bilingual bicultural minority group whose experiences often overlap with the those of hearing minority group members but at other times are unique Contributors to this book include prominent deaf and hearing researchers educators and deaf community members The three sections review research on bilingualism and biculturalism the impact of cultural and language diversity on the deaf experience and offer rich experiential evidence from deaf community members which highlights the emotional impact of living in the deaf and hearing worlds

Politics Of Deafness: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous engrossing novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Politics Of Deafness : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
