Skin Slave Nexus:

Secret Cures of Slaves Londa Schiebinger, 2023-05-25 Engaging unique sources Londa Schiebinger untangles the complex relationships between European and local physicians healers plants and slavery Fran ois Regourd Universit Paris Nanterre In the natural course of events humans fall sick and die The history of medicine bristles with attempts to find new and miraculous remedies to work with and against nature to restore humans to health and well being In this book Londa Schiebinger examines medicine and human experimentation in the Atlantic World exploring the circulation of people disease plants and knowledge between Europe Africa and the Americas She traces the development of a colonial medical complex from the 1760s when a robust experimental culture emerged in the British and French West Indies to the early 1800s when debates raged about banning the slave trade and eventually slavery itself Massive mortality among enslaved Africans and European planters soldiers and sailors fueled the search for new healing techniques Amerindian African and European knowledges competed to cure diseases emerging from the collision of peoples on newly established often poorly supplied plantations But not all knowledge was equal Highlighting the violence and fear endemic to colonial struggles Schiebinger explores aspects of African medicine that were not put to the test such as Obeah and vodou This book analyzes how and why specific knowledges were blocked discredited or held secret In this urgent probing and visually striking volume Londa Schiebinger one of the pioneers of feminist and colonial science studies shifts our understanding of Enlightenment racial attitudes to the domain of the medical making a vital contribution to the dynamic new wave of research on science and slavery in the Atlantic world James Delbourgo Rutgers University

Beyond Exceptionalism Rebekka Mallinckrodt, Josef Köstlbauer, Sarah Lentz, 2021-08-23 While the economic involvement of early modern Germany in slavery and the slave trade is increasingly receiving attention the direct participation of Germans in human trafficking remains a blind spot in historiography This edited volume focuses on practices of enslavement taking place within German territories in the early modern period as well as on the people of African Asian and Native American descent caught up in them

Buying Freedom Kwame Anthony Appiah, Martin Bunzl, 2018-06-05 If slavery is defined broadly to include bonded child labor and forced prostitution there are upward of 25 million slaves in the world today Individuals and groups are freeing some slaves by buying them from their enslavers But slave redemption is as controversial today as it was in pre Civil War America In Buying Freedom Kwame Anthony Appiah and Martin Bunzl bring together economists anthropologists historians and philosophers for the first comprehensive examination of the practical and ethical implications of slave redemption While recognizing the obvious virtue of the desire to buy the freedom of slaves the contributors ask difficult and troubling questions Does redeeming slaves actually increase the demand for and so the number of slaves And what about cases where it is far from clear that redemption will improve the material condition or increase the real freedom of a slave Buying Freedom includes essays by the editors and by Dean Karlan and Alan Krueger Carol Ann Rogers and Kenneth Swinnerton Arnab Basu

and Nancy Chau Stanley Engerman Jonathan Conning and Michael Kevane Jok Madut Jok Ann McDougall Lisa Cook Margaret Kellow John Stauffer and Howard McGary Slavery in Art and Literature Birgit Haehnel, Melanie Ulz, 2010-01-01 Slavery both in its historical and modern forms continues to be a matter of undiminished political and social relevance This is mirrored by an increasing interest in scholarly research as well as by critical statements from within the field of contemporary art The present volume is designed to bring together artists and scholars from various fields of study discussing trauma and visibility or more precisely memory and denial of traumatic history within visual discourses The purpose of this project is to put the phenomenon of contemporary art production dealing with the issue of slavery into a wider interdisciplinary and transcultural context The book covers current case studies focusing on different media and including visual literary and performative approaches of dealing with the history of slavery in West African American and European cultures *Handbook of Research in the Social Foundations of Education* Steven Tozer, Bernardo P. Gallegos, Annette Henry, Mary Bushnell Greiner, Paula Groves Price, 2011-07-05 This groundbreaking volume helps readers understand the history evolution and significance of this wide ranging often misunderstood and increasingly important field of study From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology Amina Mire, 2025-03-15 From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology takes historically grounded analysis and delineates how the skin whitening industry has become a contemporary site that facilitates commodification of unregulated whiteness on a global scale Amina Mire investigates the extent to which antebellum South anti miscegenation racial purity laws facilitated unofficial interracial reproduction of light skinned slaves resulting primarily from a systemic rape of enslaved Black women by white slave masters This is because while different in terms of historical context what the unregulated globalization of the skin whitening industry and the antebellum unofficial reproduction and trade in light skinned slaves have in common is the unofficial and unregulated nature of the accumulation of economic symbolic and aesthetic investment in whiteness The central argument of this book is that commodifiable whiteness is a form of racial capital with profound health social and political implications Consequently as long as whiteness remains a salient ideological force that shapes global understanding of standards of beauty and desirability commodification of whiteness will continue to further entrench systems of racism and colorism The author argues this requires taking seriously the resilience and malleability of white supremacy and its ability to rebrand itself endlessly Terror and Triumph Anthony B. Pinn, 2022-07-26 Given the unique history of African Americans and their diverse religious flowering in Black Christianity the Nation of Islam voodoo and others what is the heart and soul of African American religious life As a leader in both Black religious studies and theology Anthony Pinn has probed the dynamism and variety of African American religious expressions In this work based on the Edward Cadbury Lectures at the University of Birmingham England he searches out the basic structure of Black religion tracing the Black religious spirit in its many historical manifestations Pinn finds in the terrors of

enslavement of Black bodies and subsequent oppressions the primal experience to which the Black religious impulse provides a perennial and cumulative response Oppressions entailed the denial of personhood and creation of an object the negro Slave auctions punishments and later lynchings created an existential dread but also evoked a quest a search for complex subjectivity or authentic personhood that still fuels Black religion today In this 20th anniversary edition of Pinn's groundbreaking work the author offers a new reflection on the argument in retrospect and invites a panel of five contemporary scholars to examine what it means for current and future scholarship Contributors include Keri Day Sylvester Johnson Anthony G Reddie Calvin Warren and Carol Wayne White

The Curse of Ham David M. Goldenberg, 2009-04-11 How old is prejudice against black people Were the racist attitudes that fueled the Atlantic slave trade firmly in place 700 years before the European discovery of sub Saharan Africa In this groundbreaking book David Goldenberg seeks to discover how dark skinned peoples especially black Africans were portrayed in the Bible and by those who interpreted the Bible Jews Christians and Muslims Unprecedented in rigor and breadth his investigation covers a 1 500 year period from ancient Israel around 800 B C E to the eighth century C E after the birth of Islam By tracing the development of anti Black sentiment during this time Goldenberg uncovers views about race color and slavery that took shape over the centuries most centrally the belief that the biblical Ham and his descendants the black Africans had been cursed by God with eternal slavery Goldenberg begins by examining a host of references to black Africans in biblical and postbiblical Jewish literature From there he moves the inquiry from Black as an ethnic group to black as color and early Jewish attitudes toward dark skin color He goes on to ask when the black African first became identified as slave in the Near East and in a powerful culmination discusses the resounding influence of this identification on Jewish Christian and Islamic thinking noting each tradition's exegetical treatment of pertinent biblical passages Authoritative fluidly written and situated at a richly illuminating nexus of images attitudes and history *The Curse of Ham* is sure to have a profound and lasting impact on the perennial debate over the roots of racism and slavery and on the study of early Judaism Christianity and Islam

Chronicles five hundred years of African American history from the origins of slavery on the African continent through Barack Obama s second presidential term examining contributing political and cultural events

The Overthrow of Colonial Slavery Robin Blackburn,2024-12-10 In 1770 a handful of European nations ruled the Americas drawing from them a stream of products both everyday and exotic Some two and a half million black slaves imprisoned in plantation colonies toiled to produce the sugar coffee cotton ginger and indigo craved by Europeans By 1848 the major systems of colonial slavery had been swept away either by independence movements slave revolts abolitionists or some combination of all three How did this happen Robin Blackburn s history captures the complexity of a revolutionary age in a compelling narrative In some cases colonial rule fell while slavery flourished as happened in the South of the United States and in Brazil elsewhere slavery ended but colonial rule remained as in the British West Indies and French Windwards But in French St Domingue the future Haiti and in Spanish South and Central America both colonialism and slavery were defeated This story of slave liberation and American independence highlights the pivotal role of the first emancipation in the French Antilles in the 1790s the parallel actions of slave resistance and metropolitan abolitionism and the contradictory implications of slaveholder patriotism The dramatic events of this epoch are examined from an unexpected vantage point showing how the torch of anti slavery passed from the medieval communes to dissident Quakers from African maroons to radical pirates from Granville Sharp and Ottobah Cuguano to Toussaint L Ouverture from the black Jacobins to the Liberators of South America and from the African Baptists in Jamaica to the Revolutionaries of 1848 in Europe and the Caribbean

Slaves Into Workers Ahmad Alawad Sikainga,2014-05-29 Unlike African slavery in Europe and the Americas slavery in the Sudan and other parts of Africa persisted well into the twentieth century Sudanese slaves served Sudanese masters until the region was conquered by the Turks who practiced slavery on a larger institutional scale When the British took over the Sudan in 1898 they officially emancipated the slaves yet found it impossible to replace their labor in the country s economy This pathfinding study explores the process of emancipation and the development of wage labor in the Sudan under British colonial rule Ahmad Sikainga focuses on the fate of ex slaves in Khartoum and on the efforts of the colonial government to transform them into wage laborers He probes into what colonial rule and city life meant for slaves and ex slaves and what the city and its people meant for colonial officials This investigation sheds new light on the legacy of slavery and the status of

former slaves and their descendants It also reveals how the legacy of slavery underlies the current ethnic and regional conflicts in the Sudan It will be vital reading for students of race relations and slavery colonialism and postcolonialism urbanization and labor history in Africa and the Middle East

Imagining Slaves and Robots in Literature, Film, and Popular Culture Gregory Jerome Hampton, 2015-10-22 *Imagining Slaves and Robots in Literature Film and Popular Culture Reinventing Yesterday s Slave with Tomorrow s Robot* is an interdisciplinary study that seeks to investigate and speculate about the relationship between technology and human nature It is a timely and creative analysis of the ways in which we domesticate technology and the manner in which the history of slavery continues to be utilized in contemporary society This text interrogates how the domestic slaves of the past are being re imaged as domestic robots of the future Hampton asserts that the rhetoric used to persuade an entire nation to become dependent on the institution of chattel slavery will be employed to promote the enslavement of technology in the form of humanoid robots with Artificial Intelligence *Imagining Slaves and Robots in Literature Film and Popular Culture* makes the claim that science fiction film and popular culture have all been used to normalize the notion of robots in domestic spaces and relationships In examining the similarities of human slaves and mechanical or biomechanical robots this text seeks to gain a better understanding of how slaves are created and justified in the imaginations of a supposedly civilized nation And in doing so give pause to those who would disassociate America s past from its imminent future
