[Edited by A. Crestadoro.] Public Free Libraries (MANCHESTER),1872 **Spiritual Exercises and Early Modern Philosophy** Simone D'Agostino,2023-09-20 In his renowned collection Philosophy as a Way of Life Pierre Hadot suggests that the original aspect of philosophy as a method by which one exercises oneself to achieve a new way of living and seeing the world fails with the rise of modernity In that period

philosophy becomes increasingly theoretical tending toward a system However Hadot himself glimpses at the dawn of modernity some instances of the original aspect of philosophy still very much present and in his wake Michel Foucault warns that between the late 16th and early 17th centuries the philosophical question of the reform of the mind attests to a still very close link between asceticism and access to truth This book aims to develop just such an idea by thoroughly analyzing the most representative works of the reform of the mind in the early modern period Francis Bacon s *New Organon* 1620 Ren Descartes *Discourse on the Method* 1637 and Baruch Spinoza s *Treatise on the Emendation of the Intellect* 1677 From this analysis it will emerge that these modern works fully deserve to be counted among the tradition of philosophy as way of life On closer inspection the inquiries about method elaborated in these works are fully understandable only when read in the light of a broader and more complex philosophical need to establish the spiritual conditions for accessing truth and aspiring to full self realization

The Gaze and the Labyrinth Gaetana Marrone,2021-09-14 In this the first comprehensive book on Liliana Cavani Gaetana Marrone redraws the map of postwar Italian cinema to make room for this extraordinary filmmaker whose representations of transgressive eroticism spiritual questing and psychological extremes test the limits of the medium pushing it into uncharted areas of discovery Cavani s film *The Night Porter* 1974 created a sensation in the United States and Europe But in many ways her critically renowned endeavors which also include *Francesco di Assisi* *Galileo* *I cannibali* *Beyond Good and Evil* *The Berlin Affair* and several operas and documentaries remain enigmatic to audiences Here Marrone presents Cavani s work as a cinema of ideas showing how it takes pleasure in the telling of a story and ultimately revolts against all binding ideological and commercial codes The author explores the rich visual language in which Cavani expresses thought and the cultural icons that constitute her style and images This approach affords powerful insights into the intricate interlacing of narrated events We also come to understand the importance assigned to the gaze in the genesis of desire and the acquisition of knowledge The films come to life in this book as the classical tragedies Cavani intended where rebels and madmen experience conflict between historical and spiritual reality the present and the past Offering intertextual analyses within such fields as psychology history and cultural studies along with production information gleaned from Cavani s personal archives Marrone boldly advances our understanding of an intriguing important body of cinematic work
