Doing Text Pete Bennett, Julian McDougall, 2017-02-14 This collection re imagines the study of English and media in a way that decentralises the text e g romantic poetry or film noir or media formats platforms e g broadcast media new media Instead the authors work across boundaries in meaningful thematic contexts that reflect the ways in which people engage with reading watching making and listening in their textual lives In so doing this project recasts both subjects as combined in a more reflexive critical space for the study of our everyday social and cultural interactions Across the chapters the authors present applicable learning and teaching strategies that weave together art works films social practices creativity viral media theater TV social media videogames and literature The culmination of this range of strategies is a reclaimed blue skies approach to progressive textual education free from constraining shackles of outdated ideas about textual categories and value that have hitherto alienated generations of students and both English and media from themselves American/Medieval Goes North

Gillian R. Overing, Ulrike Wiethaus, 2019-10-07 One of the great virtues of American Medieval Goes North is its wide range of contributors with fascinatingly diverse relationships to the main terms of analysis There are academic scholars poets filmmakers tribal elders teachers at various levels there are Indigenous people people from settler colonial cultures expats immigrants Their analytic and imaginative encounters with the North catch at the intensely symbolic and political charge of that locus At a time when Medieval Studies cannot afford to ignore the period s popular uptake cannot continue with business as usual in the face of white supremacists brazen appropriations of the Middle Ages this volume points to new possibilities for grappling with the uneasy relationships between the American and the medieval Prof Carolyn Dinshaw New York University

Ages through Modern Games Robert Houghton, 2022-10-24 Games can act as invaluable tools for the teaching of the Middle Ages The learning potential of physical and digital games is increasingly undeniable at every level of historical study These games can provide a foundation of information through their stories and worlds They can foster understanding of complex systems through their mechanics and rules Their very nature requires the player to learn to progress The educational power of games is particularly potent within the study of the Middle Ages These games act as the first or most substantial introduction to the period for many students and can strongly influence their understanding of the era Within the classroom they can be deployed to introduce new and alien themes to students typically unfamiliar with the subject matter swiftly and effectively They can foster an interest in and understanding of the medieval world through various innovative means and hence act as a key educational tool This volume presents a series of essays addressing the practical use of games of all varieties as teaching tools within Medieval Studies and related fields In doing so it provides examples of the use of games at pre university undergraduate and postgraduate levels of study and considers the application of commercial games development of bespoke historical games use of game design as a learning process and use of games outside the classroom As such the book is a flexible and diverse pedagogical resource and its methods may be readily adapted to the teaching of different medieval themes or other periods of history **Paratextualizing Games** Benjamin Beil, Gundolf S.

Freyermuth, Hanns Christian Schmidt, 2021-11-18 Gaming no longer only takes place as a closed interactive experience in front of TV screens but also as broadcast on streaming platforms or as cultural events in exhibition centers and e sport arenas The popularization of new technologies forms of expression and online services has had a considerable influence on the academic and journalistic discourse about games This anthology examines which paratexts gaming cultures have produced i.e. in which forms and formats and through which channels we talk and write about games as well as the way in which paratexts influence the development of games How is knowledge about games generated and shaped today and how do boundaries between popular criticism journalism and scholarship have started to blur In short How does the paratext change the text **Mytholudics** Dom Ford, 2025-04-21 Games create worlds made of many different elements but also of rules systems and structures for how we act in them So how can we make sense of them Mytholudics Games and Myth lays out an approach to understanding games using theories from myth and folklore Myth is taken here not as an object but as a process a way of expressing meaning It works to naturalise arbitrary constellations of signs to connect things in meaning Behind the phrase just the way it is is a process of mythologization that has cemented it Mytholudics lays out how this

understanding of myth works for the analysis of games In two sections each analysing five digital games it then shows how this approach works in practice one through the lens of heroism and one through monstrosity These ask questions such as what heroic mythology is constructed in Call of Duty What do the monsters in The Witcher tell us about the game s model of the world How does Hellblade Senua s Sacrifice weave a conflict between Norse and Pictish mythology into one between competing models of seeing mental illness This method helps to see games and their worlds in the whole Stories gameplay systems rules spatial configurations and art styles can all be considered together as contributing to the meaning of the game
