##### 1. Description of Students' Assets and Learning Needs

a. prior academic knowledge related to the specific content you plan to teach  
[The Extensive Support Needs (ESN) Math class, part of the Autism Focus program, caters to 9-12th graders with academic levels between 2nd and 4th grade. The curriculum aligns with the California Common Core State Standards (CCSS), focusing on connections between math concepts and 21st-century life skills. The skills learned can be transferred to their Daily Living Skills class, which uses Community-Based Instruction (CBI) for practicing independent living skills. FS1, a visual learner, has a 2nd-3rd grade level in money and consumer math. He can compare and round up money amounts, recognize the value of various bills and coins, and solve simple 2-step word problems. However, he needs support with complex, multi-step word problems. FS2, a kinesthetic learner, presents between a 3rd – 4th grade level in money and consumer math. He can identify bills and coins, count money up to \$100, and solve money math problems. However, he struggles with 1-2 step word problems and articulating his reasoning. FS2 is organized and updated the earnings chart for his table group, keeping a daily count of the money he earns. FS3, a kinesthetic learner, sometimes at a 2nd-3rd grade academic level in money and consumer math. He can identify various money amounts, count coins and bills up to \$50, and accurately identify the correct money amount when prompted. The upcoming lesson will accommodate each student's individual needs while leveraging their inherent strengths. It will focus on applying CCSS.MATH.CONTENT.3.NBT.A.2, practicing fluently adding and subtracting with 1000 and reasoning word problems involving money math. It will also encompass CCSS.MATH.CONTENT.2.MD.C.8, refining abilities to solve word problems, count and compare money amounts, and translate them into practical contexts. Finally, the lesson will include CCSS.MATH.CONTENT.4.NBT.B.4, practicing fluently adding and subtracting multi-digit whole numbers using the standard algorithm, tackling multi-step word problems, and using estimation strategies such as rounding.]

##### b. English language proficiency levels (for English learners)

[The class includes four English Learners (ELs), all assessed by the English Language Proficiency Assessment for California (ELPAC). One sixth grader (FS1), whose first language is Vietnamese but prefers English, scored 2 on the ELPAC, placing him at the "Emerging" competency level per California ELD Standards. unsuitable for many poems so poetic license was taken With this book the namako as the sea cucumber is called in Japanese becomes the most translated single subject in haiku surpassing the harvest moon the snow the cuckoo butterflies and even cherry blossoms Third it is a book of original haiku While the authors original intent was to include only genuine old haiku dating back to the 17th century modern haiku were added and eventually Keigu Gills haiku name composed about a hundred of his own to help fill out gaps in the metaphorical museum For many if not most modern haiku taken from the web it is also their first time in print Fourth it is a book of metaphor How may we arrange hundreds of poems on a single theme Gill divides them into 21 main metaphors including the Cold Sea Slug the Mystic Sea Slug the Helpless Sea Slug the Slippery Sea Slug the Silent Sea Slug and the Melancholy Sea Slug giving each a chapter within which the metaphors may be further subdivided and adds a 100 pages of Sundry Sea Slugs scores of varieties including Monster Spam Flying Urban Myth and Exploding Fifth it is a book on haiku Editors usually select only the best haiku but Gill includes good and bad haiku by everyone from the 17th century haiku master to the anonymous haiku rejected in some internet contest This is not to say all poems found were included but that the standard was along more taxonomic or encyclopedic lines poems that filled in a metaphorical or sub metaphorical gap were always welcome Also Gill shows there is more than one type of good haiku These are new ways to approach haiku Sixth it is a book on translation There are approximately 2 translations per haiku and some boast a dozen These are arranged in mixed single double and triple column clusters which make each reading seem a different aspect of a singular almost crystalline whole The authors aim is to demonstrate that multiple reading such as found in Hofstadters Le Ton Beau de Marot is not only a fun game but a bona fide method of translating especially useful for translating poetry between exotic tongues Seventh it is a book of nature writing natural history or metaphysics in the Emersonian sense Gill tried to compile relevant or interesting not necessarily both historical this includes the sea slug in literature English or Japanese and in folklore and scientific facts to read haiku in their light or conversely bring or wring out science from haiku Unlike most nature writers Gill admits to doing no fieldwork but sluggishly staying put and relying upon reports from more mobile souls Eighth it is a book about food symbolism The sea cucumber is noticed by Japanese because they eat it the eating itself involves physical difficulties slipperiness and hardness and pleasures from overcoming them It is also identified with a state of mind where you are what you eat takes on psychological dimensions not found in the food literature of the West Ninth it is a book about Japanese culture Gill does not set out to explain Japan and the sea slug itself is silent but the collection of poems and their explanations which include analysis by poets who responded to the author's questions as well as historical sources take us all around the culture from ancient myths to contemporary dreams Tenth it is a book about sea cucumbers While most species of sea cucumbers are not mentioned and the coverage of the Japanese sea cucumber is sketchy from the scientific point of view Gill does introduce this animal graced to live with no brain thanks to the smart materials comprising it and blessed for sucking in dirty sediment and pooping it out clean Eleventh it is a book about

ambiguity Gill admits there is much that cannot be translated much he cannot know and much to be improved in future editions for which purpose he advises readers to see the on line Glosses and Errata in English and Japanese His policy is to confide in rather than slip by the reader unnoticed in the manner of the invisible modern translator and allow the reader to make choices or choose to allow multiple possibilities to exist by not choosing Twelfth the book is the first of dozens of spin offs from a twenty book haiku saijiki poetic almanac called In Praise of Olde Haiku IPOOH for short Gill hopes to finish within the decade Thirteenth The book is a novelty item It has a different often witty header caption on top of each page and copious notes that are rarely academic and often humorous
