Tractatus Logico-Philosophicus Ludwig Wittgenstein, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1922 edition Excerpt expresses the truth conditions of the proposition The proposition is the expression of its truth conditions Frege has therefore quite rightly put them at the beginning as explaining the signs of his logical symbolism Only Frege's explanation of the truth concept is false if the true and the false were real objects and the arguments in p etc then the sense of p would by no means be determined by Frege's determination 4.44 The sign which arises from the coordination of that mark T with the truth possibilities is a propositional sign 4.441 It is clear that to the complex of the signs F and T no object or complex of objects corresponds any more than to horizontal and vertical lines or to brackets There are no logical objects Something analogous holds of course for all signs which express the same as the schemata of T and F 4.442 Thus e.g. P q T T T F T T T F F F T is a propositional sign Frege's assertion sign is logically altogether bedeutungslos er zeigt bei Frege und Russell nur an dass diese Autoren die so bezeichneten Satze fur wahr halten gehort daher ebenso wenig zum Satzgefuhrte wie etwa die Nummer des Satzes Ein Satz kann unmoglich von sich selbst aussagen dass er wahr ist 1st die Reihenfolge der Wahrheitsmoglichkeiten im Schema durch eine Kombinationsregel ein fur allemal festgesetzt dann ist die letzte Kolonne allein schon ein Ausdruck der Wahrheitsbedingungen Schreiben wir diese Kolonne als Reihe hin so wird das Satzzeichen zu WW W p q oder deutlicher WWFW p q Die Anzahl der Stellen in der linken Klammer ist durch die Anzahl der Glieder in **Tractatus logico-philosophicus** Ludwig Wittgenstein, 1983 **Tractatus Logico-Philosophicus (Classic Reprint)** Ludwig Wittgenstein, 2016-12-21 Excerpt from Tractatus Logico Philosophicus In order to understand Mr Wittgenstein's book it is necessary to realize what is the problem with which he is concerned In the part of his theory which deals with Symbolism he is concerned with the conditions which would have to be fulfilled by a logically perfect language There are various problems as regards language First there is the problem what actually occurs in

our minds when we use language with the intention Of meaning something by it this problem belongs to psychology Secondly there is the problem as to what is the relation subsisting between thoughts words or sentences and that which they refer to or mean this problem belongs to epistemology Thirdly there is the problem of using sentences so as to convey truth rather than falsehood About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
