Debates in Macroeconomics from the Great Depression to the Long Recession Arie Arnon, 2022-05-06 This book assesses major schools of thought in macroeconomic theory between the Great Depression and the Long Recession focusing on their analysis of cycles crises and macro policy It explores the road from the dominance of Keynesian ideas to those of New Classical Macroeconomics NCM toward the end of the millennium The book covers the early influential work of Knut Wicksell the economic debates of the 1930s with core contributions from John Maynard Keynes and Friedrich von Hayek the rise of Keynesianism in the 1950s and its decline since the 1970s the rise of Monetarism in the 1960s and NCM's subsequent rise to prominence Finally the book outlines how macroeconomics has evolved from its birth in the 1930s as a theory separate from microeconomics resulting in a split between macro and micro theories and ended up with a new hegemonic paradigm based on microfoundations The ensuing policy thinking witnessed a transformation from active macro policy after the Great Depression to a far more passive macro policy during the last quarter of the twentieth century which may have contributed to missing the signs of the impending Long Recession of 2008 When the 2008 crisis struck macroeconomists were caught with models that were theoretically elegant yet inappropriate to the needs of the moment A broader historical perspective may have prevented the jettisoning of Keynesian models that had proved useful in the past and might have done so again This highly readable book by Arie Arnon is a wonderful antidote to economists' short time horizon and contributes mightily to restore the profession's collective memory of the diversity of ideas within macroeconomics Professor Dani Rodrik Harvard Kennedy School *Georgia's Historical*

Recipes Valerie J. Frey, 2025-05 Georgia's Historical Recipes is an exploration of our state's oldest recipes from the antebellum period through World War II as painstakingly researched by Georgia archivist Valerie J. Frey. This volume begins with a discussion of old recipes as primary sources and what they can tell us about the history and culture of their era and how to bring them to life in modern kitchens. Frey then moves into fifty sections that can be read alone yet allow readers to build an understanding of how foodways evolved over time. Some sections highlight a single recipe illustrating how changes in technology, agriculture, transportation, communication, and social patterns led to changes in Georgia kitchens. Most of the recipes are previously unpublished, waiting in archives to be rediscovered. Other sections explore our oldest cookbooks, offering biographical and cultural background information that makes them more meaningful. For the first time, Georgians have a list of the state's early cookbooks and its cooking experts. Readers will learn where to find Georgia's oldest recipes and discover many examples to whet their appetites literally and figuratively for a taste of Georgia's past. *Great*

Depression & the New Deal: Brother, Can You Spare a Dime? Carole Marsh, 2011-03-01 The 22-book American Milestone series is featured as Retailers Recommended Fabulous Products in the August 2012 edition of Educational Dealer magazine. For nearly ten years, the wealth and prosperity of the roaring 20s had electrified America. The Stock Market was making people richer by the day. But in three fateful days in October 1929, all of that wealth vanished, and prosperity turned to poverty. The Great Depression had begun, and with it came record levels of unemployment, job loss, and despair. Then, just when all hope seemed lost, a presidential candidate promised a new deal for the American people. That man was Franklin D. Roosevelt, and this is the story of the Great Depression and how the New Deal saved the United States. In this book, kids will wander the streets of the largest cities and smallest towns with adults looking for any way to eke out a living. They'll ride creaky old wagons in the mass exodus out of the Dust Bowl that was once the Great Plains, and they'll wade through the alphabet soup of New Deal programs that President Roosevelt created just in the nick of time. This 32-page book is reproducible and educational. A partial list of the Table of Contents includes: A Timeline of Events, Brother Can You Spare a Dime, The Great Depression, The New Deal, Herbert Hoover, The Great Stock Market Crash, Banks Fail, Franklin D. Roosevelt, New Deal, Tennessee Valley Authority, Social Security, Federal Communications Commission, Securities and Exchange Commission, Additional Resources, Glossary, and More. This fun, fill-in activity book includes: Create the Front Page of a Newspaper, Make Indian Pudding, Do the Math Maze, Chronological Order Matching, Unscramble Words, True or False, and Much More.
