Memoirs of Myths and Truths Carl B. Allen, 2008-07-02

Memoirs of Myths and Truths in an Ordinary Pebble's Extraordinary Life We find the author considers himself an ordinary pebble among others of his time who has gone on a desperate search for love and approval But even an ordinary pebbles like him can have an extraordinary life because he is not ordinary from the start finding at an early age confusion and embarrassment regarding whether an accident or his mind makes him that way It's not until into his young adult stream does he discover another reason for his rebel behavior in school and life Which as a reader you'll recognized some problems in the text of the book cover and in the book's written words or spelling or sentence structure being a struggle You'll see it's not his schooling it's his battle with being dyslexic Yet there is some great writing and inspiration plus the help of a few photos to bring you into his or your memories and times when some myths emerged from stories and some being real truths Pebbles we all are truths are maybe what we think they should be and myths are longer lasting then we may know The author finds himself slowly aware of being in his September years having a sense of belonging to the past and present but a much shorter future With that comes a sense of family and the closeness of friends which has brought him to this place of wonderment that has continued from those wonderful years of youth They have brought him to these joyous thoughts while writing these memoirs and making reflecting on his extraordinary life Starting at first writing this for all his kin and others within that stream surround him but then realize other pebbles of this time can bring back some reflection on these times with a little smile some sadness and reflection too He may have wandered through those youthful years winding through life's paths and finding some running on empty or full or too fast or too slow at the time like the automobiles of the day His nurturing as a child not always satisfying resulted in the building many protective walls around his self Yet like James Dean in *East of Eden* or *Rebel Without a Cause* or *Giant* there was this desperate search for love and approval not always available for many reasons and questionable behavior leading to myths or truths Seeking his own needs while being an ordinary pebble has resulted in finding an extraordinary life There is a expression of views from his heart and mind trying to embrace so much of that extraordinary life that lies hidden deeper within his self and yet always trying to hold and consider that these are parts of his life whether shinning with beauty or happiness or sadness finding only to be viewed as an expression of soul He has tried painting but now the written word in expressing some of those myths spoken truths found within the soul and trusted memories They carry simple but complex myths in the life of an ordinary pebble always amazed by the course of the streams found These memoirs are a reflection of our times history love for the automobile then adding the racing with many encounters with lovers and places that have been traveled that brings this extraordinary life into view The book is about people encountered in his life's stream the persons who have enriched this life and helped him to find out who he is Also that going through this journey gathering memories myths or truths these moments sustained his notion of an ordinary pebble's extraordinary life These events have allowed

reflection on moral issues and things that are questionable judgment He hope that you enjoy this time traveling in this stream Pebbles we are yet we are still the most important part in those stream surrounding us finding most everyone else s lives continue similarly within those same small stream we live in rubbing shoulders and sharing our life s stream with others matter more than we know because as others enrich our lives we can d The Journey Home Joyce Antler,2010-05-11 A unique positive collection of essays profiles a number of forgotten female Jewish leaders who played key roles in various American social and political movements from suffrage and birth control to civil rights and fair labor practices

Laura Alexander,2023-01-10 This volume examines the ways in which trauma alters women s identities While some of the chapters look deeply at individual experiences many of the contributions look to national traumas and the consequences of political abuses including colonial subjugation and genocide for women The book shows that language has a transformative power to change us to give us a great capacity for inner and outer dialogues and for healing and self love As shown here women have historically employed autobiography and memoir to free themselves and others rather than seeing the limit of form they reinvent the parameters to offer a new relationship with language *Taking a Long Road Home* Eugene C. Bianchi,2010-11-15 This memoir invites readers to explore stages of their own spiritual journey Bianchi graphically describes his path from an Italian immigrant family on the West Coast through twenty years as a Jesuit to being a professor of religious studies at Emory University As he develops a more this worldly inner life Bianchi struggles with church teachings about Christ sexuality and authority He candidly reveals how failed marriages gave him a humbler grasp of meeting the transcendent in everyday problems He embraces a contemplative spirituality that links Buddhist and Taoist practices with western mysticism With a foot in Christianity he shows how to walk a way of inter spirituality as a meaningful road for the

contemporary seeker For Bianchi this involves becoming a metaphorical Christian as he moves away from religious certitudes of early life to find spirit in nature and humanity Bianchi a well known writer on spiritual aging challenges Baby Boomers to craft a contemplative life that works for them today With his wife and two cats he discovers a home for body and spirit along the banks of the Oconee River in Athens Georgia

A Pedagogist's

Memoir Grant Rodwell,2025-10-07 Opportunities to write our memoirs are many and varied To meet emerging demands the memoir genre continually is evolving and it is possible for the memoirist to shape the memoirs with varying themes time and settings to be brought to bear on school education at a senior level and for a range of teacher development programs Thus the developing importance of an accompanying exegesis For better or for worse childhoods shape adult relationships and attachment styles profoundly shaping who we are as teachers teaching styles and generally the things we consider important and not so important The shape of our childhood and adolescence has a profound impact on how relationships are formed in adulthood It can affect our ability to trust be vulnerable and create productive bonds both at school and college and professionally and also our general levels of motivation Through the aforementioned theme and subthemes my memoirs here reveal how childhood struggle has shaped my approach to teaching and my academic career from an unskilled labourer from

the country working class in the timber industry deprived of a high school education and recruited into the workforce at 15 years of age to a senior academic in one of Australia's G8 universities holding five PhDs With strong historical backgrounding a special appeal of this book is its drive to place childhood and adolescent events contained in the memoirs in a wider historical context looking to transnational movements such as discussions on anachronisms and eugenics In so doing the exegesis a fresh and exciting innovation is in harmony with the memoirs The memoir is so refashioned as a pedagogical tool

Form of Politics John von Heyking, 2016-06-01 For statesmen friendship is the lingua franca of politics Considering the connections between personal and political friendship John von Heyking's *The Form of Politics* interprets the texts of Plato and Aristotle and emphasizes the role that friendship has in enduring philosophical and contemporary political contexts Beginning with a discussion on virtue friendship described by Aristotle and Plato as an agreement on what qualifies as the pursuit of good *The Form of Politics* demonstrates that virtue and political friendship form a paradoxical relationship in which political friendships need to be nourished by virtue friendships that transcend the moral and intellectual horizons of the political society Von Heyking then examines Aristotle's ethical and political writings which are set within the boundaries of political life and Plato's dialogues on friendship in *Lysis* and the *Laws* which characterize political friendship as festivity Ultimately arguing that friendship is the high point of a virtuous political life von Heyking presents a fresh interpretation of Aristotle and Plato's political thought and a new take on the most essential goals in politics Inviting reassessment of the relationship between friendship and politics by returning to the origins of Western philosophy *The Form of Politics* is a lucid work on the foundations of political cooperation

Popular imperialism and the military, 1850-1950 John M. MacKenzie, 2017-03-01 Colonial war played a vital part in transforming the reputation of the military and placing it on a standing equal to that of the navy The book is concerned with the interactive culture of colonial warfare with the representation of the military in popular media at home and how these images affected attitudes towards war itself and wider intellectual and institutional forces It sets out to relate the changing image of the military to these fundamental facts For the dominant people they were an atavistic form of war shorn of guilt by Social Darwinian and racial ideas and rendered less dangerous by the increasing technological gap between Europe and the world Attempts to justify and understand war were naturally important to dominant people for the extension of imperial power was seldom a peaceful process The entertainment value of war in the British imperial experience does seem to have taken new and more intensive forms from roughly the middle of the nineteenth century Themes such as the delusive seduction of martial music the sketch of the music hall song powerful mythic texts of popular imperialism and heroic myths of empire are discussed extensively The first important British war correspondent was William Howard Russell 1820 1907 of The Times in the Crimea The 1870s saw a dramatic change in the representation of the officer in British battle painting Up to that point it was the officer s courage tactical wisdom and social prestige that were put on display
