EV - Electric Vehicles Come Home

Dale Stubbart, In my first book on Electric Cars I covered those which were available in the US In my new book I decided to cover the world I also venture into Electric Planes and EVTOLS Electric Vertical Takeoff and Landing machines Even though EVs are very interesting you might get bored after the 100th or so To relieve your boredom I inserted stories about my visits from a couple of outer space aliens who are very interested in Electric Cars Who says you can t mix research books with sci fi and humor I start with the most popular EVs I cover many parts of the globe And I cover lesser known Electric cars Some places around the world don t have good roads or the roads are too crowded There electric motorcycles rickshaws and other vehicles are more popular than electric cars And did you know that there s an electric skateboard Electric Cars come in several models Sedans SUVs Crossovers Hatchbacks etc There are even little electric bubble cars And there s a Amphibious E Tricycle Camper Now is a good time to get into an EV there s availability You ll get good range And you ll save money on gas and maintenance Besides bans on ICE vehicles internal combustion engine petrol powered cars are coming Maybe not tomorrow but soon And supermost of all owning an EV is cool and the wave of the future And you want to get into the action now because you want to ride the crest of the wave Some people are still worried about what happens if the battery dies I cover that Good news not a problem I also cover converting your car to an EV or rather hiring someone to do that for you and EV Rentals I conclude the book with what it would take to own an EV Dealership My EV choices and statements by World Leaders on EVs I evaluate the more popular cars and provide a blank evaluation form so you can make your own evaluations This book is packed with information but I keep it light so you won t get bored Actually that s not true I kept it light so that I wouldn t get bored The World Scientific Handbook Of Energy Gerard M Crawley,2013-01-28 Competition for energy resources worldwide will almost certainly increase because of population growth and economic expansion especially in countries such as China and India with large populations In addition environmental concerns with the use of certain energy sources add a complicating factor to decisions about energy use Therefore there is likely to be an increased commitment around the world to invest in energy systems The World Scientific Handbook of Energy provides comprehensive reliable and timely sets of data on energy resources and uses it gathers in one publication a concise description of the current state of the art for a wide variety of energy resources including data on resource availability worldwide and at different cost levels The end use of energy in transportation residential and industrial areas is outlined and energy storage conservation and the impact on the environment included Experts and key personnel straddling academia and related agencies and industries provide critical data for further exploration and research Experts in these various areas who provide relevant data for further exploration and research include former Head of the Nuclear Reactors Directorate of the CEA Director of the Potential Gas Agency who

leads a team of 100 geologists geophysicists and petroleum engineers former CEO of an Icelandic engineering company that specializes in the design construction and operation of Kalina binary power plants for geothermal biomass and industrial waste heat recovery applications Chairman of the Scottish Hydrogen and Fuel Cells Association former Director of the Geo Heat Center at the Oregon Institute of Technology who received the Patricius Medal from the German Geothermal Association for his pioneer work in the direct use of geothermal energy Division Director of NETL s Strategic Center for Coal who provides expert guidance and consultation to major DOE funded clean coal technology and carbon sequestration demonstration projects an internationally recognized expert in the physics and technology of Inertial Confinement Fusion ICF former Senior Scientist and Director of the Center for Distributed Generation and Thermal Distribution with Washington State University who was responsible for state policy technical assistance to resource developers and investigations related to geothermal energy development a main author on the 2005 Billion Ton Report and 2011 Billion Ton Update and many more extremely well published and well known individuals straddling academia and related agencies and industries

Straight From The Force's Mouth David Prowse,2011-09-28 Everyone has heard of Darth Vader the infamous Star Wars villain we all love to fear created by George Lucas and brought to life by Dave Prowse MBE but people may not be so familiar with the story of the multi talented man behind the mask It required someone exceptional to turn a helmeted costume into the principal character in the highest grossing film series in cinema history that someone was Dave Prowse The towering physical presence of the 6ft 7 bodybuilder was ideally suited to personify the intimidating Darth Vader Straight from the Force s Mouth takes us behind the scenes of Star Wars and documents how this extraordinary man took on the role of the menacing central character to creating one of the most iconic villains in cinema history In this book of memoirs Dave shares his journey from disadvantaged child and poor student to champion weightlifter and international film star The Dave Prowse story is one of determination and hard work and in this honest account he explains how he overcame the many setbacks in his life to achieve success and global recognition This book is a must have for Star Wars fans of all ages and will appeal to anyone who enjoys a truly inspirational and motivating real life story *Monthly Catalog of United States Government*
