South Africa's water governance hydraulic mission (1912-2008) in a WEF-Nexus context Johann W.N. Tempelhoff, 2018-12-01 Geologists physicists and ecologists currently promote the idea of a post Holocene epoch the Anthropocene As a result of constant innovation and modernisation in the fields of engineering natural science management studies and environmental studies there has been a growing awareness of the intrinsic interaction between humankind and the environment Humankind has become part of the environmental dynamics to the extent that they are literally able to change ecosystems Nowhere is the impact more evident than in the anthropogenic engagement with the hydrosphere from the smallest pool of water to the earth's atmosphere Comprehensive infrastructure development in water and sanitation the growing trend to seek additional resources in the form of groundwater desalinated seawater and recycled wastewater as well as special attention being given to capturing and preserving rainwater bear evidence of a timely response to climate change population growth and rapid development in many water stressed regions of the world The purpose of the book is to provide a historical overview of the manner in which South Africa's water resources have been governed from a time when the Union of South Africa was formed in 1910 up to 2008 a time of a growing global awareness of the potential impact that climate change may have on water

resources in a key region of southern Africa notable for increasing levels of aridity and more erratic rainfall patterns This focus on the history of water affairs in South Africa makes it possible for scholars to comprehend the contemporary transitions made in the country's water governance system since the establishment in 2014 of the Department of Water and Sanitation The focus is on the Water Energy Food nexus a strategy which holistically contemplates the governance and use of water from the perspective of the interconnection between water energy and food as resources *Patriots & Parasites* Dene Smuts, 2016-11-01 Patriots The great experiment in catharsis that was the Truth and Reconciliation Commission The reinvigoration of racial polarisation under the Mbeki administration and the slow burn of resentment that is coming to a head among the next generation as manifested in the RhodesMustFall campaign The entrenchment of cronyism under Zuma and the fight to protect the crucial balance of accountability enshrined in the freedom of the media and the independence of the judiciary **Promoting sustainable local economic development initiatives** Marius Venter, 2022 This book endeavours to outline case studies that promote sustainable Local Economic Development LED initiatives It is generally believed that local governments are the foot soldiers of LED However this seems to be a myth as local governments in South Africa and elsewhere have not yet fulfilled this mandate and have been struggling for several years to implement LED initiatives The distinctive merit of this book lies in the way it combines the South African context with the wider international development context in ways that there is a flow of information and ideas both ways The book is an essential part of this sequence of ideas development and action at a critical time for strategic action directed at a sustainable future It showcases case studies and responses to the impacts of globalisation as a bridge between urban rural and institutional action and reveals avenues for local government leadership in communities research student engagement and wider interactions **The Origin and Growth of Geography as a discipline at South Africa Universities** Gustav Visser, 2016-09-20 The publication provides the first comprehensive text that reflects on a century of the development of geography as an academic discipline at South African universities The book showcases a broad and textured review of South Africa's geography departments their staff members their times and the different Geographies they engaged in The book lays the foundation from which more expansive individual departmental histories can be written in the future *Winnie and Nelson* Jonny Steinberg, 2025-06-10 A NATIONAL BOOK CRITICS CIRCLE AWARD WINNER THE SUNDAY TIMES LITERARY AWARD WINNER AN LA TIMES BOOK PRIZE FINALIST A WASHINGTON POST AND NEW YORKER 2023 BEST BOOK OF THE YEAR A deeply researched shattering new account of Nelson Mandela's relationship with Winnie Madikizela Mandela that does justice both to the couple's political heroism and to the betrayals and the secrets that hounded their union The New Yorker Drawing on never before seen material Steinberg one of South Africa's foremost nonfiction writers reveals the fractures and stubborn bonds at the heart of a volatile and groundbreaking union a very modern political marriage that played out on the world stage Powerful intimate The Washington Post One of the most celebrated political leaders of a century Nelson Mandela has been

written about by many But in one crucial area his life remains largely untold his marriage to Winnie Madikizela Mandela During his years in prison Nelson grew ever more in love with an idealized version of his wife courting her in his letters as if they were young lovers frozen in time But Winnie every bit his political equal found herself increasingly estranged from her jailed husband's politics Behind his back she was trying to orchestrate an armed seizure of power a path he feared would lead to endless civil war Jonny Steinberg tells the tale of this unique marriage its longings its obsessions its deceptions making South African history a page turning political biography Winnie and Nelson is a modern epic in which trauma doesn't affect just the couple at its center but an entire nation It is also a Shakespearean drama in which bonds of love and commitment mingle with timeless questions of revolution such as whether to seek retribution or a negotiated peace Steinberg reveals with power and tender emotional insight how far these forever entwined leaders would go for each other and where they drew the line For in the end both knew theirs was not simply a marriage but a contest to decide how apartheid should be fought

Democracy's Infrastructure Antina von Schnitzler, 2016-11-08 In the past decade South Africa's miracle transition has been interrupted by waves of protests in relation to basic services such as water and electricity Less visibly the post apartheid period has witnessed widespread illicit acts involving infrastructure including the nonpayment of service charges the bypassing of metering devices and illegal connections to services *Democracy's Infrastructure* shows how such administrative links to the state became a central political terrain during the antiapartheid struggle and how this terrain persists in the post apartheid present Focusing on conflicts surrounding prepaid water meters Antina von Schnitzler examines the technopolitical forms through which democracy takes shape Von Schnitzler explores a controversial project to install prepaid water meters in Soweto one of many efforts to curb the nonpayment of service charges that began during the antiapartheid struggle and she traces how infrastructure payment and technical procedures become sites where citizenship is mediated and contested She follows engineers utility officials and local bureaucrats as they consider ways to prompt Sowetans to pay for water and she shows how local residents and activists wrestle with the constraints imposed by meters This investigation of democracy from the perspective of infrastructure reframes the conventional story of South Africa's transition foregrounding the less visible remainders of apartheid and challenging readers to think in more material terms about citizenship and activism in the postcolonial world *Democracy's Infrastructure* examines how seemingly mundane technological domains become charged territory for struggles over South Africa's political transformation
