## **1.1 What is Economics?**

Economics is a very interesting subject because it analyses how human beings make choices in an effort to maximize utility. It also analyses how a society seeks to allocate their limited resources in order to achieve growth. The term economics is derived from two words economy and science meaning the science of the economy or the science of proper utilization of resources. This chapter focuses on the nature and scope of economics. To understand the subject matter of economics, we tried to look at its different definitions by different scholars. The basic concepts of economics are discussed in order to give a better understanding of the definitions. There is also the need to understand the basic economic problems of any society because other problems revolve around these problems. The various definitions of economics are grouped under different headings as discussed below:

### **1.1.1 The Classical View of Economics**

The Classical economists viewed economics as a science of wealth. Adam Smith, the father of economics, in his book titled: 'An Enquiry into the Nature and Causes of Wealth of Nations', defined economics as the science of wealth. According to Adam Smith, economics makes inquiries into the factors that determine the wealth and growth of a nation. So to Adam Smith what forms the subject matter of economics is the production and expansion of wealth. However, Ricardo shifted emphasis from wealth production to wealth distribution. According to a French classical economist, J. B Say, economics is the science of production, distribution and consumption of wealth. Other classical

Commonwealth Responsibility and Cold War Solidarity Dan Halvorson, 2019-01-01 Australia s engagement with Asia from 1944 until the late 1960s was based on a sense of responsibility to the United Kingdom and its Southeast Asian colonies as they navigated a turbulent independence into the British Commonwealth The circumstances of the early Cold War decades also provided for a mutual sense of solidarity with the non communist states of East Asia with which Australia mostly enjoyed close relationships From 1967 into the early 1970s however Commonwealth Responsibility and Cold War Solidarity demonstrates that the framework for this deep Australian engagement with its region was progressively eroded by a series of compounding external factors the 1967 formation of ASEAN and its consolidation by the mid 1970s as the premier regional organisation surpassing the Asian and

Pacific Council ASPAC Britain's withdrawal from East of Suez Washington's de-escalation and gradual withdrawal from Vietnam after March 1968 the 1969 Nixon doctrine that America's Asia Pacific allies must take up more of the burden of providing for their own security and US rapprochement with China in 1972 The book shows that these profound changes marked the start of Australia's political distancing from the region during the 1970s despite the intentions, efforts and policies of governments from Whitlam onwards to foster deeper engagement By 1974 Australia had been pushed to the margins of the region with its engagement premised on a broadening but shallower transactional basis The BRICS and Beyond Li Xing, 2016-03-16 The world is in an era of great transformations Globalization transnational capitalism September 11 the 2008 global financial crises and the emergence of the second world in general and the BRICS in particular are characterized by a diffusion of power away from the traditional North Western powers and towards the global South Such great transformations have reshaped the terrain and parameters of social economic and political relations both at the national and the global levels and have exerted pressure on the exiting international order in terms of both opportunities and constraints This new era also urges the need for re-conceptualizing the changing world order especially with regard to one of the core conceptual categories and analytical apparatus in the studies of IR and IPE hegemony The world will witness a new era of interdependent hegemony in which both the existing First World and the emerging Second World are intertwined in a constant process of shaping and reshaping the international order in the nexus of national interest regional orientation common economic and political agenda political alliance and potential conflicts This collection juxtaposes from different perspectives and approaches the discussion on the political economy of the emerging world order with a focus on the rising powers *Annual Report on the Development of the Indian Ocean Region (2018)* Cuiping Zhu, 2019-06-11 The report was written by senior scholars of international studies and Indian Ocean studies and focuses on international relations in Indian Ocean region and covers many aspects of Indo Pacific The report includes both strategic review and major events and related data in this region This book also includes the origin, the aims, frameworks and regional and global impact of Indo Pacific The book includes the authors from 5 different institutes in China which provide readers with a full and authentic picture of Indo Pacific most recent development This year's Annual Report is the Sixth of this kind and the only one which covers exclusively on the Indian Ocean region in China Spatial Dynamics in the Experience Economy Anne Lorentzen, Karin Topsø Larsen, Lise Schrøder, 2015-05-22 This book explores the dynamics of place location and territories from the perspective of an experience based economy It offers a valuable contribution to this new approach and the planning and management challenges it faces This book emphasises three key avenues to understanding the experience economy First the book reconsiders innovation processes and the relationship between the consumption and production of experience value Second it considers emerging forms of governance related to experience based development in businesses and cities Third it examines the role of place as a value resource and outcome of experiential innovation and planning This book will be of
