Multilingual La La Land Claire Hitchins Chik, 2021-09-30 Home to immigrants from more than 140 countries speaking over 180 languages Los Angeles is a microcosm of the world While Los Angeles ethnic enclaves have been the subject of study by researchers from a wide range of fields these enclaves remain under researched from a linguistic standpoint Multilingual La La Land addresses the sociolinguistic landscape of the Greater Los Angeles GLA area providing in depth accounts of the sixteen most spoken languages other than English in the region Each chapter introduces the history of the language in the L A region uses census figures and residential densities to examine location based and network based speech communities and discusses the

patterns of usage that characterize the language including motivations to maintain the language How these patterns and trends bear on the vitality of each language is a central consideration of this book Next Generation Search Engines: Advanced Models for Information Retrieval Jouis, Christophe, Biskri, Ismail, Ganascia, Jean-Gabriel, Roux, Magali, 2012-03-31 Recent technological progress in computer science Web technologies and the constantly evolving information available on the Internet has drastically changed the landscape of search and access to information Current search engines employ advanced techniques involving machine learning social networks and semantic analysis Next Generation Search Engines Advanced Models for Information Retrieval is intended for scientists and decision makers who wish to gain working knowledge about search in order to evaluate available solutions and to dialogue with software and data providers The book aims to provide readers with a better idea of the new trends in applied research **Digital English as a Lingua Franca**

Annarita Taronna, 2023-01-10 Today the Internet has become a prime venue for social interaction through online services where people share aspects of their daily lives talk about their interests with other like minded people and express their opinions without formality or constraint Against this background this book investigates the aesthetics of informal text based computer mediated communication CMC such as question and answer websites conceived of as a distinctive medium of communication based on cosmopolitan brand communities that share the same field of expertise and a common interest in a particular topic By adopting sentiment analysis in order to recognize the positive or negative semantic orientation of texts and their emotional style the book demonstrates that the aesthetics of such informal texts written using Digital English as a Lingua Franca DELF is influenced by how we associate emotions and opinions with certain linguistic aspects such as specific words or syntactic patterns and how we can classify linguistic expressions according to the type of opinion that they convey

Googlization of Libraries William Miller, Rita Pellen, 2014-07-16 This book includes a variety of articles which look critically and judiciously at Google and its products with a focus on Google Scholar and Google Book Search It also examines their usefulness in a public service context Its ultimate aim is to assess the use of Google as a major information resource Its subject matter deals with online megasearch engines and their influence on reference librarianship the impact of Google on information seeking librarianship and the development of book digitization projects in which Google Book Search plays its part This book will be of interest to librarians across all educational sectors library science scholars and publishers This book was published as a special issue of the Journal of Library Administration Natural Language Processing and Information Systems
