Sinai Landscape And Nature In Egypt S Wilderness:

Sinai Omar Attum, 2014 Sinai Egypt environmental aspects pictorial work *The Regional Travel Guide for Sinai Peninsula (Egypt)* , From Egypt to Palestine Through Sinai, the Wilderness and the South Country Samuel Colcord Bartlett, 1879 **Protected Landscapes and Cultural and Spiritual Values** Josep-Maria Mallarach, Josep Maria Mallarach i Carrera, 2008 Documents using case studies the non material values that are to be found in protected landscapes Critical Spatiality in Genesis 1-11 Zhenshuai Jiang, 2018-09-10 Space in the Hebrew Bible is increasingly studied from the perspective of critical spatiality emphasizing the social and cultural dimension of space how people experience space and their creativity in constructing space Zhenshuai Jiang investigates the discourses on space in Gen 1 11 and discusses the connection between social space and spatial narrative He deals with various questions in different spatial terms with a detailed textual analysis of Gen 1 11 How is space constructed in Gen 1 11 To what extent and how is this construction influenced by social and cultural elements The author describes specifically how space in Gen 1 11 is constructed rhetorically taking into account historical and social circumstances in which the texts were written **Wildlife Conservation - Natural and Human-Influenced Ecosystems** , 2025-03-05 This book Wildlife Conservation Natural and Human Influenced Ecosystems gives a very interesting collection of case studies on the current problems challenges and difficulties of this important and scientifically interesting applied ecological research area This is a critical topic because abundant biodiversity enhances ecosystems resilience allowing them to effectively cope with and bounce back from various environmental stresses and disruptions An effective strategy should be based on fundamental principles that cover the duties and obligations of different stakeholders within the wildlife preservation sector including elected and appointed officials conservation experts working in governmental roles trust managers non governmental organizations and the general public I am sure this book will be very useful for everybody researchers teachers students government officials and activists committed to nature protection or others interested in the field who would like to get some insight into this part of the complex phenomena of biodiversity conservation **Picturesque Palestine, Sinai and Egypt** Sir Charles William Wilson, 1884 Egypt's Wilderness and the Quest for Conservation Gabriel Mikhail, 2003 This lavishly illustrated book reveals Egypt s spectacular wilderness areas with their varied wildlife and habitats and their sparse human populations through over 300 stunning color photographs and paintings together with explanatory text describing the natural and cultural landscapes Many of the photographs show the great variety of creatures found throughout Egypt from the teeming fish and invertebrates in the Red Sea to the less numerous but equally fascinating animals that inhabit the inhospitable sands of the Western Desert Also revealed are the indigenous people of the various areas and their distinct cultures From the Bisharin who have inhabited southeastern Egypt since Neolithic times to the Arab Bedouin each of the main ethnic groups is represented with photographs and a brief text The book also provides a view of Egypt s twenty four protected areas and the unrelenting efforts

being made by the Egyptian government to conserve the country's natural and cultural heritage *Environmental Politics in Egypt* Jeannie Sowers, 2013-06-26 Drawing on extensive fieldwork conducted in Egypt from the late 1990s to 2011 this book shows how experts and activists used distinctive approaches to influence state and firm decision making in three important environmental policy domains These include industrial pollution from large scale industry the conservation of threatened habitat and water management of the irrigation system These cases show how environmental networks sought to construct legal discursive and infrastructural forms of authority within the context of a fragmented state apparatus and a highly centralized political regime Managerial networks composed of environmental scientists technocrats and consultants sought to create new legal regimes for environmental protection and to frame environmental concerns so that they would appeal to central decision makers Activist networks in contrast emerged where environmental pollution or exclusion from natural resources threatened local livelihoods and public health These networks publicized their concerns and mobilized broader participation through the creative use of public space media coverage and strategic use of existing state sanctioned organizations With the increased popular mobilization of the 2000s and the mass protests of the 2011 revolution environmental politics has become highly topical Expert and activist networks alike have sought to broaden their appeal and diversify their approaches The result may well be a more contested participatory and dynamic phase in Egyptian environmentalism

The Regional Travel Guide for Cairo and the Nile Delta (Egypt) , [The Adventure travel guide for Egypt](#) , 2025-09-25 **Sex, Tourism and the Postcolonial Encounter**

Jessica Jacobs, 2016-04-01 Illustrated by revealing interviews with women and men in the tourist resorts in the Sinai Egypt this book is ostensibly about western women who sleep with native men while on holiday Broadening the scope of issues involved it examines the link between these holiday romances and a much wider romanticism of place and people of the landscapes of paradise deserts and the lure of the Bedouin sheikh that are used to sell these destinations It argues that the romantic stereotyping and deliberate positioning of Third World resorts as places that somehow exist outside of the

modernities the women come from is inextricably bound up in the relationships Similarly for the local man the tourist resort is perceived as a place other than his own cultural space and time and represents a modernity that is otherwise only found in the West The relationships that ensue can therefore only occur because the tourist resort acts as an intermediate space In analyzing the interaction of these men and women within the context of modernity the book provides insights into gender issues to do with globalization travel and sexuality as well as opening up the debate on sex tourism and showing this to be a lot more ambiguous and complicated than it might at first appear

Egypt Joseph J. Hobbs, Aswin Subanthore, 2007 Egypt lies at a crossroads between Africa Asia and Europe and is the largest country in the Middle East Egypt's other geographical feature is its deserts The Nile helped in the cultivation of crops while the deserts helped keep Egypt isolated This work explores the people culture history environment economy and government of Egypt

Wilderness in Mythology and Religion Laura Feldt, 2012-10-01 Wilderness is one of the most abiding creations in the history of religions It has a long and seminal history and is of contemporary relevance in wildlife preservation and climate discourses Yet it has not previously been subject to scrutiny or theorising from a cross cultural study of religions perspective What are the specific relations between the world's religions and imagined and real wilderness areas The wilderness is often understood as a domain void of humans opposed to civilization but the analyses in this book complicate and question the dualism of previous theoretical grids and offer new perspectives on the interesting multiplicity of the

wilderness and religion nexus This book thus addresses the need for cross cultural anthropological and history of religions analyses by offering in depth case studies of the use and functions of wilderness spaces in a diverse range of contexts including but not limited to ancient Greece early Christian asceticism Old Norse religion the shamanism Buddhism encounter in Mongolia contemporary paganism and wilderness spirituality in the US It advances research on religious spatialities cosmologies and ideas of wild nature and brings new understanding of the role of religion in human interaction with the world
