Sintaxis Y Semantica Del Adjetivo:

Introducción a la explicación lingüística de textos José Luis Girón Alconchel,1993 **Sintaxis y semántica del adjetivo** Marta Luján,1980 *Semántica interpretativa* François Rastier,2005-01-01 La semántica estructural renace después de los embates del posestructuralismo apartándose del objetivismo Tal es el mérito sobresaliente de este libro refundacional escrito por uno de los más notables teóricos contemporáneos del lenguaje Un nutrido glosario de términos enriquece esta edición Este tratado propone herramientas descriptivas para los lingüistas especialistas de la literatura historiadores psicólogos maestros es decir a todos los que tienen relación con el texto esa dimensión mayor de las lenguas *The Semantic Structure of Spanish* Larry Dawain King,1992-01-01 In recent years linguistics has become increasingly more willing to allow some type of representation of meaning in the study of language However most approaches deal with sentence or utterance meaning and thereby ignore the meaning of linguistic form Yet no description of linguistic semantics can be complete without a comprehensive account between meaning and form This study returns to the problem of form and meaning by presenting a detailed account of certain forms in Spanish which have traditionally been called grammatical forms or grammatical categories and associated with grammatical meaning It is suggested that not all linguistic forms represent the same kind of meaning and that a subset of grammatical forms constitute a highly organized system that parallels phonology and syntax in its capacity to explain variation at the level of discourse The book opens with an introductory chapter which is followed by five chapters on the analysis of the Spanish verbal system In Chapter 7 problems of the noun phrase the meaning of determiners and grammatical number are discussed Chapter 8 offers an explanation of the meaning of the direct object and in Chapter 9 a crosslinguistic study of the semantics of Spanish and English is presented A summary of findings is given in Chapter 10 along with a further consideration of the goals and procedures of semantic analysis *Enciclopedia de Lingüística Hispánica Volume I* Javier Gutiérrez-Rexach,2016-01-29 The Enciclopedia de Linguistica Hispánica provides comprehensive coverage of the major and subsidiary fields of Spanish linguistics Entries are extensively cross referenced and arranged alphabetically within three main sections Part 1 covers linguistic disciplines approaches and methodologies Part 2 brings together the grammar of Spanish including subsections on phonology morphology syntax and semantics Part 3 brings together the historical social and geographical factors in the evolution of Spanish Drawing on the expertise of a wide range of contributors from across the Spanish speaking world the Enciclopedia de Linguistica Hispánica is an indispensable reference for undergraduate and postgraduate students of Spanish and for anyone with an academic or professional interest in the Spanish language Spanish linguistics **A Formal Approach to Spanish Syntax** Jos Hallebeek,2024-08-26 **Gramática descriptiva de la lengua española: Las construcciones sintácticas fundamentales. Relaciones temporales, aspectuales y modales** Ignacio Bosque,Violeta Demonte,1999 *Sintaxis del español e interfase sintaxis-semántica* Martha Islas,Cynthia Ramírez,2005 **From Words to Discourse** Javier Gutiérrez-Rexach,2022-02-22 An area of linguistic

research can be considered mature when the validity of theoretical and empirical results is tested cross linguistically and when predictions from different languages influence and modify the course of theoretical development The semantics pragmatics interface poses a special challenge in this respect because of its interdisciplinary and multi theoretical nature This volume attempts to bridge the gap between theory and empirical analysis by focussing on several aspects of the semantics and the pragmatics of Spanish from a variety of theoretical points of view Some of the papers were selected from those presented at the International Conference Semantics and Pragmatics of Spanish Ohio State University 1999 Others are invited contributions from leading scholars in the field Among the topics covered are several that have been the subject of intense debate whereas others represent subtle data patterns not considered so far The topics include the proper characterization of tense and aspect the subjunctive verbal periphrases stage individual level predication the interpretation of infinitives in embedded and adjunct clauses the subjunctive mood demonstratives quantification of excess exception phrases binding phenomena propositional negative polarity items particles of politeness and pronominal doubling Overall the analysis of these subjects contributes new findings to prominent theories in the field such as possible world semantics relevance theory mental spaces type coercion generalized quantifier theory dynamic semantics and the theory of logical form

Se propone un nuevo modelo de esquema sintáctico oracional con una nueva posición funcional que se caracteriza por conferir valor predicativo secundario a los funtivos de valor referencial no denotativo que a ella se acogen: externa al grupo verbal propicia el contraste entre el contenido proposicional de la predicación matriz del enunciado, la del propio grupo verbal y el contenido de un adjetivo, una relativa, un sustantivo, un adverbio o una adverbial impropia.
