Portrait of the Artist as a Young Adult Lois Thomas Stover, Connie S. Zitlow, 2013-10-30 Young adults often struggle with confusion or guilt because they perceive themselves as different from others especially their peers For some of these individuals the arts can help them cope with adolescent turmoil allowing them to express their emotions in poems stories painting songs and other creative outlets Sensitive teachers and parents know how important it is for young people to realize that they are not alone in their quest for self knowledge and finding their way in the world It can make a difference when readers find something in a book that helps them understand more about who they are and helps them understand others In Portrait of the Artist as a Young Adult The Arts in Young Adult Literature Lois Thomas Stover and Connie S Zitlow examine books in which the coming of age for young adults is influenced by the arts Stover and Zitlow consider the connection between the arts and a young person s developing sense of self the use of art to cope with loss and grief and how young adults can use art to foster catharsis and healing The young people in these books either identify as artists or use the arts in intentional ways to explore their identities They often have artistic gifts that make them stand outside the norms of teenage life yet those gifts also help them find a sense of community Artists considered in this book include painters photographers sculptors actors directors choreographers dancers composers musicians graffiti artists and others The books discussed also explore the ways adults can nurture the artist s development and understand the way young people sometimes use the arts to form their unique identity Included is an annotated bibliography organized by art discipline as well as an appendix about using the arts pedagogically making Portrait of the Artist as a Young Adult a valuable resource for educators parents librarians and young adults

The Split and the Structure Rudolf Arnheim, 1996-10-17 Rudolf Arnheim s great forte is his ability to illuminate the perceptual processes that go into the making and reception of artworks painting sculpture architecture and film Over the years his pioneering mode of reading art from a unique scientific philosophic perspective has garnered him an established and devoted

audience That audience will take pleasure in Arnheim s most recent collection of essays one that covers a range of topics and includes titles such as Outer Space and Inner Space What Is an Aesthetic Fact As I Saw Children s Art Two Ways of Being Human Consciousness an Island of Images and From Chaos to Wholeness The notion of structure is Arnheim s guide in these explorations Most of the essays examine the nature of structure affirmatively how it comes about its incentives and objectives its celebration of perfection He is interested in how artists grope for structure to shape powerful enlightening images and how a scientist s search for truth is a search for structure Writing with enviable clarity even when deploying complex arguments Arnheim makes it easy and exciting to follow him as he thinks America is not abundantly supplied with public intellectuals such as Rudolf Arnheim to have his writings with us is cause for celebration The word structure appears for good reason in the title of this collection Structure seems to be needed as an arbiter wherever this civilization of ours is split by selfish interests and fighting for either or decisions The essays want to speak with the voice of reason because they want to show how the parts require the whole
