International Law and Changing Perceptions of Security Jonas Ebbesson,Marie Jacobsson,Mark Adam Klamberg,David Langlet,Pål Wrange,2014-08-07 The traditional conception of security as national security against military threats has changed radically since the adoption of the UN Charter in 1945 The perceived nature and sources of threats have been widened as well as the objects of protection now including individuals societies the environment as such and the whole globe In International Law and Changing Perceptions of Security the contributors reflect on whether and how changing concepts and conceptions of security have affected different fields of international law such as the use of force the law of the sea human rights international environmental law and international humanitarian law The authors of this book have been inspired by Professor Said Mahmoudi to which this Liber Amoricum is dedicated **Automatic and Remote Control** International Federation of Automatic Control,1971 The Bedrock of Opinion G. Sundqvist,2013-04-17 When did man discover nuclear waste To answer this question we first have to ask if nuclear waste really is something that could be called a scientific discovery such as might deserve a Nobel Prize in physics In early writings within nuclear energy research radioactive waste appears to be a neglected issue a story never told Nuclear waste first seems to appear when a public debate arose about public health risks of nuclear power in the late 1960s and early 70s In nuclear physics consensus was established at an early stage about the understanding of the splitting of uranium nuclei The fission products were identified and their chains of disintegration and radioactivity soon were well established facts among the involved scientists as was an awareness of the risks for example the strong radioactivity of strontium and iodine and the poisonous effects of plutonium However the by products were never either in part or in total called or perceived as waste just as fission by products How and where to dispose of the by products were questions that were never asked by the pioneers of nuclear physics SR 97 Maria Lindgren,1999 **Proceedings of the IFAC 5th World Congress, Paris, France, June 12-17, 1972** International Federation of Automatic Control,1971 **International Reference Guide to Space Launch Systems** Steven J. continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies the emergence of specific integration and security cultures the spread of cross border regionalisation processes at the expense of region building the interplay between territory space and trans state networks and the intrinsic ambivalence of global frontier narratives This is emphasized through the identification of distinctive threads of regionalism which by focusing on genealogies trajectories and ideals transcend the binary divide between old and new regionalisms In doing so the book opens new perspectives not only on Africa in international relations but also Africa s own international relations This text will be of key interest to students and scholars of African politics African history regionalism comparative regionalism and more broadly to international political economy international relations and global and regional governance *Access* ,1985 **Lloyd's Register OneOcean's Guide to Port Entry 1985-1986** Lloyd's Register Foundation,1985-01-01 First published in 1971 these Guides provide invaluable information on thousands of commercial ports and terminals across the globe They are compiled and published annually by LR OneOcean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success The Guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide These are fully indexed and contain detailed port plans and mooring diagrams *Soil and Rock America 2003* Patricia J.
