Portuguese Trade In Asia Under The Habsburgs 158164:

The Survival of Empire G. B. Souza, George Bryan Souza, 2004-07-08 In this original study of the Portuguese Empire in the East the Estado da India George Souza looks in detail at the activities of Macao His aim is to enquire into the nature of Portuguese society in China and the South China Sea and explain why the political and economic activities of the Portuguese crown did not inhibit the growth of local entrepreneurial trade He also examines the nature of Portuguese maritime trade in Asia and analyses the focal role of Macao as an adjunct to the Canton market The operations of Portuguese private merchants the so called country traders are described and tellingly assessed in the wider context of the economic development of China and Southeast Asia in the seventeenth and eighteenth centuries **Studies on Portuguese Asia,**

1495-1689 George Davison Winius, 2001 Portuguese Asia otherwise known as the Estado da ndia Oriental has been far less studied than the Spanish empire in America its counterpart in the Western hemisphere It differed from that vast entity in that it was essentially a maritime trading operation held together by strategic territories such as Goa Ceylon or Macau For more than a century these afforded it control of much of the Indian Ocean As Professor Winius shows it was certainly the most peculiar and colourful operation that existed in the history of European expansion even giving rise to a second shadow empire created by escapees and renegades from its royal administration Some of these essays reflect on Portuguese involvement in other areas notably the Atlantic and the impact this had in the East but their focus is on the Portuguese in South and Southeast Asia They describe its nature and its rise and fall from the first voyage of Vasco da Gama to its dismemberment by the Dutch in the mid seventeenth century and include studies on the jewel trade and on the Renaissance in Goa *Studies on Portuguese Asia, 1495-1689* George D.
