## **Post Communist Stories About Cities Politics Desires:**

**Post-Communist Stories** Stan Persky, 2014 Twenty five years after the Berlin Wall was pulled down by Berliners fed up with the division of their city Stan Persky returns to Eastern Europe In essays informative and insightful he illuminates what some consider the final act the Second World War the end of the occupation by the Soviets of Germany Poland Hungary Czechoslovakia and the Baltic nations The Astonishment Tapes Robin Blaser, 2015-10-31 The Astonishment Tapes is the edited transcript of revealing autobiographical audiotapes recorded by the groundbreaking poet Robin Blaser a founding member of the Berkeley contingent of the San Francisco Renaissance in New American Poetry *Politics, Desire, and the Hollywood Novel* Chip Rhodes, 2008-09 The story of what happens when a serious writer goes to Hollywood has become a cliché the writer is paid well but underappreciated treated like a factory worker and forced to write bad formulaic movies Most fail become cynical drink to excess and at some point write a bitter novel that attacks the film industry in the name of high art Like many too familiar stories this one neither holds up to the facts nor helps us understand Hollywood novels Instead Chip Rhodes argues these novels tell us a great deal about the ways that Hollywood has shaped both the American political landscape and American definitions of romance and desire Rhodes considers how novels about the film industry changed between the studio era of the 1930s and 1940s and the era of deregulated film making that has existed since the 1960s He asserts that Americans are now driven by cultural rather than class differences and that our mainstream notion of love has gone from repressed desire to abnormal desire to finally strictly business *Politics Desire and the Hollywood Novel* pays close attention to six authors Nathanael West Raymond Chandler Budd Schulberg Joan Didion Bruce Wagner and Elmore Leonard who have toiled in the film industry and written to tell about it More specifically Rhodes considers both screenplays and novels with an eye toward the different formulations of sexuality art and ultimately political action that exist in these two kinds of storytelling The City of Earthly Desire Francis Berger, 2018-02-05 Fully revised edition published January 2020 The City of Earthly Desire is an unforgettable novel of love and lust beauty and vulgarity virtue and vice and art and ethics Occasionally dark but always entertaining and engaging the narrative is peopled by a memorable cast of characters who are as intense and turbulent as the times and places they occupy Like the great novels of the nineteenth century the story delves into the struggle between morality and immorality meaning and nihilism and good and evil After the communists destroy his dream of becoming a recognized painter in Hungary Reinhardt Drixler escapes to America to provide a better future for his young family and to further his artistic pursuits Twenty five years later communism collapses in Europe Reinhardt's son B la falls in love with Suzy Kiss an ambitious and alluring Hungarian striptease dancer whose interest in the young writer can be summarized in two words green card When Suzy is mysteriously deported a devastated B la must make a decision should he stay in New York and continue with the noble artistic ambitions his father instilled in him or should he follow his heart to Hungary and explore the enticing and risqué opportunities blossoming in post communist

Budapest      **Post-Communist Malaise** Zoran Samardzija, 2020-05-15 Post Communist Malaise examines political modernism within the context of post communist Eastern Europe and the Balkans It focuses on how select cinemas from the regions critique European unification and how they represent related issues like the transition from communism to free market capitalism the Euro crisis and austerity and the rise of nationalism and right wing politics      **The Routledge Handbook on Cities of the Global South** Susan Parnell, Sophie Oldfield, 2014-03-26 The renaissance in urban theory draws directly from a fresh focus on the neglected realities of cities beyond the west and embraces the global south as the epicentre of urbanism This Handbook engages the complex ways in which cities of the global south and the global north are rapidly shifting the imperative for multiple genealogies of knowledge production as well as a diversity of empirical entry points to understand contemporary urban dynamics The Handbook works towards a geographical realignment in urban studies bringing into conversation a wide array of cities across the global south the ordinary mega global and peripheral With interdisciplinary contributions from a range of leading international experts it profiles an emergent and geographically diverse body of work The contributions draw on conflicting and divergent debates to open up discussion on the meaning of the city in or of the global south arguments that are fluid and increasingly contested geographically and conceptually It reflects on critical urbanism the macro and micro scale forces that shape cities including ideological demographic and technological shifts and constantly changing global and regional economic dynamics Working with southern reference points the chapters present themes in urban politics identity and environment in ways that re frame our thinking about cities The Handbook engages the twenty first century city through a southern urban lens to stimulate scholarly professional and activist engagements with the city      **Between Sacrifice and Desire** Ashley Pettus, 2004-03-01 This title explores the role of women in the politics of national identity in Vietnam Drawing on diverse primary resources including state news media government contests tabloid journalism and extensive interviews the author examines the intimate connection between notions of Vietnamese femininity and the cultural quandaries of modernity in post colonial Vietnam The book covers the socialist and market reform periods from the 1950s through the 1990s and examines women s central place as both symbols and disciplined subjects in Vietnam s socialist modernization and ongoing capitalist transition      *Ecologies of Affect* Tonya K. Davidson, Ondine Park, Rob Shields, 2013-06-01 *Ecologies of Affect* offers a synthetic introduction to the felt dynamics of cities and the character of places The contributors capture the significance of affects including desire nostalgia memory and hope in forming the identity and tone of places The critical intervention this collection of essays makes is an active consistent engagement with the virtualities that produce and refract our idealized attachments to place Contributors show how place images and attempts to build communities are rather than abstractions fundamentally tied to and revolve around such intangibles We understand nostalgia desire and hope as virtual that is even though they are not material they are nevertheless real and must be accounted for In this book the authors take up affect emotion and emplacement and consider

them in relation to one another and how they work to produce and are produced by certain temporal and spatial dimensions The aim of the book is to inspire readers to consider space and place beyond their material properties and attend to the imaginary places and ideals that underpin and produce material places and social spaces This collection will be useful to practitioners and students seeking to understand the power of affect and the importance of virtualities within contemporary societies where intangible goods have taken on an increasing value

**Romancing the Market** Stephen Brown,Bill

Clarke,Anne Marie Doherty,2003-09-02 Romancing the Market is a radical rethinking of marketing understanding The book contains essays by an international selection of the most creative contemporary marketing scholars

**The Dialectical Meaning of Offshored Work** Miłosz Mischczyński,2019-08-12

The Dialectical Meaning of Offshored Work analyzes how offshoring investments function as a platform for intercultural encounters among corporate actors and local populations of hosting communities The book synthesizes ethnographic research media reviews and policy analysis to examine how localized forms of offshoring production occur in social political and economic processes to highlight dilemmas connected to mobility of capital modernization social equality and capitalist expansion The book delineates the complex interplay between Western neoliberalism and a transforming post socialist Europe to show the complex ways in which offshoring production infiltrates local communities Analyzing issues of labor work and employment this book engages with current scholarship on critical management sociology anthropology and East European studies

*Kinesthetic City* SanSan Kwan,2013-02-07

Kinesthetic City uses choreography as subject and method to explore how movement through particular spaces at precise moments can illuminate the communities in those places and times It examines the simultaneous persistence and mobility of the idea of Chineseness as it travels across a transnational network of Chinese cities

The Geopolitics of Spectacle Natalie Koch,2018-06-15 Develops a geographic approach to the politics of spectacle and its unspectacular Others through examining recent spectacular capital city development projects in seven authoritarian resource rich states of Central Asia the Arabian Peninsula and East Asia

Governance and Leadership in Shrinking Cities Stanisław Mazur,2023-08-24 The aim of this publication is to look in depth at depopulation a trend that is affecting an increasing number of cities worldwide It has recently become a critical issue with a range of detrimental social economic spatial and financial consequences However attempts by central and local governments to combat depopulation have yet to yield satisfactory results Compelling evidence suggests that one of the reasons for this state of affairs is that the role of local urban leadership in devising solutions mobilizing resources and creating networks to address the problem has been underestimated Moreover according to the authors of this monograph there is a significant positive correlation between urban leadership and the ability to effectively respond to and counteract the negative effects of depopulation Without an understanding of the impact of urban leadership on the ability to address the negative consequences of urban depopulation it is impossible to pursue effective public policies in this regard This book presents a novel approach to explaining the ability of cities to combat depopulation through the

prism of urban leadership quality It compares domestic empirical research findings with international case studies and offers a comprehensive review of valuable practices to counter urban shrinkage and depopulation from both academic and practical perspectives Further the book provides a new interpretation of the processes associated with these trends The magnitude of the phenomenon in question the negative spatial economic and social consequences as well as the relatively low effectiveness of policies aimed at its mitigation will make this book an invaluable guide for researchers and students from a wide range of disciplines including urban studies economics public management leadership studies local government climate change and energy transition and urban movements The audience will also comprise of policymakers and urban experts such as sociologists planners social geographers economists and architects

**Political Parties in the Russian Regions** Derek S. Hutcheson, 2005-08-03 This book based on extensive original research in a range of Russian provinces examines political parties in the new Russia exploring in particular how party activism on the ground actually works in practice

*Remaining Relevant After Communism* Andrew Wachtel, 2006-02 More than any other art form literature defined Eastern Europe as a cultural and political entity in the second half of the twentieth century Although often persecuted by the state East European writers formed what was frequently recognized to be a second government and their voices were heard and revered inside and outside the borders of their countries This study by one of our most influential specialists on Eastern Europe considers the effects of the end of communism on such writers According to Andrew Baruch Wachtel the fall of the Berlin Wall and the creation of fledgling societies in Eastern Europe brought an end to the conditions that put the region's writers on a pedestal In the euphoria that accompanied democracy and free markets writers were liberated from the burden of grandiose political expectations But no group is happy to lose its influence despite recognizing that their exalted social position was related to their reputation for challenging political oppression such writers have worked hard to retain their status inventing a series of new strategies for this purpose *Remaining Relevant after Communism* considers these strategies from pulp fiction to public service documenting what has happened on the East European scene since 1989

*The Political Philosophy of the European City* Ferenc Hörcher, 2021-06-03 *The Political Philosophy of the European City* is a courageous and wide ranging panorama of the political life and thought of the European city Its novel hypothesis is that modern Western political thought since the time of Hobbes and Locke underestimated the political significance and value of the community of urban citizens called *civitas* united by local customs or even a formal or informal urban constitution at a certain location which had a recognizable countenance with natural and man made architectural marks called *urbs* Recalling the golden age of the European city in ancient Greece and Rome and offering a detailed description of its turbulent life in the Renaissance Italian city states it makes a case for the city not only as a hotbed of modern democracy but also as a remedy for some of the distortions of political life in the alienated contemporary centralized Weberian bureaucratic state Overcoming the north south divide or the core and periphery partition the book's material is particularly rich in Central European case studies All in all it is an

enjoyable read which offers sound arguments to revisit the offer of the small and middle sized European town in search of a more sustainable future for Europe

**Lessons from Covid-19: Building a fairer, healthier, inclusive and sustainable post-pandemic society** Hannah Bradby,Guillermina Jasso,Kath Woodward,William Outhwaite,Valeria Pulignano,Sin Yi Cheung,2023-01-12

**Russian Warfare in the 21st Century** Dani Belo,2025-07-18 This book provides a comprehensive analysis of Russia s foreign policy in gray zone conflicts with a particular focus on its interventions in Ukraine Challenging conventional views the book contends that Russia s use of varied gray zone tactics is influenced by both system level incentives and domestic level opportunities which are integrated here into the Incentive Opportunity Intervention IOI Model The book examines case studies including Abkhazia Crimea Odesa Kharkiv and the Donbas demonstrating how local ethnic based movements and perceptions of regional retreat shape Moscow s coercive strategies It highlights the reactive nature of Russia s tactics driven by perceived threats to its protector role and the significant role of ethnic and political dynamics in the region The study underscores the importance of understanding these motivations for effective conflict resolution and suggests that protecting minority rights could mitigate such interventions Policy recommendations emphasize the need for nuanced approaches that address both geopolitical and local dynamics Ultimately the book calls for future research to apply the IOI Model to other great powers enhance the generalizability and applicability of the findings and highlight the potential for multilateral coordination in promoting minority rights as a strategy for conflict prevention This book will be of much interest to students and policy practitioners working on Russian foreign policy international security Eastern European politics and International Relations

**Matters of Revolution** Dominik Bartmanski,2022-03-30 Symbols matter and especially those present in public spaces but how do they exert influence and maintain a hold over us Why do such materialities count even in the intensely digitalized culture This book considers the importance of urban symbols to political revolutions examining manifold reasons for which social movements necessitate the affirmation or destruction of various material icons and public monuments What explains variability of life cycles of certain classes of symbols Why do some of them seem more potent than others Why do people exhibit nostalgic attachments to some symbols of the controversial past and vehemently oppose others What nourishes and threatens the social life of icons Through comparative analyses of major iconic processes following the epochal revolution of 1989 in Berlin and Warsaw the book argues that revolutionary action needs objects and sites which concretize the transformative redrawing of the symbolic boundaries between the sacred and profane good and evil before and after and progressive and reactionary the symbolic shifts that every revolution implies in theory and formalizes in practice Public symbols ensconced within actual urban spaces provide indispensable visibility to human values and social changes As affective topographies that externalize collective feelings their very presence and durability is meaningful and so are the revolutionary rituals of preservation and destruction directed at those spaces Far from being mere gestures or token signifiers they have their own gravity with profound cultural ramifications This volume

will appeal to sociologists anthropologists geographers and social theorists with interests in urban studies public heritage material culture political revolution and social movements      Architecture and Ugliness Wouter Van Acker, Thomas Mical, 2021-05-06 Whatever ugliness is it remains a problematic category in architectural aesthetics alternately vilified and appropriated either to shock or to invert conventions of architecture This book presents eighteen new essays which rethink ugliness in architecture from brutalism to eclectic postmodern architectural productions and together offer a diverse reappraisal of the history and theory of postmodern architecture and design The essays address both broad theoretical questions on ugliness and postmodern aesthetics as well as more specific analyses of significant architectural examples dating from the last decades of the twentieth century addressing the relation between the aesthetic register of ugliness and aesthetic concepts such as brutalism kitsch the formless ad hoc ism the monstrous or the grotesque Architecture and Ugliness not only documents the history of a postmodern anti aesthetic through a diverse set of case studies it also sheds valuable light on an aesthetic problem which has been largely overlooked in architectural discourse It is essential reading for all students and scholars with an interest in postmodern architectural history architectural theory and aesthetics
