Guided Math Workstations 6-8 Laney Sammons, Donna Boucher, 2017-08-01 This invaluable professional resource instructs teachers on how to successfully implement Guided Math Workstations into grades 6-8 classrooms. With detailed instructions that are easily adopted into today's classrooms, this book contains everything teachers need to set up, plan, and manage workstations. Guided Math Workstations allow teachers to address their students' varied learning needs within a carefully planned numeracy-rich environment where students are challenged to not just do math but to become mathematicians. Teachers will be able to successfully target the specific needs of learners with small group lessons as students work independently on math workstation tasks. Each workstation task includes an overview of the lesson materials, objective, procedure, and differentiation tactics; a Student Task card with directions and a materials list for the task to help with implementation and organization; a Talking Points card with math vocabulary words and sentence stems to encourage mathematical discourse; and additional resources for each task.

Math, Manipulatives, & Magic Wands Karen Simmons, Cindy Guinn, 2001 This book shows you how to teach national math standards with literature-based make-and-take projects. Suggestions for illustrating math concepts with children's literature are included for each activity.
