Official Gazette of the United States Patent and Trademark Office ,1999 *A Simple Act of Gratitude* John Kralik,2011-12-27 One recent December at age 53 John Kralik found his life at a terrible frightening low his small law firm was failing he was struggling through a painful second divorce he had grown distant from his two older children and was afraid he might lose contact with his young daughter he was living in a tiny apartment where he froze in the winter and baked in the summer he was 40 pounds overweight his girlfriend had just broken up with him and overall his dearest life

dreams including hopes of upholding idealistic legal principles and of becoming a judge seemed to have slipped beyond his reach. Then during a desperate walk in the hills on New Year's Day, John was struck by the belief that his life might become at least tolerable if instead of focusing on what he didn't have, he could find some way to be grateful for what he had. Inspired by a beautiful, simple note his ex-girlfriend had sent to thank him for his Christmas gift, John imagined that he might find a way to feel grateful by writing thank-you notes. To keep himself going, he set himself a goal: come what may, of writing 365 thank-you notes in the coming year. One by one, day after day, he began to handwrite thank-yous for gifts or kindnesses he'd received from loved ones and coworkers from past business associates and current foes from college friends and doctors and store clerks and handymen and neighbors and anyone really absolutely anyone who'd done him a good turn, however large or small. Immediately after he'd sent his very first notes, significant and surprising benefits began to come. John's way from financial gain to true friendship, from weight loss to inner peace. While John wrote his notes, the economy collapsed, the bank across the street from his office failed, but thank-you note by thank-you note, John's whole life turned around. *A Simple Act of Gratitude* is a rare memoir; its touching, immediately accessible message and benefits come to readers from the plainspoken storytelling of an ordinary man. Kralik sets a believable, doable example of how to live a miraculously good life. To read *A Simple Act of Gratitude* is to be changed.

Demystifying Secondary Inclusion Lisa Dieker, 2013. In the second edition of *Demystifying Secondary Inclusion*, acclaimed author, professor, and teacher trainer Dr. Lisa Dieker provides practical, realistic, and helpful ideas and techniques for including students with disabilities in the general education classroom. In truly inclusive classrooms, teachers focus on practices that are proven and promising for all students. Teachers understand the individualistic nature of learners, put students at the center of planning and instruction, and accept responsibility for teaching each and every student. Chapters 1-3 of *Demystifying Secondary Inclusion* detail ways of ensuring that students with disabilities are included in the general education environment. In Chapters 4-7, additional instructional strategies for embracing all learners are presented. This section also focuses on creating an inclusive classroom climate that facilitates successful learning outcomes. Chapter 8 provides concrete ways to prepare staff for the process of developing and maintaining an inclusive environment and offers examples of successful practices from strong schools. Each chapter ends with a set of questions to encourage reflection on current practice. Seven overarching and interdependent topics provide the basic structure for inclusion outlined in *Demystifying Secondary Inclusion*. These include: Creating an inclusive school-wide culture; Celebrating the success of all students; Developing interdisciplinary collaboration; Implementing effective co-teaching; Establishing acting learning environments; Implementing successful instruction; Improving grading and assessments. The book specifically addresses the most frequent obstacles to inclusion at the secondary level and provides hands-on strategies for improving the teaching-learning process.
