Extrait de la préface écrite par Thomas De Koninck **Our Battle for the Human Spirit** Willem H. Vanderburg, 2016-01-01 Our Battle for the Human Spirit is a comprehensive probe into what is happening to human life in the beginning of the 21st century It explores how culture experience and symbolization have been replaced by scientific discipline based approaches *Presence in the Modern World* Jacques Ellul, 2017-09-28 Presence in the Modern World is Jacques Ellul's most foundational book combining his social analysis with his theological orientation Appearing first in French in 1948 and later in English as The Presence of the Kingdom it has reached the status of a classic that retains all of its relevance dealing with today's challenges How should we respond to such complex forces as technology or the state How can we communicate with one another despite the problems inner to modern forms of media Dowe have hope for the future of our civilisation Ellul responds by describing how a Christian's unique presence in the world can make a difference Instead of acting as sociological beings we must commit ourselves to the kind of revolution that will occur only when we become radically aware of our present situation and undertake a ferocious and passionate destruction of myths In this way states Ellul we become the medium for God's action in the modern world Protocole pour les relations avec les partenaires de l'Église Walter Blake, 2010-09-10 CRS est fondamentalement un membre de l'Eglise catholique universelle Cette identité signifie que les partenaires de l'Eglise nationale sont beaucoup plus que des partenaires ce sont nos agences soeurs dans la famille humaine **L'Église dans l'espace public** Michel Bertrand, 2011 Ars Interpretandi / Vol.5 Giuseppe Zaccaria, 2000 The 2000 issue of the Yearbook deals with the concept of translation From the perspectives of philosophy of language theology comparative law and jurisprudence such a notion is here addressed both in itself and in its many sided relationships with the concept of interpretation Schwerpunkt von Ars Interpretandi 2000 ist das Problem der Übersetzung Aus den Perspektiven von Sprachphilosophie Theologie Vergleichsrecht und Rechtstheorie wird dieser Begriff sowohl in sich selbst als auch in seinen mehrseitigen Zusammenhang mit Auslegung untersucht Mit Beiträgen von Contributors Giovanna Borradori Donald Davidson Gerard Rene de Groot Winfried Hassemer Domenico Jervolino Tecia Mazzaresse Gianfranco Ravasi Paul Ricoeur Rodolfo Sacco John R Searle Michael Walzer Jerzy Wroblewski **La perfection**

Schaer,Jean-Claude André,2020-10-13 Process engineering emerged at the beginning of the 20th Century and has become an essential scientific discipline for the matter and energy processing industries Its success is incontrovertible with the exponential increase in techniques and innovations Rapid advances in new technologies such as artificial intelligence as well as current societal needs sustainable development climate change renewable energy the environment are developments that must be taken into account in industrial renewal Process Engineering Renewal 3 presents a prospective analysis that demonstrates the significant disruptions linked to sustainable development global warming etc These constraints may trigger changes in the social regulation system which in turn applies pressure on actors of process engineering to evolve and adapt to these developments *Confronting Technology* Matthew T. Prior,2020-03-16 We are living through a digital revolution which already touches every area of life and will continue to shape the future in as yet unforeseen ways Digital technologies are an ordinary part of daily life and yet they also present an unprecedented challenge to Christians to articulate a biblical theological framework to navigate times of rapid change The work of the French theologian Jacques Ellul is a theological time bomb primed for times like these Accounts of Ellul s career often divide off his sociology and theology but this book argues that Ellul conceived a single project of bringing technology into confrontation with the Word of God tackling the phenomenon he named technique the pursuit of maximal power and efficiency implicit in the technological enterprise with a profound depth of biblical and ethical insight Centering himself on the apocalypse or revelation of Jesus Christ in history Ellul offers a monumental timely though far from flawless contribution to contemporary ethical debates about the uses and abuses of technologies His work blazes a trail that Christians and all concerned for the future would do well to follow as we avoid both the naivety of technological neutrality and the dread of technological determinism **La provocation de l'espérance**

Elisabetta Ribet, La reprise de l'attention et de la recherche sur la pensée de Jacques Ellul 1912 1994 est aujourd'hui indéniable Son apport aux réflexions autour de la situation sociale politique et environnementale occidentale et globale nourrit l'analyse et la critique de certains des enjeux majeurs de notre époque Ce travail focalisé autour de la perspective théologique de l'œuvre d'Ellul considère en priorité le discours sur l'espérance Un deuxième horizon nourrit notre parcours celui de l'actualisation du discours et d'un dialogue avec des voix de la théologie de notre temps Tracer ces perspectives théologiques nous paraît une tâche très importante pour la théologie chrétienne aux temps des fondamentalismes et des intégrismes
