

Poverty

Poverty represents poor quality of life, illiteracy, malnutrition, lack of basic needs, low human resource development, etc. It is a biggest challenge to the developing country especially in India. It is a phenomenon in which a section of people in the society cannot fulfill their basic necessities of life. It has seen some decline in the poverty level in the last five years (26.1% in 1999-2000 from 35.97% in 1993-94). It has also declined at state level such as in Orissa it has been declined to 47.15% from 48.56%, in Madhya Pradesh 37.43% from 43.52%, in UP 31.15% from 40.85%, and in West Bengal 27.02% from 35.66%. Instead of some decline in the poverty in India it is not the matter of happiness because the Indian BPL is still very large number (26 crore).

Poverty in India can be eradicated by the use of some effective programmes, however need a joint effort by everyone not by the government only. Government of India should make some effective strategies aiming to develop poor social sector through key components like primary education, population control, family welfare, job creation, etc especially in the rural areas.

Social Thought in England, 1480-1730 A.L. Beier,2016-02-05 Authorities ranging from philosophers to politicians nowadays question the existence of concepts of society whether in the present or the past This book argues that social concepts most definitely existed in late medieval and early modern England laying the foundations for modern models of society The book analyzes social paradigms and how they changed in the period A pervasive medieval model was the body social which imagined a society of three estates the clergy the nobility and the commonalty conjoined by interdependent functions arranged in static hierarchies based upon birth and rejecting wealth and championing poverty Another model the book describes as social humanist that fundamentally questioned the body social advancing merit over birth mobility over stasis and wealth over poverty The theory of the body social was vigorously articulated between the 1480s and the 1550s Parts of the old metaphor actually survived beyond 1550 but alternative models of social humanist thought challenged the body concept in the period advancing a novel paradigm of merit mobility and wealth The book s methodology focuses on the intellectual context of a variety of contemporary texts *Early Modern Conceptions of Property* John Brewer,Susan Staves,2014-01-14 Original historical and literary case studies Distinguished contributors from different fields law art history literature Challenging and sophisticated theory International perspective First book in series brilliantly reviewed **Essays and Criticisms ...** Oliver Goldsmith,1798 *Experiences of Poverty in Late Medieval and Early Modern England and France* Anne M.
