Parent-Teen Communication James Jaccard, Patricia Dittus, 2012-12-06 The problem of unintended pregnancies among adolescents is a serious one Millions of dollars have been spent and hundreds of social science investigations have been conducted in the attempt to address the problem The present book reports the results of a federally funded research project on parent teenager communication about premarital sex and birth control Both the role and potential of parents in influencing the sexual behavior of their teenagers has been questioned by many social scientists The

literature is characterized by studies that tend to observe little relationship between measures of parent teen communication and teen sexual behavior Many of our colleagues informally express the viewpoint that parents have little to do with the sexual behavior of their teens and that attempts to reduce unintended pregnancies through parental involvement will be futile Indeed when we first sought funding for the present research several reviewers were skeptical for just this reason It is our belief that parents can play an important role in preventing unintended pregnancies In our opinion past research has failed to make important conceptual distinctions which has resulted in an underestimation of the potential utility of parent teen communication We believe that the study reported here is consistent with this opinion We have written the book with two goals First we wanted to identify important conceptual and methodological points that future researchers can consider in exploring this important area of inquiry Second we wanted to develop some of the applied implications of these points vis a vis our data

Bereavement Support Group Program for Children. Beth Haas, Jean Marnocha, 2014-05-22. Derived from years of actual experience in conducting bereavement support groups with grieving children, this unique program offers direct advice and tools for creating and conducting your own bereavement support group for children. The Leader Manual gives step by step instructions for establishing the support group along with activities for each individual session. The manual discusses the rationale and objectives behind bereavement programs, explains common grief reactions of children, and provides several techniques and skills that are particularly effective in grief counseling. The accompanying Participant Workbook contains worksheets for daily activities and thus allows participants to see the program content in written form while increasing communication with parents or guardians through the exchange of personal and emotional information. The workbook fosters participant interaction with its series of activity specific worksheets which require written comments and drawings. The six step program is designed for children between the ages of 6 and 15 and contains sections devoted to death and grief, feelings, and self-esteem. Expression of grief, memories, funerals, and healing and coping skills. The new edition includes an expanded number of sessions to accommodate the need for a lengthier healing process, a new session entitled Expression of Grief which encourages participants to express their feelings and which reassures bereaved children that they are not isolated in their experiences and feelings. New and revised activities appear throughout the leader manual including Death Experience Discussion, Picture of Life, Death Feelings Bingo, Funeral Story, and Telling about Your Death Experience. The participant workbook includes an updated and expanded bibliography section in each session. Leader Manual. This manual provides rationale and objectives, procedures for establishing the program, grief reactions, counseling.
